Song of the New Eden

Bow and Pledge #7

Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We sincerely thank You that members worldwide can gather in the special Place of Heavenly Parent's Warmth an True Parents's Warmth. Heavenly Parent, True Mother established Cheon Shim Won with

Tears for our sake. Through HJ Testimonies, Praise and Reports, You have awakened our conscience to Cheonshim, you have allowed us to feel the joy of resonance. You have allowed us to experience how a self-centered life is uncomfortable and painful, and how great a joy it is to live a life for the sake of others.

Furthermore, You have opened the Era of One-Heart Resonance Prayer in which we advance toward Cheon Il Guk, the Cheon Il Guk world. Based on the firm belief that the Work of Re-creation is taking place at this very moment, Heavenly Parent, please respond to the earnest devotion of us who inherited this Cheon Shim Won. You have said that the prayers of Cheon Shim Won do not fall to the ground.

Please work so that our prayers and devotion will surely reveal the Truth and become a comfort and strength to True Mother. We earnestly pray that You make this 1,609th devotion today deeper than yesterday so that we may all be those who rise up and advance again, moving forward with others through the Gates of Heaven and Heaven realm that You have opened today.

By doing so, please Work so that we may bear fruit through our lives in practice of what True Mother has Said, 'I will not leave any more history of indemnity for future generations. We earnestly pray and desire that this Cheon Shim Won devotion and resonance be permitted to be a work of miracle that True Mother be released and returned so that we in this Golden Era may surely attend filially and return all the fruits.

Kim Song Oh

'Wish'

(the song True Mother dearly loves)

I've got a lot in my hands

My hands hurt

The weight of life on my back

makes my whole body ache

I have to deal with it every day

I didn't even have my time

I've been busy my whole life

My legs hurt too

When I'm tired and lonely,

if you could listen to me a little bit

One day, all of a sudden in the middle of time

I don't think I'm alone

It's not a big one

It's a small one hugging me who is tired

'I love you. I really love you.'

If you tell me that,
even if I walk in the desert,
I'll think it's a flowery path.

We're not getting old.
It's getting cooked little by little
The only Person we should go up there with
is our TRUE MOTHER

VIDEO H Japan resonance prayer 3-day Workshop

Once again for us to restore the 2nd and 3rd generation, please give us courage'

VIDEO from H Asia/ Philippines

'We are here, the Philippines 2nd Daughter Nation... No matter what it takes, we will be here for You...
Please receive love and hope from Your children here in the Philippines. Please receive this song
'Longing Toward Heaven'

Here in Cheon Shim Won, I offer all my heart to my Parents

The longing I feel for Them,

I lift high to the Heavens

Here in Cheon Shim Won, I offer all my heart to my Parents

The longing I feel for Them, I lift high to the Heavens
Our Parents, Who have waited so long
Prayed with Tears for Their children

How could we ignore Their Hearts?
We shall express our longing in prayer

TESTIMONY

Kim Kon Sik
eldest of two sons
Kayam Church

I am currently working in the Korean Registration Team at the CheonBo Heaven and Earth TC. As it happened, there was finally time between the Spring and Summer GWs, allowing my year-long wish to attend the 22nd International Yeongseong Workshop.

I realized looking back that the time before was a time to prepare internally, with severe trials that blew in... Although, still a long way until True Mother's return, the harsh environment for True Mother make a place of wavering, emptiness that could not be filled and disappointment, and not because of our leaders but because we have not become fully one with True Mother, and I haven't deeply understood the Heart of True Mother as She walked the lonely path of the cross all by Herself.

Realizing that, if we had become one centering upon Cheon Shim Won, and known and practiced the importance of Cheon Shim Won vigil devotion sooner, we would not have wavered so greatly. I was able to face the spirituality Workshop with a whole heart, and I set major goals.

