Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

I sincerely TY for allowing more than 40,000 gathered at this 1,608th Cheon Shim Won vigil again today. How grateful am I that I can resolve this new day with tears and hopeful resolve, here where True Father and absolute good spirits are together.

Please allow us to fathom the Cheon Shim Won and be resonated with cheonshim and resolve to become completely one with True Mother. Heavenly Parent, the reason we are gathered here with an earnest heart

and offering devotion is to go beyond the individual, beyond the family to fulfill the Will of Heaven and to comfort Heaven's Heart, and to pray for True Mother's longevity and acquittal, and to fathom True Mother's Heart and wipe away Her Tears (by resolution with the same Dream of Heavenly Parent)

We earnestly pray that You can be fully together with us and that we be pierced by True Mother's Heart to make determination and resolution, moving forward for Her sake. Please allow us to know the conviction of True Father Who made life-and-death determination before the Will.

Please let us inherit the Love of True Mother Who endures and embraces everything. In the 14th year of Cheon Il Guk, when we can attend Heavenly Parent substantially. In this Providential Golden Age that has little time left, may we not repeat the same mistakes, but realize them, that we not have the same regrets and future regrets. By our weeping and repenting with tears, may there never be a time again of wailing and weeping.

Please allow us to be the ones who move forward with Spirit and Truth, becoming one with Cheon Shim Won. In this difficult time, and when have we ever been without hardship (when You are a suffered Parent Heart), please let us have the Heart of Heaven that moves us forward. Let us reveal the Life Course and Love of True Parents of the entire cosmos.

We believe that for us, there is surely only victory (if we find oneness with the Mother of that Victory). We will resolve to accept hardship with joy and move forward with the Spirit of a pioneer...

Yeongseong Workshop

2nd son of one son and 1 daughter

While serving in the military, I resolved to attend CP and completed the 13th Yeongseong Workshop, dedicating to restore relationship with my father and older sister in that time. I experience the miracle of re-contact with my sister after several years, and my father of no faith previously, participated in the Family Pledge. I resolved to repay the love I felt because of that.

I started my activities immediately of the duty of Hyo Jeong. In university I formed a study group with friend and started a sports activity with dormant members. With the witnessing team, I revealed to my friends and professors that I have faith in the Unification Church. A friend responded by saying, 'I'm curious. I want to go at least once.' From that, I felt a joy that words cannot express.

Although sorry for not being able to fundraise well, through that witnessing process, I realized more the love of my parents and True Parents more deeply.

Even when my body was drenched by a sudden shower, I prayed for friends and contacts not to let this small devotion be in vein. And although not good at singing, I entered with the praise team, and the lyrics went deeply into my heart, and I shed tears.

As a sports science major, I lived a busy life while serving as a captain of the sports department and acquiring several certifications. Also, I tried to understand Heavenly Parent and True Parents more deeply by studying theology as a minor. And I was truly happy during the time I spent on faith activities. However, after True Mother was detained last September, I gradually became exhausted while continuing my activities.

I endured with the belief that all would surely be resolved. But I was often shaken in the face of reality.

Originally, I wanted to take a long time to repay the love I received with results. But I began to feel impatient with the desire to be a source of strength for True Mother. I always felt lacking in my devotion efforts.

There were also times when I did not want to reveal that I was a member of Unification Church, and I hated myself for wanting to avoid the negative social gaze, and only involving cautiously in activities. An emptiness began and grew similar to the size of the happiness I had been experiencing, and I realized it was a serious problem.

Meanwhile, meeting friends who knew about my faith, and hometown people, my attitude changed depending on the person. I wanted to be my true self, rather than changing, but I was frustrated not knowing how. That is why I participated in this Workshop.

I read the Words on Page 267 of the Cheonseong Gyeong: God gives and gives everything for the sake of all people. Yet, God feels ashamed saying, 'This is all I have for now. But wait a little longer. I will give you something hundreds and thousands of times better.'

I thought, 'Heavenly Parent is still loving me unchangingly, but why am I unable to feel that love fully.' Wanting to find the answer to that, I headed to Cheon Shim Won. While in the CY Session, I meditated on the Words: 'Giving and giving.' One sentence became engraved in my heart: 'True love does not seek a reward.' Tear that I could not find the reason for burst forth. I only felt sorry to Heavenly Parent and True Parents, and I had no choice but to sob and offer my devotion.

