1,645th Korean HQ Cheon Shim Won Vigil.

... If you haven't realized how important Cheon Shim Won is, I hope you listen to these words and realize how important Cheon Shim Won is. I hope you ascend to that position.

And our sister Karen Uda, for 3 years, regardless of how sick she was or how tired she was, she didn't stop, and she offered her devotion. That standard is like going through the Shimul Devotion that True Mother Walked for 1,095 days no matter how difficult it was, not matter how tired She was, setting the condition of devotion.

As our sister offered such devotion, our sister was able to make the foundation. You must set such foundation. If you keep on going and doing and stopping and doing and stopping, that is a life of faith without center. So, in order to set the foundation for the restoration with unchanging devotion, you must set a standard where Heaven cannot help but recognize your devotion.

When we say Noah's Ark, of 120 years with unchanging heart, despite that Noah was in a position where he was mocked and mistreated, we know when Noah made a ship, who would think about making an arch on the mountain instead of on the ocean level. It is truly something that could not help but to be mocked and cannot help to be heard but as someone crazy.

In that position Noah had made victory of over 120 years. And as we listen to this kind of story, in the Providence of Restoration through indemnity, he put a lot of effort. On that foundation, Abraham was able to come and set more foundation that allowed the Providence to go into the growth period.

And by the foundation of our responsibility, we're able to enter the (substantial) formation stage (for Completion). We must set the foundation for fulfilling our responsibility. So, whether it's snowing or

we're tired or how grueling it is, the fact that you move forward with devotion, you're setting the foundation for your life of faith.

On that foundation Heavenly Words will be bestowed and fulfilled to go toward the Restoration and Revival and Resurrection. Always on higher levels of foundation, the Providence has been laid in order to Meet the Messiah.

So, individually on the family level, you can make the foundation well together with Heaven's foundation to then all the way fulfill your responsibility in new phases going over the parallel of a repeated history until the end. (The foundation for us in this time is Mother's Every Word and Direction. And there is a cosmic resistance and an embedded man-centric history of internal and external influence)

Those who could not fulfill their central phase, couldn't fulfill their responsibility, the Providence will be repeated by Heaven selecting a new Person. That's how history has been laid. And I hope that all of us can lay the perfect foundation so that centering on True Parents' war, centering on the Providence of Restoration, centering on the parallel period, and centering on the paying of indemnity with unchanging heart until we die, I hope we can move forward.

And we must set a perfect foundation of our life of our life of faith. If you live with your husband or wife without such a standard, you'll be in pain.

You know, a Japanese member, she might have a perfect foundation of faith, but if her husband does not have such a foundation of faith, ---not going to church, not offering bows, even cursing about church as he watches TV, how can a family be happy?

If you say true happiness of a family is what you want, one must lay the absolute foundation. And that begins from husband and wife. We must remember this.

In this sense, our sister Karen Yuda set a perfect foundation and not just words, she attended Yeongseong Workshop, and for a year in Chicago, she worked as a missionary.

She was able to feel the Presence of True Father and HyoJN, and she made a resolve that our couple must go to the Workshop. Her husband agreed and they were able to both receive a lot of grace.

She had a grace experience with her husband and was able to feel heartistically, and going beyond knowing intellectually, she was able to receive grace that is another level centering on True Father's Love. And she was able to enter a position of shedding endless tears.

So, she was able to feel True Father's Love vividly, and she was able to realize why True Mother has been emphasizing Cheonshim Won Devotion is important. All was possible because of endless Cheon Shim Won Devotion that she has been committed to, allowing her to open the spiritual door.

So, with her husband she realized how good it was to attend the Workshop together. So, my brothers and sisters, I hope you come to the Workshop with your spouse, receive recognition from Heaven, live for a century with Spirit one by one, and even if you move forward that way, you'll be able to feel the great joy living with your spouse.

Our sister Karen was able to feel very vividly and supportively how spirit world was working, for relationship with her husband, and through relationship with her husband, she could understand how to receive true love and give true love, and how to resolve spiritual problems. She said that all the lectures were a perfect fit prepared for her by Heaven. And all the programs were like that for her. So, it was truly a greatest gift that Heaven prepared.

So, truly this Place of the 40-day Workshop and Cheon Shim Won is where True Father is Working for Substantial Heavenly results of Governance throughout the WSs.

And as True Mother Sent me here, the Core Message of True Mother was this:

The more you empty your hearts, the more the Substantial Holy Spirit will Work. The more you empty yourself, Heaven's Work will unfold greater. It's not about me doing it, but the more you empty yourself, Heaven will work stronger

In order for Heaven to work, you must empty yourself. There are a lot of people who take their own thoughts, who want their own opinion made out to be stronger than anyone. That's not what's important about the Providence. For Providence you must empty yourself and seek to be someone Heaven can work through. That is how you can make Heaven come down to work.