First, finding myself

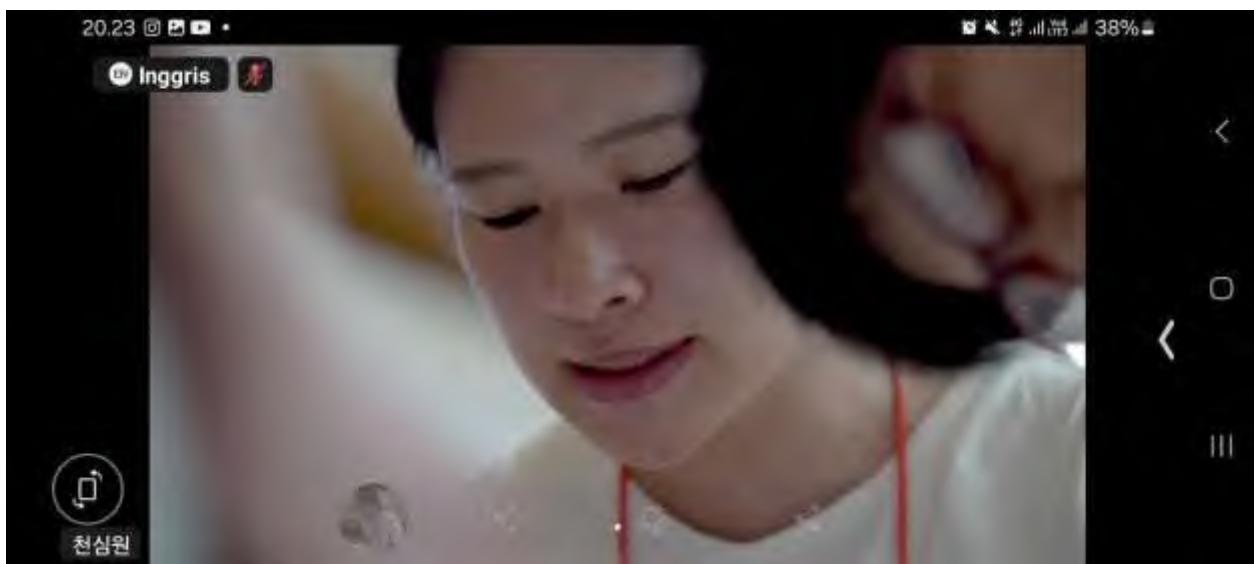

It is said that when we go to the SW, we are liberated from all earthly constraints, such as being born in Korea, or being born as the eldest son, and live as our complete selves. Since our ultimate goal is life in the SW, I wanted to find a way to live as closely as possible to my original self, starting here on earth.

On the first day of the Workshop, the topic of the Message of the intensive prayer meeting was surprisingly similar to my goal. It was 'Finding the Heart' which comes first to finding myself. It was explained that 'heart' is an emotional impulse to be happy after seeing the other person rejoice when I have invested love.

From the very first day, Heavenly Parent established a clear direction for me. Although I have always hesitated to approach others first, I made a pledge to express interest to those around me.

Second, to learn how to create a true family who lives attending Heavenly Parent as our True Parent.

I wanted to create a family that breathes together to attend Heavenly Parent and share joys together. Throughout the Workshop, while listening to the Blessing education, bowing education and lessons on family life from the Cheon Shim Won Director, I engraved in my heart the Principles of how a couple can have give-and-receive action and raise children correctly.

I prayed that when I meet a Blessing partner, I will put these teachings into practice and create a happy family where Heavenly Parent can come to visit. With such a firm resolve I strove with the Workshop at every moment. However, strangely, the feeling of frustration, as if a corner of my heart was tightly blocked would not go away, even when I shouted in prayer until my throat was sore and my whole body soaked in sweat.

Even while offering calling out prayers with the mindset of commanding the SW, it felt as if I was not reaching Heavenly Parent's Heart. Why on earth am I not getting through? In deep agony, I realized that I had firmly locked the vault of my heart by my own will a long time ago.

I reverted back to the time of my mother's seonghwa in early 2017, and my father's encoffenment ceremony by my grandfather who had always been a strong spirit, a veteran of the Korean War... seeing

my father grandfather crying softly in the place where no one else was.

