Greetings

Bow and Pledge #1 and 2

Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We thank You for leading our wills and hearts unto the Path of becoming one with True Mother... Now that at a new starting point, let us carry away the burdens from True Mother, so they are completely

resolved, and True Mother's Innocence and Holy Status will be brilliantly and unmistakably revealed before the world.

May we engrave deep within our hearts this night remembering the tearful shimul devotion of Mother at the gravesite of True Father that True Mother offered toward Heaven and becoming One with True Father. May we also resemble that complete oneness of Mind and Heart of same Thoughts...

Please cause us to lay down and cleanse from our shallow egos and worldly calculations so that True Mother's Pain, Tears and Holy Will for humankind with Heavenly Parent will show as our own Will. May this night become revival realization how to know True Mother's Heart and Thought and Dreamas our own, achieving Emotional and Spiritual Resonance with the Heavenly Reality of True Parents.

Please Work so that the global Devotion can serve as a driving force that hastens the realization of H unified Korean and H unified world. May praise of each and every one of us become the salt that brightens the darkness of the world.

Please allow us to be spiritually reborn in completeness under Heavenly Parent's Dominion, with the barriers broken down and work of Resurrection overflowing here as the Place of Mother's Holy Womb, with all hatreds and animosities dissolving in Mother's Holy Love, to form a higher resonance realm of heart.

We earnestly pray for You to receive and Bless this time of devotion.

graduated from the department of media. Before I had been working at a media production company. On the outside, it might have seemed like things were going very well, both professionally and in various ways.

However, deep in a corner of my heart an inexplicable emptiness remained with a question, 'Is any of this right?' In my life of Faith too, I was spending a time when I was unsure about what kind of path was the Path Walked with Heaven or whether there was truly a correct answer on the path I was taking.

Living with such a heart and facing moments of choice, rather than going based on HD, I increasingly made decision based on my own thoughts and the limited environmental surroundings. I came to feel that I needed a time to pause and sort things out, and with a resonance in my heart that I wanted to draw closer to Heaven.

I decided to resign from my job and entered the 21st Yeongseong Workshop with a goal of feeling Heavenly Parent as my own Parent. I came to know Heavenly Parent and True Parents by my parents who served in public ministry, and I have lived with respect and believe. However, I have not lived knowing Them as my own Parents, and wanted to feel this and truly attend.

Through the lectures and programs I came one by one to feel how Heavenly Parent always had a Heart watching over me, by my side in every moment I have lived wanting to help me in moments that I struggled. With what kind of heart is Heavenly Parent looking upon me now? I wanted to experience and embody Heavenly Parent's Love, Who has not given up on me and poured out Devotion over a long time. As I came to realize about HMH, True Mother, not just with my head but with my heart, I continued Workshop, receiving abundant grace.

We came to the Cheonjeong Gung Pilgrimage during the Workshop. After prayer in that Prayer Room, the word card I drew said, 'Your body already belongs to Heavenly Parent, so you must not go anywhere that is not a good place, and you must not do anything that is not a good deed.'

At that time, I was just a few days from my birthday, and my father sent me some money to use for a birthday gift. With that money I purchased a commemorative Cheonjeong Gung wrist watch as a birthday gift. Perhaps because it was right after reading the word card, it was as if True Father Himself had Directly Bought me the watch as a gift, making me even more joyful and grateful. Ever since then, when looking at the watch, the thought that True Father is with me wells up, and that thought has been a great source of strength.

Two days later with less than a week remaining until graduation, I was sitting in Cheonjeong Gung pondering about my life after the Workshop, pending with the thought of the Academy, which the coordinator had recommended to me, how I would have to be away from home for 6 months, and my parents might feel sad or disappointed. But at that very moment a thought came, 'Might there not be other Parents Who would feel sad and miss me if I left?'

I remembered that I have special stories related to True Parents from before I was born when my parents had taken my older sister who was then a baby, and gone to the Jardim Workshop in Brazil. At the time, my mother was standing at the very back of the Lecture Hall because my sister was crying True Father walked directly over to my father and asked where the baby had gone and then asked, 'How many children do you have?'

My father who was raising 3 children at that time thought that 3 was enough children to have and proudly

answered, 'We have 3.' But Father rebuked him, shouting, 'Have more'. Until hearing those Words, my father had planned to stop after 3. Because of True Parents's Words, I was born and my father would often tell me that I was born by the grace of True Father.

That is why they named me Kah Un... using the character 'beautiful' and 'ka' grace. Thinking of that story, I thought the ones that gave birth to me are my parents, but the Ones Who Guided me on this earth were True Parents and Heavenly Parent, and for the first time I thought of Them truly as being my Parents. Thanks to them I am here on this world receiving love and grace, and wondering what kind of child have I been. They must have wanted to hold me by Their side and be with me, not look just from afar, and my tears would not stop.

