Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

TY We TY at this time for opening wide the Gates of Heaven and presiding directly... Heavenly Parent of mercy and love, your beloved children have gathered in Your Holy Sanctum. Please allow us to examine our own positions and Purpose we come here for with what kind of connection to form with Heaven.

Let us know that his yearning for our Heavenly Parent, our True Parent moving up from the heart and this earnest longing for the Will for Heaven is the driving force that can move against the flow of fallen

history and is the shield of victory allowing us to stand upon and rise above the waves of death.

Among the many peoples, You have called and raised up the Han people. Before the Will of Heaven, please allow us to be the ones who fulfill the Heavenly Counsel Words and become alive as the effective central nation that can take pride in itself, to embrace all tribes and to advance toward a world of peace.

In particular, You have sent the True Parents, Saviors to fulfill the Will of Heaven for the entire cosmos. Please work so that this nation may become one with True Parents and fulfill its responsibilities and mission, as You instructed us to go forward in Spirit and Truth, and for all churches and members to become one through Cheon Shim Won devotion.

Please allow us to strike the roots of our faith even deeper with earnest prayer and devotion, that we may become a church site of revival, please work, we who have been called before anyone else and have been allowed to realize the Will of the Providence of Heaven, will advance toward that one day when all people can rejoice with True Parents as the Central Axis of our devotion, please Heavenly Parent Work through us.

Please have mercy on and protect this nation, the Republic of Korea, the Homeland of the Providence. Through Epic history education and the Principle, please allow the leaders of the entire nation to awaken to the Will of Heaven, that they may walk together with Heavenly fortune.

Please be comforted that all Blessed families in Heavenly Japan are advancing with unwavering, loyal heart, becoming one with True Mother. At this time we are crying out and praying earnestly holding onto Your Heart with all our hearts from all over the world and praising the Holy Glory of Heaven on high.

Please let us know Your response to us so that we may offer the fruits of victory before Heaven. Please work so that all the good groups, the righteous people You have prepared, who are building altars of devotion may surely realize the nation of peace You have longed for and be gathered as one centering on this Cheon Shim Won.

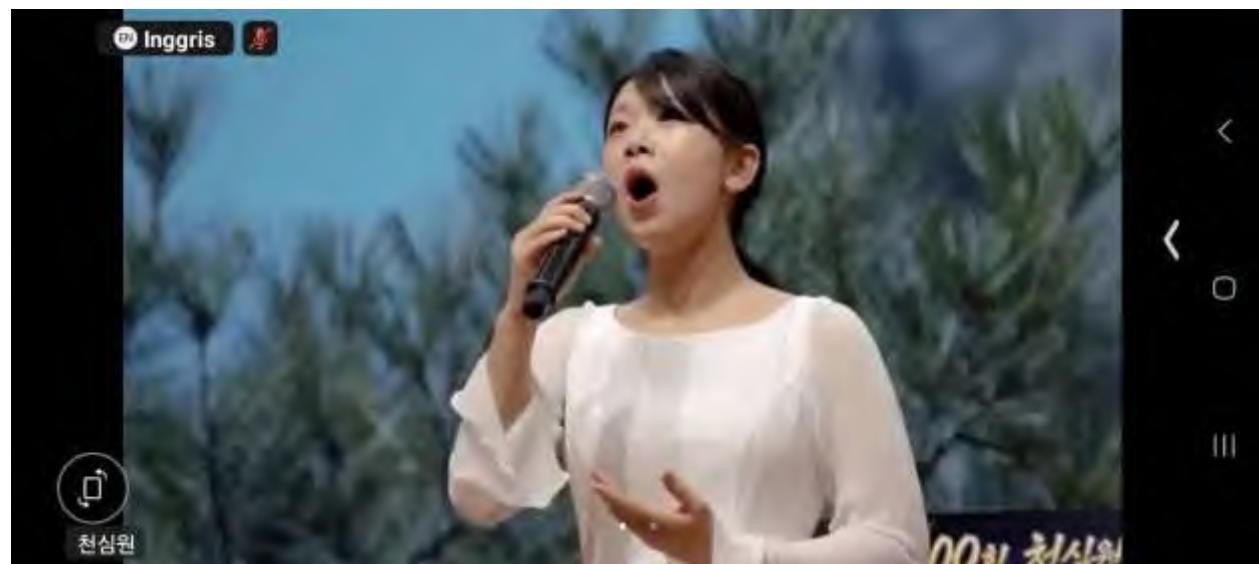

Hoping deeply for the longevity and vindicated release of True Mother

VIDEO News of the HJ CheonBo TC HJ Today

gratitude H Japan

One person's devotion will spread to others and our devotion was a day to see the works of H unfold. The J missionary choir attended True Father whenever in the boat/fishing Providence and sang this boat song. We could see this heart and spirit of love.