Afterward, looking back on my heart, I finally found the reason for those tears. Heavenly Parent was not a Being Who Desired results, but just grateful for my remembering and rejoicing in the Love Heavenly Parent gave. Rather, Heavenly Parent was Wanting to give more Love and wondering whether the Love was insufficient.

I had tried to produce results in any way possible to repay the grace and love, but visible results were nowhere to be found. In the past, that was okay. I believed that I would surely achieve them some day. But with M's Detention, the lack of visible results caused impatience and pain, and the lack of visible results felt like a burden.

I doubted whether I was conveying true love to people, nor if my current activities were fulfilling the duty of hyojeong. I realized I had not been active with the heart of hyojeong that wants to unchangingly share the love of Heavenly Parent and True Parents with everyone.

Although I did not lack the heart of hyojeong from the beginning. At a certain moment, the biggest thing leading my activities was proving the results. So, I was by no means practicing true love. Treating people that I had to produce results rather than just acting to love people, the emptiness rushed in afterward.

I felt sorry to Heavenly Parent. My attitude changed depending on the person I met. How good would it have been if I had realized this earlier. I could have done the activities so much better (tears), truly conveying love with the opportunities opened up there. I felt I had missed those chances.

From now on, especially as a staff member for the next activities, that will be held right after the Workshop, I will give them more memories so that they will want to come again, practicing the hyojeong that I can do by the path that only I can take and be a child who says, 'Hyo Jeong filial piety is mine.'

True Mother, it breaks my heart that You are spending this difficult time walking this path alone. But, True Mother you are rather comforting your children who are in a difficult situation, always us despite Your difficult circumstances. Please do not worry now. We will protect You. We will be victorious even the reality is not easy. I know Your unchanging love.

TY for teaching me true love. Gratitude to the students and all who supported me...

Testimony

Yeongseong Workshop

Cheonon Church Pastor

gratitude

A time to look back on my life. It flashed like a revolving lantern, my 3 Blessed daughters and grandchildren, my degree and touring churches. The nights crying, holding on to the papers of the members, but almost no time to look back. It was fate... all being set down... Heavenly Parent embraced me and moved me to this Place, a time to care for my heart and to offer my devotion for the sake of True Mother...

At Cheon Shim Won, I asked, 'Father, why did you call me here?' A word came, 'Mother is in big trouble. Mother is in big trouble (tears)' I thought, 'My prayer is needed. My devotion is needed.'

Small time is hanging on it. And I said, 'I see. I too must hang like the pine leaves. But I need to repent myself before that. Just as one must wash dirt in the bath house, my unconscious wounds and arrogance and fallen nature of every moment. I examined everything so that I would not be double-minded but center on Heaven and receive the Love of Heavenly Parent again. I saw the times when it was difficult, 'Why is this happening to me, even pounding the ground and shouting at Heavenly Parent.'

But when I was sick, Heavenly Parent healed me, and Heavenly Parent embraced me, holding me from behind. I felt Heavenly Parent is always guiding me with love, just as a parent does not give up on their child until the end.

One day I asked in prayer, 'Heavenly Parent, how do the young people pray and speak so well. Heavenly Parent, I don't know how I should pray. I heard the Words in my heart, 'No matter how much you wrack your brain to speak to Me, it is not that you are praying for Me, but I am praying for you.'

I cried to realize that Heavenly Parent loves us first and is praying for us. One day during the Workshop, my body was very sick. I was in such pain that I couldn't do anything. At that time I thought of True Mother. How much pain must True Mother be in? So long in that cold, hard and uncomfortable place. I too have had shoulder and back surgery and knee surgery. But True Mother also has had heart surgeries in Detention. How much pain is True Mother's Body in?

A loneliness came over me like a gust of wind. I called my daughter because I missed her so much, but the call did not connect. I thought, 'How much must True Mother miss True Father? How much must She long to see Her children, grandchildren and the members? (tears)

I met a member who comes to Cheon Shim Won every day to offer devotion, and asking why, 'I'm coming, risking my life for my father's recovery to health.' with eyes welling with tears. And I saw the image of True Mother, risking Her Entire Life to save humankind and realize Heavenly Parent's Ideal of Creation.

One day in Cheon Shim Won devotion while offering prayer for Mother's victory in the trial, I saw a vision: On a highway passing by like a treadmill, True Mother was standing, wearing white trousers and a blue jacket, waving Her Hand in such a dangerous place. I felt a premonition that She was about to go somewhere and that even more devotion was needed. As I passed by the portrait of True Father at the CheonBo Won, the Word came to me, 'Love and attend True Mother just like DMN did.'