So, before Heavenly Parent, before True Parents, all of us must empty ourself so that Heaven can work through us. And all the lecturers who have been lecturing and all the coordinators at the Training Center, they have been setting the standard of Cheon Shim Won. They have made lectures and researched or developed their lecture and offered, and such graceful WSs are being held. And spiritually people got brighter.

All the trainees were able to feel how... they were able to feel love from others. And through this Workshop, she was able to feel how to love and support her family and for the society and local community that she resolved to serve.

And she said she will continue the foundation of devotion that she has been piling up. She said she will practice true love, and by doing so she will become a true daughter. (We are living in such an age when she can actually become a truly filial daughter and parents can directly communicate or receive messages from the One True Parents.)

The fact that having such a daughter or such a sister in a church, that is the greatest Blessing that a church can have. And when the number increases from 1 to 3 to 5 to 10, then the church will become a place to practice true love. The Place to practice Heaven. (Wow. The whole point of everything indemnified historically was for this good fruit)

If you go into the church in the 1960s, there were people who were brothers and sisters who hated each other. Many people said that they cannot go to church because of their husband. There was a brother who didn't attend the church and received a lot of pain from a brother in the church, and because of that he said he couldn't go there, saying, 'While he is alive, I will never go to church' (where he is). Such words came from our member.

When you are sent to SW, no matter how well you attend the service, how shocking would it be for that person to experience. The church must become the Place to practice Living in Heaven. And just like our sister, Krean, our members must live accordingly so that we can create churches that fit this purpose, which is to provide a faith and practice to live in the Heaven Realm. (Kingdom of King Father and King Mother God Family)

Jang Young-sik, our sister, she came to 40-day Workshop in order to find direction for her life. She said, 'As I give more, why am I being so exhausted?' The more you live for the sake of others, why is it so difficult? How can I give and forget and practice such true love?

With this Content this sister came to the 40-Day Workshop and that in itself is truly amazing. And she received the answer. And she shared about how she realized that:

- the divine self cannot be stolen by the thief, and the value of goodness is the greatest treasure one can have.

So, that's why she's resolved to pile up the value of goodness. And she said that she also realized that:

- The output of true love is greater than the input. So, the true love can be perfected when you feel joy as you see other people feel joy.

That's what she realized and also she was able to embrace the Great Love of Holy Mother Han within her own heart.

And she realized the True Parent's Heart of forgiving, loving and uniting with Their children. And she resolved to follow that Heart.

She said that important thing for us is not to not feel pain or not feel hurt, but what's important is to understand boundless Love of Heavenly Parent's Heart and to confess and practice that Love.

So, as you live your life, you may receive a lot of hurt and pain between husband and wife, between parents and children, between the members, you may hurt each other, but that's not what's important. What's important is to feel the boundless love, infinite love of Heavenly Parent and True Parents, and think about Their Heart and move our life centering on that Heart.

If you set that goal to live your life, no matter what kind of hardship you face, you won't be hurt (that love can't be hurt) in your life.

Just like a diamond, how strong it is, no matter what other things scratch it, it won't be scratched. So, True

Father received a lot of persecution, a lot of mockery, but True Father Said that His Spirit Body was never damaged. And True Mother is Saying the same thing, Living that same thing.

There are a lot of unfilial Blessed families and there are a lot of people who cause pain, that could cause pain to our True Mother. But She is not wavered. She... The reason why She can walk such a Difficult Course is that She has such a strong Heart that does not Receive Pain or Hurt by others.

So, we must have such a heart and only then we can resonate with Heavenly Heart Cheonshim. Cheonshim is where you can feel and understand Heavenly Parent's and True Parent's Heart. You are setting the same frequency with Heavenly Parent's and True Parents's. Only then resonance of Cheonshim can occur. Aju?

So, those who have Cheonshim resonance, bit by bit, and more and more, people are increasing who know about Cheonshim and that is a great hope that we have.

Last time at 16th Yeongseong Workshop, 461 members joined and the pastor who received the grace, thought, 'Oh, this shouldn't be on me receiving the grace, but our members should also go and receive it.' That's why pastors joined with members. And there are 16 churches that brought their members.

And as they were trained, the Daegu Church, all the members would begin resonance prayer and they would create their own group and start praying like that.

So, through the Cheonshim resonance prayer, all the churches must move forward centered on Cheonshim Devotion. And if we move that way, I believe we have hope and truly Heaven is Present there. You'll be realizing that Heaven's Presence is Cheonshim and there's no problem that cannot be solved through Cheonshim.

You'll be able to experience that. So, all the churches must come to the Training Center, continue this devotion so that all the churches can mobilize the Spirit through continuing their prayer and calling out prayer and one-heart prayer. And by doing so in every church, this tradition will be settled down. Such movement must occur.

We must move forward in Spirit and Truth. This is Mother's Heavenly Direction, Heavenly Order.

Churches must become one with Cheon Shim Won. That is the Heavenly Mission that is bestowed upon us.