The leaders gathered to offer gratitude and hopes at Cheon Shim Won... The Co-Chairman offered such sincere prayers... Today at the 1,600th devotion, he said, thinking of the # is not just a number but God's Work. 1,600 questions and praise and earnest cries. We will never forget this time. This vigil is not a record made by humans but the works of Heaven and PL said the dark realm is working and we need absolute faith as we have to be guided and allowed to this 1,600th vigil with True Father and True Mother, the Substantial Holy Spirit, and we will surely attend Heavenly Parent and True Parents and They will work through us.

Let us in this vigil, experience a time of renewed path.

In 2020, True Mother said to begin this Cheon Shim Won Special Devotion to fulfill True Parents's Words and hold onto Their Words on a path of Truth and Spirit. With knowing the same Dream, True Parents endured with love. This is our greatest hope with prayers burning in spiritual and physical unity.

This is a new start to resonate the shimjeong of Heavenly Parent, with Cheon Shim Won devotion to see world peace and attend True Parents becoming one. True Father will work through us with such heart that we will have nothing to fear and with grace.

The pure waters offer devotion for HMH, True Mother with an unchanging heart every day, giving all their heart and body to devotions.

From July 7th, the Epic history Workshop was held as a training to honor the UN Veterans who protected the Korean Peninsula and centering on the annual motto of True Mother, the creation of peace with the meaning that those who are one with True Parents are the chosen people of this era.

Visiting the memorials and other activities, children offered victory before the Will by those who achieved the Cheonil Sanctum reception.

Precious time of family healing programs and renewal. Practicing true love in families is also hyojeong before Heaven as citizens of Cheon Il Guk. Over 5,600 members of H Japan renewed at the Workshop, 3 days of intensive prayer and devotion to pray like a war.

Trials make us stronger and firmer. Heavenly Parent will surely lead H Japan to victory, experiencing Heavenly Parent's Love through all things and repay that with even greater love, advancing with unchanging devotion and belief, for the Dream of H Parent.

Welcoming Address

Solchi nu Chairman KCLC

The heavy times, hard times, you are passing through. It is extremely caustious to express words to those who are experiencing difficulties. I cannot fully fathom how painful and stifled your hearts must be as a leader you have respected and loved for a long time faces a solemn trial and as you must bear the cold gaze directed toward your community.

It is said that being there in silence with someone is the greatest form of comfort. Some of you may be in confusion, and others may be shrinking due the gaze of some around you, also those concerned about the hurt your children and families will receive. To those who are in such state, I want to say this first, 'You are not alone.' There are people who remember your pain and suffer with you, and there are religious leaders and neighbors who wish to pray for you and stay by your side.

Although I have my differences, as a Christian pastor, I believe that we must not turn away from the tears of those who are suffering. The Bible says to rejoice with those who rejoice and mourn with those who mourn, and I believe now is a time to stand beside your pain and to pray with you waiting for God.

I was deeply impressed that the Cheon Shim Won time is a time to really love and ask for God's Love through the Cheon Shim Won prayer. God is with you, and I truly pray that God will give you comfort and wisdom.

I was deeply impressed by the final statement of the Mother of Peace, Dr. Hak Ja Han, containing conviction and mission She has walked all Her Life and Her Will to change the world through the family

movement to be more peaceful and good, as well as Her Heart of concern for the community She has been serving, even in Her own difficult situation, as well as worrying about the nation and its people, again while Her own situation is so difficult, and Her desire to fulfill Her responsibilities as a leader.

Of course, the Christian leaders have theological differences, but a leader Who holds onto the path and responsibility entrusted to Her until the end, gave me much food for thought.