In that short moment, I asked, 'How can I do it like DMN?' And the answer came, 'Just do it in the way you are good at.' I realized that True Mother is not Someone too high and distant, but a pitiful True Parents Whom I must love, attend and offer devotion

The 3 Words: Cheonshim resonance; devotion; and risking my life... These remain from Cheon Shim Won devotion. Devotion is offering with one heart; Cheonshim resonance is becoming one with the Heart of Heavenly Parent and True Parents, and risking my life is a life of practicing with all my strength in whatever I do.

I also saw a great hope how young people are being trained in the Academy and amidst the prayer sessions, being nurtured with amazing professionalism and love, and the seniors taking responsibility for building up their juniors is also being carried on here at Cheon Shim Won.

Also I experienced first hand that whenever young people come here, True Parents teach and coach them. Through CY session, Hoon Dok Hae, and what I learned here with the members, I will build a church that grows even more. Also, I will learn and convey the Words of True Parents more deeply and put the grace I have received into practice in my life.

The 40-day Workshop has ended, but I believe that now is a new time of beginning... special applause for her...

HJ Report

3-day Happiness Workshop

Members whom I respect and love, this Workshop where True Father wants to love and embrace those for a long time on the path of the Will...

We offer devotion so that we can reach a standard True Father wants, and revive those who have become exhausted in the path of the Will. I hope this Workshop has become a comfort, hope and strength

True Parents Words:

'The path of the loyal subject is to love the nation, become one with the nation and go to find one's own family, love and live for them. That is the path of a loyal subject.'

As I was reading this, I saw the image of both the elder BF's, who sacrificed their families for the sake of the Providence, and the image of our true children who miss their Parents' love. Although they cherished, loved and missed each other more than anyone else, they had no time to share those feelings, so misunderstandings and resentments occurred and grew. And now, it has become the pain of all our BF's. Because they didn't have time to share (tears) both parents and children, now it is time for us to understand each other and lift from despairs and use it to push ourselves forward.

True Parents Words:

I have never once despaired, not have I stopped living the Life for the sake of others, which is Heaven's Teaching. Through the life of living for the sake of others, millions of families are being reborn as families of peace and happiness.

Just as our True Mother Who was never despaired and has Lived to open up our hope, our BF's are not giving up and are living for the sake of the Providence (tears). Because of the sacrifice, the world calls us fools, asking why we are in the FF. It is not because we are fools that we sacrifice. It is because we are truly people who live for the sake of Heaven and for the sake of humankind.

Nevertheless, the world is committing unimaginable wrongs against True Mother Who has been leading us for such a way of life. On the 1st of the Workshop, we began the opening ceremony with a sense of not knowing what to do after hearing the prosecutor's demands of a prison sentence for True Mother. However, True Mother told us: love, forgive and unite. Do not pray for Me. Pray for the Unification family and your family. (tears)

Knowing that True Mother's Words were not out of frustration but of deep love that would always smile, harbor hope and raise us up to become one in heart and approach the Workshop with more resolution than before. And I believe that was the reason why True Mother gave us those Words for us to push forward. (tears)

55 members attended this Workshop. Although it is a small number, when I think of how much devotion they must have offered to come to this Workshop, there is not one person among them who is not precious. In order to send one member of their family, they added persuasion to persuasion and devotion upon devotion. I hope they realize a great deal during this Workshop, able to appear before True Mother as a family of happiness. We put a lot of effort to give our love and heart.

Those who have offered devotion, we have prepared a special gift. We offer these headbands as a way to say, 'TY. You're the best.' This is what we wanted to say all this time, but have not been able to express to each other (tears). Everybody who comes again, we will prepare a much more special present.

We carefully prepared programs in all directions to solve the problems of the members, including physical aspects, psychological, spiritual and modern-building aspects to move forward as a true family model.

Opening ceremony was with Secretary General Pang Sang Il on the first day.

video for bringing joy to True Mother's Heart

TY to Heavenly Parent and True Parents of HEH Who guided the Workshop gracefully.

testimony: She came for the 2nd Workshop but suddenly canceled to come later with her spiritual daughter. Kim Young-i... Working as a massage person, but when I look at a person, I don't see their problem as physical but with their deep heart. This is my beloved spiritual daughter. She gives lecture at the university, and she is very busy, but I offered a lot of devotion.