But despite such Truth, there are members who don't even listen to those words. And if you distance yourself and drift away, then that's a big problem. You must Fulfill Mother's Words.

If you haven't fulfilled the Words Mother has Said, you must resolve strongly. All of us must move forward centering on True Mother's Word. If True Mother/True Parent Said 'God forward', then all of us should go forward. If True Mother/True Father Said 'Turn around', then all of us should be able to turn around together.

We should be moving in such a way.

And if this kind of member is increased to a thousand, 10,000, 100,000 people, then that power will allow Heaven to Work.

Who is True Parents. We read True Parent's Words today. Blessed by the Great Grace of God and thus enabled to stand before You again, My Wife and I are simply filled with boundless emotion.

Having received the Seal of Heaven as True Parents of Humankind, We Husband an Wife Received the Heavenly Mandate to rescue and bring back together the human, who were born with fallen lineage and have been wandering for thousands and tens of thousands of years as orphans without parents.

The Words in Pyongyang are recorded when True Parents Gave Their Words. the Words They Proclaimed before all the leaders.

Having Received the Seal of Heaven as True Parents of Humankind, and True Father is the Champion Who Knows the spirit world best, True Mother/Only Begotten Daughter is the Champion Who Knows the spirit world best. True Parents are the Champion Who know the spirit world best.

So, that's why True Parents explained about what kind of future with come. Soon, you will ascend to the spirit world after physical life. And once you ascend, you must go as a sacred person. That's why the True Parents Gave us the Holy Ceremony Called Seonghwa.

Before you ascend to SW, you must record a beautiful life in the physical world. Whether it was a well-ripened, good life or a worm-eaten rotten life is revealed with complete clarity on your spirit life, spirit self. This means that God is not your judge.

If you know this immense and fearful law, how could you ever dare to end your earthly life as a life of immortality, if it were a life fallen into all sorts of satanic temptation, pursuing only selfishness and pleasure.

You must guard against anything that wounds or blemishes your spirit self. Risk your life to abstain from it.

Please keep in mind that the fact of going to Heaven or hell is decided right here and now in your thoughts and words and deeds. So you must not wound or blemish your spirit self.

And the greatest wound or blemish that you can leave on your spirit self is disbelieving True Parents.

If you have lived without disbelieving True Parents, how amazing would that be. As we attend True Mother, if you live your life without disbelieving, without doubt, centering on True Mother, how wonderful would that be?

But there are many members who criticize, who gossip about what True Mother is doing. And that is what makes the spiritual body to be eaten by the worm, eaten by the insects. And you cannot erase that. It will be left on your spiritual body forever, eternally.

So, True Parents allowed us to realize this very specifically. And that's why we must remember what True Parents allowed us to realize. And we must have strong spiritual experiences.

Cheon Shim Won Devotion allows us to deep-root our faith. Through spiritual experiences, you are deep rotting your faith like the olive tree so that no matter what kind of trial, no matter what kind of hail or what kind of tsunami would come, it cannot hinder us.

We must strike such a deep root and we must deep root. And we must deep-root our heart to True

Mother/True Parents's Heart at this time. And we must reach our Root toward Heavenly Parent, so that not matter what comes, you won't be wavered, You won't be taken out from that Root and you'll be able to bear the greatest fruit.

So, I hope you remember this. I hope you reflect this. And even if the person who witnessed to you sometimes speaks words of doubt, you must not be wavered by that. You must not be wavered by anyone. (True Mother is Who She is. True Father is Who He is. Jesus is Who He is and Heavenly Mother and Father God Is Who Heavenly Parent is. Know your own motive to true love as True Parents do by First Living for Heavenly Parent's Liberation of nothing short of the Ideal of Creation that True Parents are the First Ancestors and HMM, OBD, True Mother is the Central Pillar, Whose Word and Direction to absolutely Trust and Do at such as time as this...)

So proclaim yourself. No matter who tempts to waver my faith, I won't be wavered. Even if this national leader is trying to waver me, I will not be waived. You must have that heart. If you have that heart and move forward, you will create absolute relationship with Heavenly Parent and True Parents and, from that, from then on, Heaven Work will unfold. Work of resonance will occur. Work of miracles will occur.

And even if you're sick with a death sentence, you'll be able to be healed in no time once you resonate.

And we've been hearing these words countless times, but if you experience it, then your life of faith will be deep rooted, deeper and deeper. And you entire family will strike their root of faith deeper. And you will be entering a position where you won't be wavered, regardless of the situation or circumstances.

And once you overcome the trials, I hope you believe that it will eventually turn out to be the Blessing. So, the more trials or pain you receive, the more you must praise the Heavenly Parent and True Parents with the heart that They have given you boundless grace, endless grace. And They allow you to feel joy. Your are, we are, moving forward with that song we're singing.

I hope you experience Heavenly Parent this night, and I hope you have such a blessed time.