Everyone, you must not think that God turns away from your tears and suffering just because suffering has come. It does not mean that the meaning of your life and faith all disappear just because difficulties have arisen. God is not a Being Who looks upon people only in bright and peaceful days, not turning away from people's tears and sighs when they are in great sorrow and cannot see the path ahead.

In Psalm 23, David confesses, 'Even though I walk through the darkest valley, I will fear no evil, for You are with me.' The Bible does not say that there are no valleys in life. It does not say there is no weeping or pain, but tells us that that valley is not the end, and that despair is not the final conclusion. (If you agree, let's say 'Aju' all together) It is not done until the very end, even we couldn't see ahead and know.

Just because you don't know all the reason, we should not give up our hope. Even we couldn't see any path as a human, God has a way and can sense our wisdom and environment and God has a way. Job in the Bible admits while in the midst of extreme suffering, I will come forth as gold. Gold becomes brighter even while passing through a hot fire. It will become true gold with more value, as with us passing through with faith, patience and love, so that suffering can become an opportunity for the community to mature further.

I hope today's suffering will not be a stone that brings you down, but a stepping stone that establishes you even more firmly. I hope this will not be a time to divide from one another by a spec, but to hold each other's hands and become even more united, to receive greater Blessing from God and offer greater gratitude up to Heaven.

Now, rather than blaming or shifting responsibility to each other, you must comfort the wounded and look back on those who have dedicated themselves for a long time without fanfare. In particular, you must warmly embrace. You are not alone. There are people who remember your tears and suffer with you. The Bible says, 'We are hard pressed on every side, perplexed, but not in despair.' You may feel so stifled as if

your hearts are surrounded on all sides right now, however, these times are not the final chapter.

Today's difficulties are not the final sentence that determines the future of the FF. Even if the night is deep, the morning comes. Even if the storm is fierce, the storm is not eternal, and even if tears are long, tears are not our end.

I hope that all future processes will be carried out fairly and justly, and that unconfirmed rumors will not replace the Truth, and that all arguments and factual relationship will be sufficiently reviewed, that no decision of prejudice will be collective against all members of the community.

Religious freedom is not given only to those of the same faith, but it is a precious right to all faiths, and not turn away from each other because of differences, but family members, FF, the hands that you have extended to help your neighbors are not in vein nor the (prejudice or mistakes of a few) need not destroy the preciousness of the lives of each and every one of you.

The KCLC will not turn away from those who are suffering of a different faith. We will pray and petition so that the Truth and Justice may be established uprightly, and that the freedom of religion and human dignity may be protected together.

FF, Family members, now is not the time to waver or scatter, but the time to hold each other's hand even more firmly, I hope. Why don't we hold hands of each other and say, 'God is with us.' I truly hope you will give words of hope to each other that God is loving you. Everyone, I hope you choose faith over fear, love over resentment and oneness over division. That is the Will of God---to protect one another, looking at the Truth honestly, embracing the wounded and working together so that the community can move forward on a more righteous and healthy path.

I hope this difficulty will not be a time to bring down the FF members, but a time to confirm the preciousness of one another more deeply. I hope that today's tears will become a strength to comfort others tomorrow, and today's wounds will be restored with deeper love, that today's crisis will be opportunity for new hope, and a blessing in disguise.

Please realize that you are not alone. There are people who remember your tears and your love and that are praying for all of you and wish to stand by your side and your suffering. It is not the end. Darkness is

not eternal. Despair cannot defeat hope. I hope that while passing through this time with faith and love, the FF community will have even more love to continue its role for family and peace, and that the comfort of God will come to your heart and your discouraged hearts will rise again. KCLC will not turn from your pain, but accompany you in the trials and for freedom of religion and human dignity. TYVM

VIDEO 10TH Heavenly Japan 3-day Workshop

H Japan Report

greetings at 1,610th Cheon Shim Won

The 3-day Workshop to develop the spiritual aspect and standard, reflects the contents of the Cheonbumo Ron and Epic, as we are asked to move forward armed in this way to protect HMH and as the Mother nation, testimonies are of grace...

able to understand the deep meaning of the resonance and calling our prayers, deep with Cheonshim and tears unstopping, surprised at myself for weeping aloud. I felt a cozy heart also as if held in the Embrace of Heavenly Parent and by the appearance of the 2nd gen members and also resonating with the sorrowful Heart of Heavenly Parent and True Parents, and I will do my best to be a true father and be a family that lives to attend Heavenly Parent and True Parents.

another... I felt it was very important to organize... PL said that the dissolution in June but Satan took away the # of Satan and made a new day to carry out claiming what was lost.