To be able to go to this Workshop with her, she is more lovely even as my own physical daughter. And she said: I realized how important our family is and to start giving the love and understanding first, and I resolve to live this way and thank all of you who created this amazing program.

another: (She dedicated herself to be a hyojeong heart for others and she came repeatedly in order to introduce the Workshop to others to know how much Heavenly Parent and True Parents love us. When they came with their husband and sons and daughters, I thought there was no problem with their family,

but listening to them, I realize there is a key here to solving all the problems. I could feel Heavenly Parent's Message, but every time it was different and with my tears. Every Workshop is totally different, and I will attend more and more, and the fact that I could listen to the stories of the families, I could feel how our BF has lived, and I could feel that Heavenly Parent was also listening, and I felt comforted and that Heavenly Parent was comforted as well. And I realized we could live in a happy life.

Heavenly Parent, TY for this Workshop place and for Cheon Shim Won TC Place as well. May we all become one.

First, Director Chun Yu San, disconnecting from the dark problems... One person was realizing that her father's compulsive disorder was materializing with her, seeing the cutting off of the fallen lineage and identifying which spirits were working with them, checking themselves like with outbursts of temper, and doing the liberations realizing how they are influenced spiritually and looking at each other through the eyes of Heavenly Parent.

another... realizing she had to become one with her mother, forgive her mother, and then realizing how her mother had helped her continually, even though so hurting her daughter, looking at her mother also as the daughter of Heavenly Parent. She felt the warm glow as she hugged her mother, and became closer with desire to take care of her mother.

another... When looking into her husband's eyes, how difficult and painful for him all this time and tears. All the resentment accumulated collapsed, and I will try to restore our marriage and go on to build a happy family. Feeling that there is no one who cannot be understand and praying they can move forward with even more joy, and we can approach each other more warmly. We learned how to express love with our body even without words. We could laugh from one program and dance and have songs to give comfort to the members who spared no effort until now.

The attending members also had time to convey the feelings not expressed until now...

No one was able to change this son's heart, and we thought to give a prize for those who turn this frowning face... Please participate in the Workshop...

I realize that my daily life was moments of crying and laughing and getting angry, but those moments were passing by and other families are going through similar things. This went beyond just having a time to be together but to approach each other with warm understanding, perspective that could not be seen by just my own.

another... she thought it was natural for husband and wife to have a life of faith together. Her husband spoke less, and when she tried to initiate conversation, her husband would get angry. Her husband stood behind her just watching. When I asked how this started to take place. It was when it was time to go to church but her husband would say he was tired and would go back to sleep. She felt that he was not doing what was natural and that her Blessing was betrayed, but he was so exhausted and had nothing left for church. Because it was not accepted by his wife, he endured a physical condition on his own and it got worse. Then she thought the problem was with her not her husband and she shed tears for the feeling that she was deceived.

She said her dream is for her whole family to go to the buffet together. She wanted to be a family filled with laughter, and he said, 'Let's go to buffet together. Hold on tight.' And we gave her a voucher. She asked when can she use this. I think her view of receiving comfort, comforted us as well. applause

Yun Young Jun felt the antipathy of the Japanese and for 30 years did not go to church.

I don't think I would be a help but I hope to be of some comfort with my words. I didn't do anything at first, but I must earn money for myself, so I woke early and did newspaper delivery and we went where it was the cheaper place, and in Japan, there were negativities everywhere. My body denied moving, for many reasons, but also lacking in my heart. When my wife said, 'Let's go to church,' I said, 'Let send the children.' I would not go of my own will later and then I even came to CP. So, please stay patient and then one day he will say, 'Let's go together.'

Because I am a mother and have responsibility, but now what's more important than asking to go to church is to live like Heavenly Parent and True Parents's Heart, and if you live that way, I am sure you will be victorious.

With the husband staying in his position without being comforted is in itself an accomplishment.

Not knowing my husband's condition and heart, I wanted to give up. Heavenly Parent let me know my husband's heart through what others shared, now I am more able to embrace my husband's heart with love.

The word card on the first day was what we used to look back on ourselves, with heart of parents, child, siblings, couple... Everyone offered prayers for True Mother with one heart... practicing to bring joy to True Parents.... going further with True Parents Words than with the head.... looking at our lives from the view point of death...