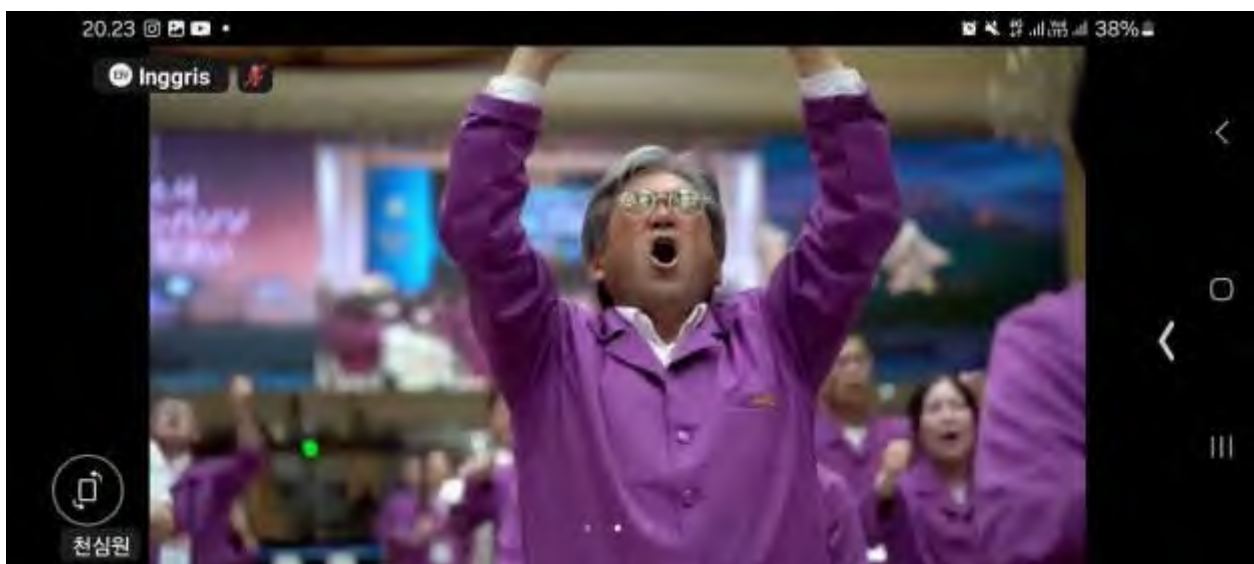

After seeing this, but my grandfather wanting to send my father off with dignity, seeing the facts of my grandfather and father who lived as eldest sons, I realized that enduring myself and living for the sake of the family alone, was a great virtue of eldest sons that I should possess, in the end, before the sense of helplessness of losing my father had even passed, I closed the door of my heart due to the fear that I did not want to be hurt any more, and that had become a huge wall blocking my faith for several years.

Then that door of my heart, one day, began to shake violently. It was by none other than True Mother, Whose Love endlessly knocked on my heart. while silently walking the path of the cross alone. Heavenly Parent was constantly visiting the door of my desolate heart where there was no feeling, and knocking endlessly, and that closed door finally began opening little by little. Love was long patient and unailing.

As this happened, an anecdote that I had forgotten as a theology student at Sun Moon University came to my mind. It was when there was an opinion that the night operations should be stopped because there were no students coming to the library, even though True Father said to always keep those doors open so that students could come to study all night. Father Who visited the library through the process of suspension, looked around inside and said abruptly, 'There he is.' and went straight out. It is said that in that deep corner where True Father's gaze lingered, there was really just one student studying all night.

Although it is still not known who that one student was, thanks to that one person, countless students were able to fully enjoy the benefits of night study, even until I attended university. And this anecdote became a huge inspiration in my life motto. It is because I made the resolution, I will also become that one person. I was convinced that, even if everyone else left because it was difficult, if I held up and stood alone for Cheon Il Guk, future generations would follow me and fully inherit that H Blessing.

If countless people could inherit Heavenly fortune because of my tradition, was grace could be more valuable than that. I deeply experienced that I had been wandering in the Church of Heavenly Parent's Heart, crying out and knocking with tears during the spirituality Workshop period, precisely to become that one person.

Love was patient for a long time and gave itself away, and Love never failed. Perhaps, I could receive that and open the door of my heart never again to fail. Now, growing more little by little, from now on, I will

constantly strive to resonate with Heavenly Parent's Heart and Emotion, in order to experience Heavenly Parent's Heart.