True Mother's wish was to expand the new civilization starting from H Japan, while feeling a heavy responsibility that we are the ones called for this, also such gratitude and the message to look again from H's Perspective, repent for not being able to do so and be reborn starting from myself, and from that more connection to local community

another... gratitude, even thinking there was no more need to study the Principle at first, but then seeing the essential value of seeing the framework of Principle from the perspective of the Cheonbumo Ron...

and felt the lessons of Abraham's family, to love more so that Abel does not speak one-sidedly but lowers for the other... and the Epic history, the benefit that befits the era of living and attending, and I think all past Principle lectures that do not contain this should be re-taught to embrace it.

another... Heavenly Parent, how anxiously awaiting the Birth of True Mother, and Her having the final centrality... I was convinced that we are definitely advancing toward our goal through Her and am moved by the testimonies of grace.

The demand for 13 years is the same as demanding the death penalty, but let us be the ones whom Heavenly Parent can work through so that the Truth will surely be revealed...

HJ Weekly

The Holy Path True Mother is walking, we unite and Cheon Shim Won delivers news that will not waver in the face of any trial. The first, is the statement of True Mother and the Second is PL who shouldered the representation of Jesus...

Even now the whole world is engaged in bloody war and conflict, but I shout, Let us attend Heaven and become one, attending Heavenly Parent on earth and achieve Heavenly Parent's Dream, the Heaven realm on earth. I believe Heaven is alive and will surely realize its Dream on earth and 2nd and 3rd gen are taking charge of that worth and gong out as true children of Heavenly Parent.

I have created an environment that can realize the Dream of Heavenly Parent on earth. It is a grateful and faithful thing. Now that the Roots have already been planted, there will only be prosperity ahead.

I believe that the peace of humankind and the peace of one family of Heavenly Parent will surely be realized. I will continue to advance toward that goal until the day My Life ends, not matter where I am.

PL: We must shout these Words to inform our ancestors, and notify the SW. What kind of Heart must Mother have had? but we did not have the strength to take a step. Let's cheer up. Let's rise and shout, 'Heavenly Parent is with us. Heavenly Parent is working' Ambassadors for Peace wrote a Petition in Puneon... If all members of our family had organized A for P and made them known of HMMH, it could be so different---instead of being shouted at by the local community, they are actually worried about us.

We set the petition this time, our Association President in Puneon made 48 A for P, and all of them were worried and concerned about our Mother, and raised their voice and set a petition.

True Father went to prison and said He would give everything He had, even His own Body. He went to prison under Japanese imperialism, He went to prison in North Korea, in the Republic of Korea, even in the US. He acted looking at the prisons of the Soviet Union.

The day He entered Danbury Prison in the US, seeing Unification Church members from around the world come and shed tears, He said He felt dumbfounded... not that you were sad but unfaithful, not to be able to see beyond the walls of Danbury. But Father went hearing the shouts of victory, the shouts of harvest that could be harvested. Father said, 'Just wait and see. A leap forward will surely happen.' If not, we must bleed to make it happen. All leaders around the world must fight detent? and go forward, we must lead to make it happen.

No matter how much resentment I have, it is nothing compared to True Father's and True Mother's resentment and True Mother's sorrow. A couple said that when their child passed away in a car accident, they lost all strength and could hardly breathe, but after hearing Father's Words, they cried out loudly and gained strength to go forward.

So, no matter how difficult and hard it is for us, if we see someone having a harder time than us, we can gain strength to realize I can still walk, I can still shout and cry out. We're going forward while gaining strength again. No matter how hard it is, I realize I have freedom now. Mother does not have Physical freedom to go as She pleases. Look at all the things I have of no compare to what Mother has. I can talk and converse with my family right now.