True Father: When people die, who do they call to first? They call to Heavenly Parent. From the place of death, they seek God saying, 'Oh, my God.' Thinking of God at the most difficult moment is the greatest truth. Who is the Person Who will be closest to you when you die, Who will shed Tears and Weep by your side when you die.

Among all the loves, Whose Love will you hold onto when you die? You must first hold onto the love of your parents. Next, you must hold onto the love of your spouse and love of your children. Even dying must conform to the physical 4PF. In fact, in the face of death, one does not seek Heaven and family by judging from the head, but from the heart one is moved to seek Heaven and family, with tears welling up and saying, 'Heaven, please help me. And my son, my daughter, I'm sorry. This with the natural heart that flows out from the original mind.

Since my children received the Blessing and happiness was in that family, I had thought that my family was a happy family. However, while writing my last Will during the 'Last Will Therapy Session', I realized that I had been living without having proper conversations with my wife. As I wrote, only contents from reflecting upon and feeling sorry for my wife came to mind.

If I were to go to the SW like this, I felt fearful that my wife might not be able to meet me when she comes to the SW later. My attitude was too arrogant to think as before that we were a happy family. When I return home, I will try to talk to my wife more deeply, to understand each other's hearts more.

Also, as a BF, I will try to convey happiness and love to people around us and do witnessing. I we look at the preciousness of things on when we are losing them in the face of death, we were taught that should rather cherish this moment of living together as if it were the last. I believe we all could then be

victorious, without missing a single thing in our life.

In this Golden Age, but when Mother is carrying the cross at the age of 83, there are those who are truly being reborn as a true BF, and testifying to the world about True Mother.

another: a lingering frustration comes while praying for True Mother Who sacrifices for the world... something I realized that I must strive for my children to live happily. I want to live every way than one, for our family to smile, rejoice and live happily.

Although my heart felt difficult that True Mother is in such difficult circumstance, I want to live to have gratitude and joy to give to Them.

A special itinerant worker came to the Workshop with her husband, and they were saddened to hear the recommendation of the prosecutors, and Director Oh Sun Sok said: While touring, I heard many members heartbreaking stories (tears). As I listened, and feeling that I couldn't help them much and was inadequate to be there. I thought that I must conduct a Workshop, but they are already holding this, and I hope many pastors can come as well.

After hearing the suggested sentence with the fact that (it is like a death sentence), and I felt that, 'Is it okay to be happy at any moment, but I felt that that is what Mother would have us do, and not lose anything within our family. I felt I need to lose more to my husband, and with a heart of gratitude, I hope it can be connected more and more to the TC to give hope to the people of the world. I thought I could help other, but it helped me, and as a couple we would like to say, 'TY for your effort.'

The show our smile of hope to our True Parents, seems to show that there is hope in our family, for hope, comfort and release to all of our BFs and they they become proud and testify to Heavenly Parent and True Parents...

Break

Busking

Hoon Dok Hae

A Place where one can feel the Heart of Jesus' cross and endurance of difficulty. The path that I have walked is one difficult to endure just by thinking about them. Just as Heavenly Parent gave trials to Father Whom God chose, God gave Me trials time and again. Just as Satan tested Father and Jesus, Satan tested Me as well.

This weak Woman passed through the same hardships and trials that the Messiah passed through. I was truly like a small sail boat floating on a rough sea. That time was also when I felt the grace of Heavenly Parent Who came to Me most deeply.

Even when I was in pain, Heavenly Parent Personally Appeared, gave me revelations and guided Me. Even with no such direct guidance, Heavenly Parent gave me revelations through people around Me who tried to love and protect Me. Even though I had to endure such difficult trials and hardships, at the same time it was the most beautiful time filled with the grace of God, a time when I could truly feel that God was with Me.

During that growth period, those hardships when looking back after reaching Perfection to the standard desired by Heaven, turned into joy. I could always share deep conversations and exchange with True Father at any time, with endless topics, boundless understanding and conversation filled with infinite trust.

Even without much conversation, we could deeply understand each other's circumstances---because of how mysteriously similar our paths were. True Father and I had a sense of victory to deeply understand one common purpose, enduring everything with indomitable faith for that sake.

We fought against all hardships and reached a standard of perfection, and We now walk that standard where Satan cannot intrude at all. True Father and I faced each Other receiving infinite comfort and peace with victory felt for each other.

If there is sin, I don't know, but the fact is that there are those who scold and accuse us when there is no sin. This leads to the conclusion that one can feel the Heart of Jesus' cross, and how to love the enemy. I felt that even if I fight in court, I will not die.