In the past, I refused to approach others first, hiding my emotions because I did not want to be hurt. Now I will strive to invest love first, so that I can be connected to Heavenly Parent's Heart. Finding my true self in that way and enduring in my position to the end, I will become the one person that True Father was looking for, and I will become the small needle that True Mother was looking for so that the future generations can inherit H fortune, living as the proud, direct child of Cheon Il Guk and as pure water...

HJ Report

Yu Su Hun

Team Leader of HJ Secretariat

22nd Yeongseong Workshop grace

(tech difficulties)

I hope even one more person will resolve to join the Workshop...

I once had the opportunity to have a special meeting with a respected person of that time who asked if there was any graduate of the 5th Spirituality Workshop. TYSM for finding the small needle and resolving the Wish of True Mother. On Nov 9th, 2023, since the Ascension of True Father, True Mother has walked alone. The President of the Association said he was so curious what that small needle was and it was not an outstanding leader or result of them, but it was precisely a child who could become one with True Mother. If you look, you would see many had a difficult member in the past, lacking to know the True Mother's Heart in the Way of Providence, but they could become so changed in 40 days.

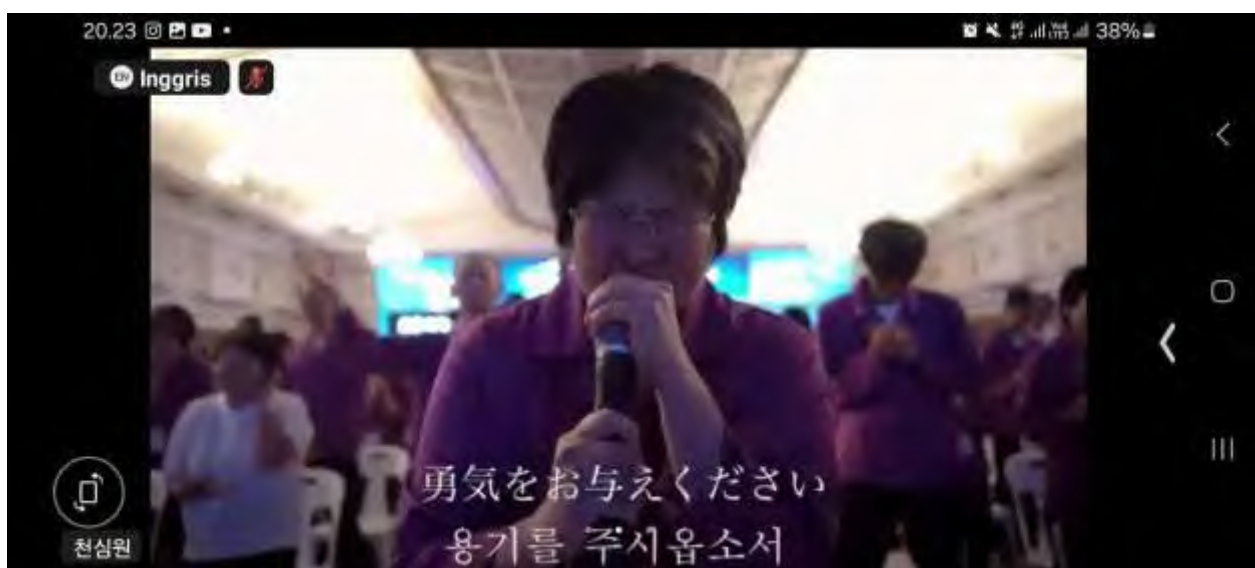

The reason for the great transformation of the youth is that this 40 day is presided over by the H SW and True Father's Office of direct education in the Place like True Mother's Womb. The Greatest Gift for True Father to give to True Mother, Whom He loves more than anyone else, was for us, the trainees to have the education and experience to become the needles one with True Mother.

When asked what the best way was for HyoJN to offer hyojeong to True Mother, it was for us trainees to long for Mother with a heart of attendance and become one through this Hyo Jeong Praise... to have a heart of attendance longing for our True Mother.