Go with such a heart. Father said, 'TY for doing in My Place what I cannot do for Mother, shouting and crying out and singing the music HyoJN composed in the SW and doing it in my place. TY HyoJN. HyoJN even I have to sacrifice my own body, please save Mother. The youth offered prayer, even they are not Blessed yet, they want to lend their body. Nobody is as pitiful and unfairly treated as our Mother and this situation occurring because we could not testify to our True Parents. If you were to hold us accountable, let us be offered that our Mother return as soon as possible.

Rev. Tsujinte

---

Even we have sorrow, it doesn't compare to our Heavenly Parent's Sorrow and Heart. Members in Japan are offering from their tears and in their homes as churches. Elder watched this... how they took everything, including car keys and proclaimed everything prohibited... However, we treated the lawyers with hospitality and refreshments... (this testimony of our church)

Nagano Church has held over 200 meetings in people's homes, and the relationships of b and s became very close. Warm hearts and that is the opposite state of where there is no church, members say, 'It's okay, even it is not a good thing and there is heaviness in my heart... But I heard a voice reproaching myself saying, 'You are useless' so I resolved the only way is to protect Mother by blocking satanic in my own heart and supporting and uniting with PL.

I have always run desperately, but today's beating my chest continued, 'Am I not being of any help?' The reality of my heart being only despair and doubts that I should even exist in my heart. Finally, during the resonance prayer time, I heard God's Voice,

'It is I Who restored you. Why are you worried. Didn't I promise to end the sorrow of all people. It is possible because of you. The 2nd gen is formed on the foundation of the 1st gen. Do not run away from anything. Your existence creates the future. Didn't I promise you. I know. I know. I know everything. You have suffered a lot until now. Didn't I promise to make everyone happy together with you? I know everything about you.'

When I was 2nd year of high school, 17 years old, I received the street witnessing. Until then, I had done a lot of volunteer work at the Red Cross, but I was feeling the frustration where nothing changed no matter what I did. I came to know True Parents and Christianity and that that was the way for all humankind to become happy, so I happily went forward with the Will and became in public service 4 years later.

For 5 years in the US, I did public service near True Father, and I believed that the time that the world would become one through true love would come, and I went forward. The conclusion is that one word.

And at the Workshop I didn't expect much, but God appeared and said, 'Let's fulfill the forgotten Dream of God together. Didn't I promise you at 17 that We would make a world where there is no unhappy person together with you? We said that promise that still does not change.'

Still I was a very lacking church leader that could not align my heart with Mother. At the leaders' launching ceremony, True Mother faced us and said, 'TY for giving birth to pure water.' I was happy, really, really happy.

Mishing Seika

Our father was truly a person who consistently loved True Parents and was called of the Will. He was upright, but when I was young, I didn't understand... no money, he was not at home and mother so exhausted.

After having two children, I was glad, truly happy, just because I received this from God. However, because True Father sent many of His children to the SW first, it has kept the BF in tact. I also felt that living according to the Will was the same as true love, but I could not be by my child's side, even at his puberty and later felt I had done a truly regrettable thing and I apologized to him that I couldn't do anything for him. I asked my child, 'What kind of father was I?' and he said, 'You weren't at my side.'

Whenever my child called, I then did not hang up the phone. There were times when I listened to him for hours. This child loves the world. Coming to CP with family and talking about the Will makes him very happy. So I am very happy that my life of faith supported my wife and children and they say, 'Please have strength'... It was so good..

Daughter: the baby's heart was not beating and my tears did not stop, as if hope was cut off and I couldn't accept and face reality. So, my parents told me to go to CP, and said that the Yeongseong 3-day is being held for Japan to resurrect. So, my intent was for Japan and I decided to attend. What I felt strongly was that there is no other way than to become truly one with Mother. I emptied my ego and resonated with Mother's Heart and calling out with God's Mind. My tears did not stop as a first experience. And I realized I had tried to do things with my own thoughts, and if ego comes first, nothing can be done.

Whatever position I am in, I truly want to like and love my husband with my emotions, but just with me there is a limit without becoming one with Mother. Cheon Shim Won is truly amazing, the Providence Mother started and I realize why the Place has become the Center. Returning to Japan, I want to move forward, and it is okay because True Father and True Mother are present. What I experienced this time, truly I wondered how many times Mother had experienced this heart.

Mother sent many children to the SW, and even in the position where She was not allowed to show even tears, She was a Mother Who walked this. I thought I truly didn't know, truly not at all, I didn't know Mother at all.