The US and Korea are in the same position as Rome and Israel in the time of Jesus. If Jesus had gone to the Roman senate, fought, won, and planted the flag of victory, Christianity would not have shed blood.

Therefore, if we win here, I believe there will absolutely be no history of shedding blood in the history of the Unification Church missions. Such history is unfolding. Seeing this is the battlefield where we can fight, and the work place where we can work now approaching before our eyes.

Therefore, your must exert all your efforts with the spirits of saints and of righteousness. Aju

Pres. Lee Gi-seong's Message

I'm sure they are tired, but I hope they bring victory.

There are 40,400 gathered at this 1,608th Cheon Shim Won... and I am grateful

800th vigil... TY small church 800th vigil

Nagano 39 member gathered at the same place

30 and 700th vigil and Yonami Yoshika Pastor's Message

This July 15th is our 700th vigil, and from 2023, our sister began by saying, Cheon Shim Won vigil is all I have, and only one or two people were there, but now with unchanging devotion, and after the dissolution order, we borrowed the house of a CheonBo family and we gather there together and with members' love and support, we were able to hold a 2-day Workshop of Divine Principle, despite such hardship and 2 people registered and more members are studying... And with Titatani's lecture, members shouted out and received the Holy Spirit much stronger than before, and we have young people too, able to come to now, and I am truly grateful for the grace and blessing of Heavenly Parent and True Parents.

May True Mother's situation be blown away... For this we unite and move forward. True Mother, please do not worry. We are here for You.

Kamikowa Higachi... more than ten people and 43,000 places from H Japan are with us

Russia and Albania and Philippines with Workshop they are holding and they connect to HQ and Benin, Nepal, Cameroon, and H SF and LA Korean Church... connect every day and LV...

At 297th day of True Mother's hardship, at the DC. The path True Mother walked is to save humanity. Heavenly Parent and True Father at this time, please accept this devotion and truly bestow the blessing of True Mother's longevity and exonerated release...

Making heartistic relationship, feeling the love of brothers and sisters, they want to meet again at the Yeongseong Workshop. They have found the ones that they can walk together with. There are members that had stayed home for a long time, but coming together at the Workshop...

testimony... Even in the military, he attended vigil devotion. This is not easy... And for Yeongseong trainees, as we listen to their testimony, he resolved that he must go after the military, and he came. Later, he came to the Korean general Workshop and gave testimony as the Workshop team.

The older sister made reconnection and the father of no faith, became faithful together. He went out witnessing diligently, but after True Mother's detention, he felt the consciousness of people's negative gaze. He repented later for not being able to practice properly the true love until later...

Our Grand Church pastor's testimony... and 2 people came... When pastors and public officials come for the long-term Workshop, members may see it as if they did something wrong, but that's not the case. They can receive the greatest grace is why they came. True Mother said, 'You must go within your family to attend the Workshop.' And they said, 'What kind of Workshop is it.' and True Mother said, 'Yeongseong Workshop' which has a very tight and passionate schedule involved. They went and the elder members and pastors made that victory. True Mother wants leaders to attend, centered on Spirit and Truth, just like others, sharing the grace.

She said she could reflect her past, and with all her mind and body, she offered prayer and was able to experience True Mother's Heart and a time when she could not stop her tears, tears that wash away the dirt and separate the evil spirits. And not with a separate heart but with one heart, she attended the Workshop and realized Heavenly Parent's Love once again, and more consciousness of how Heavenly Parent was always with her.

As she saw our brothers and sisters pray so well, she asked, 'How can they pray so well and express so well.' She has a PhD but was so impressed by our staff, with their messages. Our Cheon Shim Won staff speak so well, and such grace is bestowed with them. She was in deep pain, and trying to follow along with younger people, but she thought of True Mother, and True Father told her to love and attend True Mother like DMN.

And all of us, we are confessing our faith: She realized cheonshim heart, resonance with Heavenly Parent and True Parents, and risking something, whatever she does to risk her life, carrying the Heavenly Parent and True Parents's Heart in whatever she did.

Throughout this Workshop, looking at the young people, she felt a great hope and resolved to practice what she learned and it is only a beginning for her.

This is a great blessing in Cheonwon Special District... applause (without asking)

Truly this is turning into a Workshop creating happy and healthy families.