I came to know that HeungJN wished for us trainees to sacrifice ourselves, have this true love and become small needles who can fathom Mother's Soul/Heart... through extreme devotion

Exactly two days after the small meeting with trainees on Nov. 11 2023, True Mother said:

From FD until Cheon Il Guk year 11, I was alone. From now on the Unification Church must move forward with Spirit and Truth. Cheon Shim Won and the FF must become one and move forward. The reason why Cheon Shim Won prayer is important is so that True Father in the SW launches Work in the environmental sphere that we must expand for the sake of Heavenly Parent. That is True Father's Wish. And it is also the wish of humankind.

Therefore, you must earnestly report to True Father at Cheon Shim Won. You must offer devotion prayer, saying, 'Today, I am going to visit such-and-such place. True Father, please be with me. Please show the power of Heaven.

In this way, if one receives this 40-day Workshop here at Cheon Shim Won with a pure, snow-white heart and with all one's sincerity, Father works from the SW so that even those who could not experience the Heart of Heaven (which some could not experience even after decades, can now experience it with the Subject Partner SW, working so that they can become one with True Mother.

There were countless works so that this 40-day Workshop could be explained as touching the Heart of Heaven through extreme devotion.

VIDEO

True Mother: I have such hopes for you, thinking that it is difficult for you though, please do not fall down thinking that what's ahead of you is difficult.

Opening Ceremony... lectures... prayer...

True Mother gave the Words that serve as the Root of the 40-day Workshop:

You must raise youth who can become leaders and successors, particularly those who know how to read True Mother's Heart. You must become a fence that establishes 3 generations.

Leaders who are not absolutely pure and chaste cannot come forward. Therefore, you must teach them to remove their flaws and blemishes through the devotion. Through this Cheon Shim Won which provides education, now you must live according to the CIF Era.

When moving forward toward the system of priests? of high spirits, Cheon Shim Won is the Place that can raise those who hear H's Voice and convey H's Heart. No one can come this way unless the SW and the PW become completely one and move forward."

These Words were given at Cheong jeong Gung on Oct 11, 2020, the Day that Jeongshim Won was renamed Cheonshim Won, and the Day that Pres. Lee Gi-seong was appointed as the President of Cheon Shim Won.

On the Day of the Victory Celebration, congratulating all the victories after True Mother's Victory of

2020, She gave Words regarding Cheon Shim Won and bestowed its Mission.

True Mother: Cheonshim Won is the most important. JSW will be renamed Cheon Shim Won in the future. I established a 3rd generation to established the Tradition of the Providence while I am on earth. I will create all the environment so that things can flow smoothly like water. To do this, I plan for Cheon Shim Won to become a Place that cultivates pure water and human resources that could communicate with the pure and chaste Heart of Heaven. And I hope PL will take full responsibility for planning and moving forward.

It will be the most important Providence for the sake of a unified world, one human family centered on Heavenly Parent. We cannot give any room for impure things to enter.

I will allow those who become one with Heavenly Parent and True Parents... centering on True Parents, so that Her Words do not fall onto the ground, we foster human resources... and all programs are well organized... constantly offering devotion and cultivate spirituality...

We receive prayer training in the resonance prayer and with free time we go and offer the devotion personally that we could not before... and during weekends intensive prayers... Epic education... We went to the Cheon Jung Gung and time to converse with our True Parents spiritually... At CheonBo Won, we inherited DMN's attitude of attendance, and on the Day of All True Things, we held the Tree of Blessing... Tree of All Things Prayer.

The day of Mother's final trial on June 10, we offered devotion for victory... after the 1,600th vigil devotion, these were precious days where the Subjective SW had no choice but to be with us...

The Opening Ceremony had the remarks that True Father had given from the SW:

I sincerely welcome all of you who have attended the Spirituality Workshop and the Attendance Workshop. What kind of life have you lived before coming to the TC? There must have been many moments where you could not stand proudly before God and True Parents. However, the past is not important. The future is important. Therefore, you must change 180 degrees.

No matter what kind of life you have lived, there are many days left for your to live. You must live your

training before Heavenly Parent, moving forward even more diligently for the remainder of your life.

Young people must take on challenges. You must pioneer the path while attending Heavenly Parent. You must never forget the fact that Heavenly Parent is with you, no matter what path you take. Through this Workshop, you will find answers to many of your questions, and you will realize the fact that Heaven has never left your side for even a single moment and has always watched over you and been with you.