Mother, even after child birth and this exhaustion, dealing with so many members and giving Birth every year, Mother with complete Selflessness, offered everything. I came to realize Mother has experienced

my own heart and so much more inconceivably beyond me. That is why Mother Who still embraces with laughter, how much of a Person of love is She. I felt deep in my heart that She is truly My Mother, She is my Mom.

Him again: By the tears of the youth, the door of my heart was opened wide. We are walking this path to fulfill God's Dream, and it is not a matter of whether we lack skill or ability but we will surely fulfill to believe completely for God's Will. I repent that I am a self that has lived for the world while turning away from God's desire. And now I hear, 'You are my son. Let us continue to advance' I will continue to advance with the Will of Heaven and will completely resurrect. TYVM

---

The last words, 'You are My son. Let us go together to the end.' And True Father said, 'Wait and see. We will see the acquittal of True Mother and proclaim the restoration of H Japan to the world. Please do not worry, True Mother. Pure water are here. TYVM

President Lee Gi-seong's Message

welcome and congratulations

Today the Cheonshim Choir, the 3-day of H Japan from 18 to 85 years old participants have gathered to

offer this praise and tomorrow is the graduation ceremony, and among them there are pastors who bring members and come together... They were able to connect to the field, trying so hard and the one-heart prayer power to connect to the field and all churches will become the churches Mother is wanting and like True Father's Embrace, going forward with Spirit and Truth. We see True Mother's Tears in the videos, and among that path one is offering and 60,000 are offering at this time and Mission HQ Director is also here and Chairman of the Medical Foundation and all Elders are here, a Friday devotion amidst such grace...

Through this Cheon Shim Won resonance prayer Workshop, Heavenly Parent still not giving up on Japan and waiting for us, and the participation in this Main Branch of HQ had the grace and power to restore my strength that I want to share with members when I return. By God's Direction we could come, and I realize Heavenly Parent has been preparing everything and 40 of our members gather and we experience the Holy Spirit and Love of Heavenly Parent and we are able to see hope and joy and love between the members becoming deeper and new life and hope is spread out.

This is becoming the fire and timber and we will spread it to all Japan for the new starting point.

(Message from Japan

In front of the DC amidst such downpour of rain, they continue... and today is July 18 and one year ago 20 of the buses raided the Cheonjeong Gung and from that day for about a year we suffered so hard, but we can see that we are not failing and are grateful to see this Cheon Shim Won filled until the very back of the Main Hall.

Online WSs going on and tomorrow ancestor liberation and Blessing... So grateful to be able to move forward because Heavenly Parent is working through us. When we see and hear the Words of Heavenly Parent, hope you can realize deeply in your bones... and the Blessing of the SW and PW will be done tomorrow and we contemplate the deep meaning and the ancestor liberation 1,400 families registered and 3,153 registered for special liberation... great liberation with gratitude...

Today there were 912 trainees here and 40-day 186th Yeongseong and H Korea resonance prayer Workshop...and if all churches receive these Workshop, such revival...

Taiwon came here and our national leader Hin De-seh will lead Oeg Monsei, so please remember his face and encourage him. applause

When we were watching HJ Today, we could see how many WSs are in the TC. and heard True Mother say to resonate with the lyrics and new hope in the Philippines and we could see thier tears...and the Cameroon West Branch Africa Workshop is such good quality and the reason is that our brother Hong Jong Min of the Academy is being a volunteer in the West African Branch alone, doing this missionary work, and volunteering in the media team.

And he was able to send True Mother's Words. He edited this video we saw as his last mission there. And he is now coming back to Korea. He left for 6 months to Africa after receiving such inspiration especially from one sister at the Academy and was able to go to Africa and has become such a wonderful person.

We heard the song by the Japanese trainees 'Butterfly'.

To Jen Oh, the Chairman of KCLC, every word of his has such value. So, please when you go back to your home, if you pray and read from it with loud voices, I truly believe you will receive such grace --- every word of encouragement that our tears and devotion is not in vein, not to be scattered or wavering, but hold our hands of each other firmly.

A new world is awaiting us as we are purified and formed into a golden world. It is when we fulfill the responsibility of becoming one with True Mother, for each and every one of us to have authority and explosive revival and works.