You say that our sister witnessed to a professor, who attended the Happiness Workshop, which in itself is

amazing, and do not fear what people say about us or how they look at us. You must change that gaze of people. Those who want to put a frame of criminal on us look with different view, but we must go out and proudly testify of True Mother to the world. True Mother will stay inside the frame of the prosecutors, if we don't take that away. True Mother always gives out what She has... She buys nothing for Herself, not a single one does She use for Herself.

In order to love all Her children throughout the nations is why things belong to Her. It is us who must take the accusations away from True Mother. If you look at our members who received the Words from the President, there are a lot and we must be proud of ourselves and move forward with that heart. A few days ago, there is the K-Tigers who went to Mexico and did a performance, and he said his model of pushing this forward was the Little Angels.

And he told us that whenever they call, they would come and perform. If we stay down, we will be defined as the world does. They have lived for the peace of this world, and we must let people know. Our youth when they go out, should not lose energy. Give and take action is the source of our energy and the Source of all energy is Heavenly Parent, and True Parents are our Subject Who allow us to have proper give and take action. They are the Kings of kings and resonating with Them, we receive strength and power, and that Place of that Works is Cheon Shim Won, Father's Office and Mother's Womb, and the Substantial Holy Spirit is there.

You can bring your tired spirit and organize yourself at Cheon Shim Won and no matter what trials, you will not waver and you will push yourself toward the destination without fail. So, those graduating, do not stop for any reason of having to leave early the next day or any reason, or else listen to the Words and report. If you offer prayer until your heart is at ease. Heaven will give you the answer.

And if you cannot attend vigil, even in other nations, we actually send out the recorded version, but every day thousands of people watch in their respective time by watching the recording.

True Mother has told us to offer the devotions, and there are a variety to choose from, but True Mother actually chose one and scolded me, that it is the Cheon Shim Won vigil to emphasize, prioritize from all other schedule. And True Mother told us to offer prayer as if at war. So, the greatest and best is Cheon Shim Won devotion, and I hope you realize this fact.

Why does True Mother tell us to offer this devotion at night. It is because the world has become the world of night, and this is the fire... If you do not believe in the pillar of cloud and of fire, you will perish. Now is the time we fight against the dark forces, and I hope for your great blessing from fulfilling True Mother's Words at Cheon Shim Won vigil devotion...

Prayer and Praise

Rev. Tsujingte prays

Please accept this devotion, however lacking, as the precious condition for True Father to work through us. We testify that our True Mother is the OBD Substantial Holy Spirit, the Mother of Forgiveness, Sacrificial Life, Mother of True Love and Peace to wipe away the tears of humankind and the Mother of Peace Who makes us one.