Whether you are happy, struggling, failing or falling, Heaven has always been by your side holding you up. The moment you realize this fact, you will discover what path you must walk in the future.

Countless members have offered devotion and prayer until you came to the Place. You were sent to receive and to hope that you will experience the Heart of Heaven, and that you will experience the Heart of True Mother. Therefore, you must live a life to accomplish not living in debt.

Above all else, you must lay yourself down. You must not foster your own thoughts, your own stubbornness and your own limitations."

And PL offered the prayer: Let us become children who are completely one and a great strength to True Mother so that the Will of Providence may be fulfilled, so that the leaders of this nation may receive revelations and enlightenment to correctly know the Will of Heaven.

In this way, the 22nd Spirituality Workshop was like True Father's Message, a time of offering devotion, offering oneself and casting off limits. It was a 40-day period of investing with a life-or-death resolution, not a lukewarm heart.

Trainee Ah don ho? (This is the person, everyone knows who he is, who entered the Workshop and offered devotion at the risk of his life to receive the cooperation of Heaven to resolve legal issues) For 120 hours over a period of 5 days, he stayed at Cheon Shim Won without sleeping for even a single breath and offered extreme devotion, 1,000 bows of devotion every day in order to break through the limits of his physical body, adding 100 bows to make it 1,100 bows, and offered each and every bow with all his devotion.

He offered calling out prayer for HMH 10,000 times and for the work of the SW, he offered calling out

prayer for HyoJN, HeungJN and DMN 430 times each. He also offered calling out prayer for his family and the 9 company executives.

And there is a behind-the-scenes devotion of offering transcript of the book titled 'The Value of True Parents' His transcript version of the Book has not yet been published. He offered the English version and transcribing it.

By the third day, all the skin on his knees peeled off. All his desires disappeared and his consciousness became easy. And on the fourth day, he began to see things that were not visible and sounds others could not hear.

True Father Manifested and gave him several Words:

It was because he offered devotion at the risk of his life, with a life-and-death resolution, that True Father Manifested to trainee Goh. He said that he had never seen True Father in Person or His Speeches before but saw True Father in the Japanese video Speaking the unique Japanese pronunciation, and he became convinced that it was indeed True Father.

And although it is difficult to tell you everything here, trainee Goh has continued to receive Messages from Heaven occasionally, even after receiving the Workshop. So, having received the Call to him, he came to the 22nd Spirituality Workshop to establish the victory of going beyond the individual level.

It was June 8th that I received a message, a report from the couple that had built a tower of devotion with the #43 with the standard of life-or-death resolution and putting it into practice and for True Mother in the Workshop, fully participating but in their spare time, they will offer 43,000 bows, calling out prayer for HMH 130,000 times, read 40 pages of Cheonseong Gyeong daily and write 43 pages HJ Offering Papers.

Since the report was given on the 3rd day of the Jeongseong Workshop, with only about 36 days left, they truly set the conditions of devotion with a life-or-death resolution. To give the conclusion first, on the day the Wata Goh couple gave their testimony, they were victorious in offering their 43,000 bows of devotion... big applause... And yesterday they reported that they had achieved the great victory in all the conditions of devotion.

Testimony of (sister/wife) Wata Goh? at the time:

Although I was born as a 2nd generation, it was only a few years ago that I came to know Who True Parents are. I didn't even know the words we often use, 'dormant 2nd gen'. Without knowing the meaning of that or 2nd gen Blessing, I met my husband at 18 and married at 20.

We were blessed with 2 children, but married life was different from dating and every day was a series of difficulties. Then in Jan of this year, my husband attended the 19th spirituality Workshop. Communicating with my husband every day, I also received much grace.

Watching the changes in my husband after he returned, I realized that as a Blessed family, I too must stand with the same standard as my husband. After that, I read the Cheonseongyeong twice in 2 months, and this time as if True Father was calling me, our couple entered the 22nd Spirituality Workshop.

Actually, we knew the True Parents through knowledge, but we knew that we were unable to truly contemplate Them from the depths of our hearts. So, our couple set our devotion together with a life-or-death resolution, full investment and putting into practice what we preach.