130 of the 3-day Workshop participants from H Japan, if they absolutely become one, there is such tears and overflowing praise... They will not lose from earnestly investing in this Workshop.

Through the Cheonshim Weekly, we could see great works are happening. True Mother gave this message, and regarding the dissolution, the final statement of True Mother, when we read these Words, let us not be outside of these Words. If we lose our strength, Mother will be sorrowful. As Mother says, look from the perspective of faith, all of this is offering to our HPs. The Christians are saying that they are offering everything to the Lord and all the Monks are offering to Buddha, and this is our offering solely for our True Parents and Their Authority for wherever They will use this.

This embezzlement is so heart-wrenching. The True Parents have no stock or building in Their Name, but it is given to us. It is being used for the glory of Heaven. The Cheonil Sanctum, where we could attend Heavenly Parent, and Heavenly Parent could be Manifested and we can see one family under Heavenly Parent and there is no more war and such a peaceful world existing there.

When we see the Korean War, even the same names and nation killing each other, used by Satan. We really could appreciate Japanese and Korean people, but they lived as total enemies. True Parents have worked and we can see the foundation They made for a peaceful world (through Their forgiving, loving and uniting) Expansion is only left, looking from the perspective of faith and seeing with our spiritual eyes open, not the eyes of a devil. In any circumstance, we should not be in despair, and make True Mother sad and despaired of our losing our Center... not in any circumstance, center on Heaven and True Parents, True Father in the SW, True Mother's Direction Words on earth and Example, centering on Them

and the HyoJN, HeungJN and DMN and not waver... centering on True Mother's Words with unwavering response, dedication and faith obedience...

Heavenly Parent's Dream will surely be fulfilled as we are educated through the Principle of Restoration. Listening to the Principle, you heard the testimony of the father who didn't go home for 12 years and not in the position of a full father, but she realized how great the father was. Because they knew the Will of Heaven, he walked this path. True Mother gave the Direction not to cease in whatever we are doing. And if you have stopped, you need to repent.

True Mother said, 'I am shouting to the world, and we should not be in a position where we are not shouting. Let us shout to our peers how great True Mother is... And one of those from the resonance prayer received revelation that we should shout that True Mother is the Source of our life. We should not be failed to shout, ready to proclaim and testify.

The media says how bad we are, because we didn't have a different broadcast, so we are being persecuted. The message of the KCLC Chairman that we are not alone is, I think, so great and true, that we will see more supporting us.

When the A for P wrote the petition, I was so moved by their contents. How great the True Parents are. We need to be prosperous and fulfill the Word. All the churches should be prosperous. It is when we become one. It is through Cheon Shim Won devotion so that many people will flood in. Those Words are now fulfilled here and in other continents as well, where Works of the Holy Spirit are being conducted.

We need to not just stand still, but resonate and be part of great works to unfold, witness together and the Substantial Holy Spirit will give you abilities. This is that Era of Substantially Attending the Heavenly Parent. The Substantial Manifestation is on earth, and with our faith, Heaven's Providence will expand. So, we will be able to shout 'Monsei!' and experience the works of Heavenly Parent at this time

Prayer and Praise

TY for receiving this 1,610th Cheon Shim Won vigil.. a Constitution was established in this land for this nation that was part of the foundation for God's Will to freely love. Please uphold this nation with wisdom and humility of those in power, and let them respect the Voice of Heaven. At this time, Jesus please help us. As You have worked through Pastor So Jin U, please work for those who really listen to the Voice of Jesus, to really listen to the Voice of Holy Mother, allowing all BF's to fulfill their responsibility at the most decisive time of Providence.

If we remain silent, the situation cannot be resolved. Let us realized that these Words are True Father's Love toward us, and allow us to resonate completely and spread. Faith is participation in this Center of Providence, shouting the Message with determination for the Will. Let True Mother's Heart become our heart for Her final victory, our most beloved and respected, honorable Judge, please have conscience for this nation, the leaders of this nation to become the saints of this nation.

We're so grateful for this Cheon Shim Won devotion and we truly believe the substantial ability to receive in churches and families and children be upon this foundation of this devotion. Let our devotion be united as one for our True Mother.

Let us be able to see the turning point...