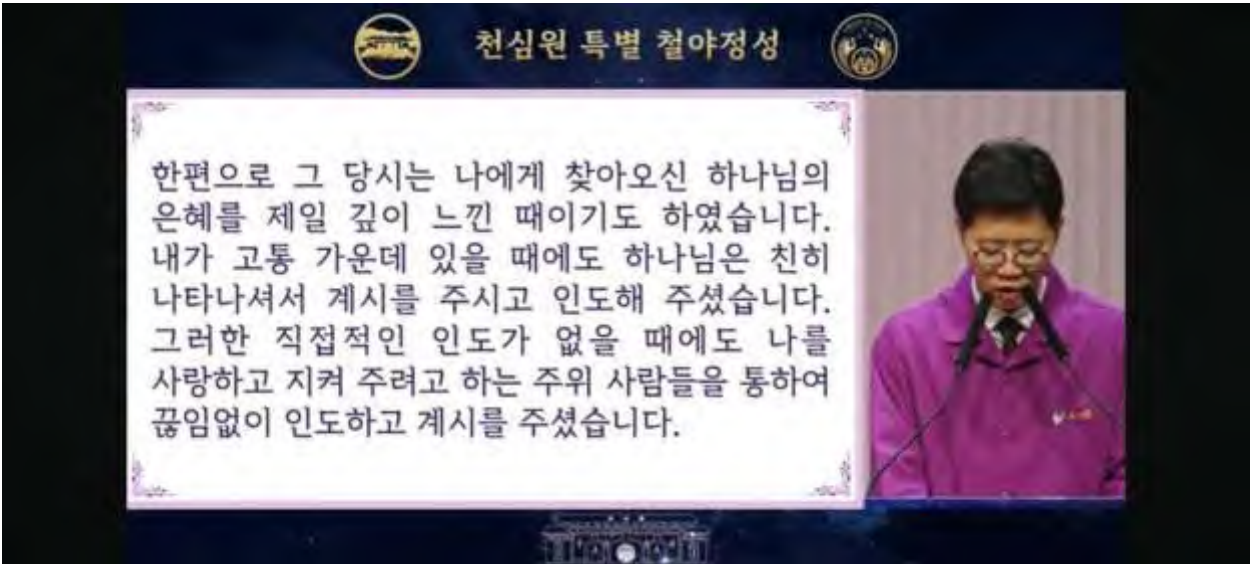

Yet the world does not recognize our True Mother properly. Like the witch hunts of the Middle Ages, all sorts of devils, envy and jealousy, slander and plotting are becoming the central resentment spirits for those performing opposing standards, causing reckless behavior.

Heaven please move the consciences of all those in SW and one earth who do not recognize and who hate True Mother, so that they may repent, be forgiven and be blessed. Please guide them.

If members worldwide participate and offer endless devotion for liberation of central resentment spirits, for the deceivers in the Republic of Korea, can this serve for the condition for our Mother to receive

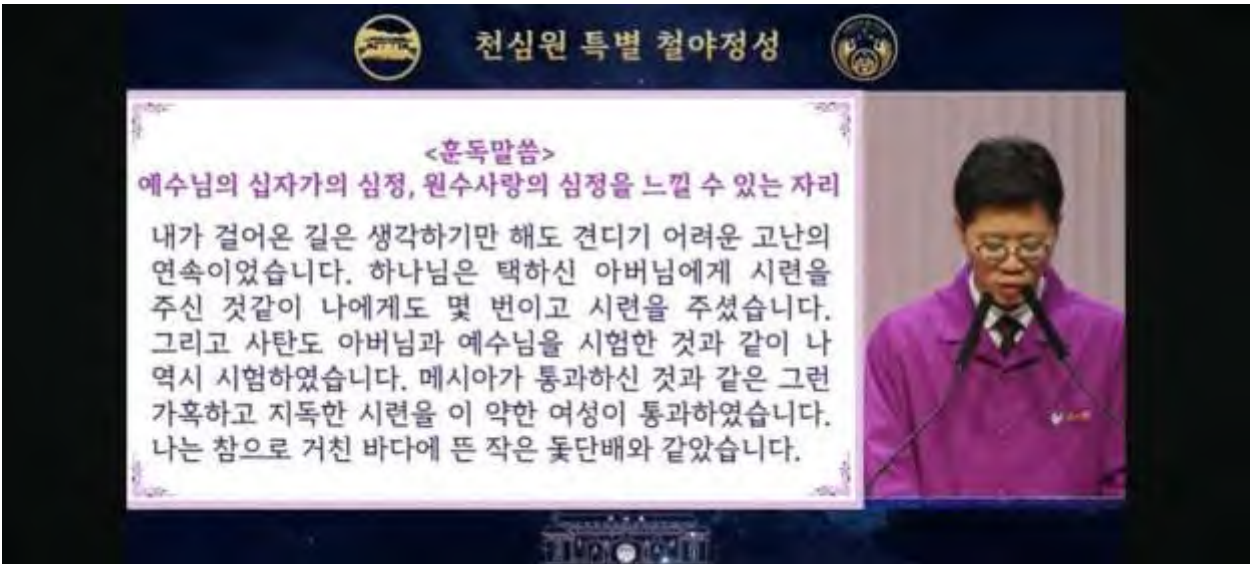

liberation and release.

We are sinners who have failed to attend True Mother properly, and we offer even our lives, so please work through the condition of our faith.

For the remaining period until August 31st, we will offer the best of our respective places, we will gather our devotion like sunlight gathering light in a reflecting glass, and allow us to not be ashamed before history, gathering our devotion with the heart of life-or-death determination.

Those who know the law can offer devotion through the law, those who are righteous through righteous things and those who have material, through material things, and those who believe in the power of prayer will obey the Words, 'Pray like a war,' making the Cheon Shim Won devotion even hotter, so please Heaven accept the devotion of us all.

True Mother, Who alone is bearing the cosmic cross, with my heart feeling to burst, please bless the prayers across the globe for Mother to come as close as possible. Truly, I am grateful the see our youth become clearer than diamonds, as brilliant pearls as their fallen nature is washed away by various WSs. Please Heavenly Parent and True Parents receive hope and glory for the future... and the vigil offered by tens of thousands today gathered for True Mother's acquittal and return the Cheonjung Gun...