In order to experience Heavenly Parent's Heart and become one with True Mother, we offered our physical bodies, time and all things before Heaven. In order to experience this Heart, we offered bows until we reached beyond our limits. Even when our muscles were damaged and our knees swollen with fluid, we offered each and every bow with our devotion.

Whenever I felt that this was part of True Mother's Heart as She walked alone after True Father's Seonghwa, I raised myself up again. As I repeated my devotion, a great change occurred in my heart as well. I felt that I was resonated with Heaven. I came to miss True Mother, and I came to feel True Father closer than my own father.

And on the 24th day of the Workshop, I realized that wanting Mother's return to Cheonsung Gung was my own wish. From that moment on, our prayer changed, 'Please use our devotion to Your Heart's Content, according to H's Will whenever, whatever You Wish. I came to realize that to lay oneself down for Heaven's Will and offering everything without conditions, was the appearance that true devotion should aim for.

I realized that True Mother wants to fulfill Heavenly Parent's Wish even if She has to sacrifice Herself. I came to realize that this is Heavenly Parent's Heart and True Parents's Heart. Now, I'm not even afraid of my husband's death. If this is the path Heaven has prepared, we will walk it with gratitude. We will fight together with True Mother.

We will testify to True Mother, restore our tribe to Heaven and offer up the restored nation.

It is so graceful that I am deeply moved. Her husband also gave a grace-filled testimony.

After True Father's Seonghwa, True Mother has walked this path to fulfill Heaven's Will, with the Heart of Heavenly Parent searching for one small needle. I sincerely regret how much we didn't even know that fact of our Mother.

The very same day the sentence was requested in Mother's trial, we faced a very important 3rd trial date, many who had stood on our side, stood on the opposing side as if they were betraying us. The shock was greater because these were people who we had helped, supported and trusted whenever their businesses were struggling.

What I realized then was that we have come to live a life walking with Mother to the end. Her legal counsel advised that we should return home immediately and take measures saying that we will not only lose the case, but it will be difficult to continue the business. We felt that we were being tested whether we could lay down the money, the company and everything and walk with Mother.

My wife and my answer was clear that it can't be helped. We have no choice but to trust Heaven. My wife answered without hesitation. We decided to stay at the TC and continue to offer devotion for True Mother.

Speaking of how the path True Mother is walking right now is started from people She supported and trusted, I keenly felt that what we are going through is not a simple coincidence. Through this event (the legal even of their own), I was able to experience even a little of the pain that was in Mother's Heart as

She feels now.

The demand for a verdict of 13 years, considering Mother's age was treatment that felt like a death sentence. Through Mother's final statement, I was deeply moved by Her determination and resolution. I felt that that statement was a last one that She will be leaving to first and second generation. True Mother is Living at the top of the sacrifice that She has endured throughout Her entire life.

Even as we lived lives completely opposite to the Principle, Mother embraced and loved us. We gratefully receive the gift of Cheon Shim Won given by our True Mother, and we were able to experience True Father as well as True Mother's deep and boundless Love.

From now on we will testify to True Mother and fulfill Mother's Will together. Our couple will become the special forces of Cheon Il Guk and will advance vigorously until the day of victory with a single-minded heart that does not change until the end.

To become someone who can hear Mother, I will advance every day with all my devotion

When trainee Wata Goh first said that he would offer the extreme devotion, I felt ashamed of myself. I asked myself, 'How much devotion am I truly offering for Mother? Am I offering devotion with my whole being? Do I truly have the qualification to stand before these trainees?'

Although I was so lacking and insufficient, the multiplication of devotion from trainee Goh was passed on to me, and I too increased the level of my devotion for True Mother's acquittal and swift return.

I felt that even offering this 1 to 30 bows requires a resolution every day... How is it that the Watah family can offer devotion while fulfilling all their schedules? It is truly amazing, but this devotion at Cheon Shim Won caused the multiplication of goodness and grew larger and larger. And from a certain point, many

trainees began to offer 1,000 bows of devotion for True Mother, to overcome their own limit, to experience Heavenly Parent's Heart and to become one with True Mother.

This is the list of the names:

They skipped meals or came right after Cheon Shim Won devotion... every single day and how is it that we

(I missed so much this time...)

(testimonies of the trainee devotion list... hope this will be on Cheonshimwon TV)