I felt I was embracing the goal, and the next day was for offering 24 hours for HMM and when I felt tired, bringing to mind how True Parents Lived a Life without a moment of their own. From the coordinator came the thought that when a mother gives birth, she risks her life with great suffering for the child to come out into the world, and added that the time spent here at Cheon Shim Won, which is like our Mother's Womb, is just like being born anew, which was even more significant as being born on my birthday as a child of Heaven.

I found myself feeling the desire to go somewhere I was truly needed, and should engage in activities meeting people. When writing our letter and reflections, I looked on True Parents's portrait wondering what to do. And on that very day, the Branch President of H Africa West Branch, and I heard 3 people were needed for H Africa activities, and I wanted to go and applied, so I will be leaving with that Volunteer Corps.

I will continue to offer Cheon Shim Won devotion so that Heaven will work through us for H Africa and work together to offer a report of joy.

I rediscovered who I am and what kind of Parents I have and I want to join in the work of reclaiming Heavenly Parent's children and be a child that takes initiative to step ahead... I make a new resolution... and gratitude to my parents who have always poured out their devotion... TYVM

'Happiness'

Gratitude

translated from Angolan

Name:.....

My father has led Blessed families for 20 years, and I had a childhood surrounded by love and attention.

In 2018, my mother had an inflammation in her left breast, and we thought it was normal, but it became worse and we had to travel for diagnoses, which became fourth stage cancer (tears)

She went to the capitol city for treatment, but there is not strong health care here. Mother gave that chance to go to Switzerland for treatment, and we got help but then she had to pay with her own money.

After finishing my nursing education, I had to begin working and I gradually distanced from True Parents and my spiritual life became weak.

In the middle of hardships, we learned that my mother was to have only 5 months left, with the cancer spreading to her lung, and all she could do was take medication and wait to go to the spirit world. (tears)

It hit me so hard. I was desperate and cried so much and became angry to True Parents and began to blame True Parents, saying, 'Heavenly Parent, you made these children and how can I raise them, and after my parents worked so hard, how could this happen?'

But my father said, 'Let's trust True Parents. This is just one more difficulty that we will overcome.'

Also, whenever I called my mother to ask if she needed anything, my mother would say, 'Don't worry. I trust Wang Omma. I know that She is taking care of me'. And my mother said this so often that we would jokingly call her 'Wang Omma' ourselves.

My parents' faith is truly something we are proud of. (tears) Through the doctors surprise and ours, the cancer was gone completely when we went again to check. They repeated the tests and the results were the same. My mother had been healed through her faith in Wang Omma.

Away from our family, thanks to our attendance at Cheon Shim Won, my father and siblings were able to get visas to live with our mother in Switzerland. Later, during a lecture, they showed us images of True Mother at a mountain for a condition, and I could only repent for every moment I stayed distant from Her.

I truly felt the Heart of Mother always thinking of us, even now in the DC. (This interpreter if just so wonderful heart) Coming the international Wonsong Workshop, I pledged to give love to my brothers and sisters, but instead they gave me so much love.

During the Workshop, I fell ill with red painful eyes and could eat or drink... And one went to fetch the water of life and checked on me, bringing food, and I was truly moved.

I was told to rest but refused, because my pain could not compare to Mother's Pain and... The same thing happened at the Pure Water Assembly, but I did not give up. We learned that when we feel like giving up is when we must rise with even greater power.

I was grateful that my parents accepted True Parents, and to be born to such a pure lineage, and despite hardships of being poor and otherwise, my parents never once thought of leaving this path.

In Korea, I was offered a position of secretary of the Cheon Shim Won Room in Kabinda because of my dedication to vigils even while carrying my baby on my back.

Cheon Shim Won has become my second home and watching my 1-year-old daughter calling out in prayer gave me great strength.

I am grateful to the family that donated so that I could be here. When returning to my country, I will work for the Providence of HMH, the least I can do to comfort Her Heart.

TYSM for listening to my testimony. I love you all.

'As We Open our Wings'

HJ Report

Una Takadani

Japanese Workshop Team

21-day Youth Student Yeongseong Seonghwa Workshop

August 1st to 21st

True Mother's Words: In Cheon Shim Won, you must raise bright and pure children starting from elementary school. Cheon Shim Won is the Place where people can hear Heaven's Voice and convey Heaven's Heart. No one can come and sway this. The SW and PW must go forward in complete oneness.

Mother has Stated and Proclaimed that we must nurture people who can hear and convey Heaven's Voice starting from elementary school. Because there is a Desire of Heaven that must be nurtured from early childhood, following that Will, now the first Yeongseong Seonghwa 21-day Workshop in Japan, sketch video:

Because I knew that Heaven gave Me a big Dream, within My Life, I resolved to Fulfill Heavenly Parent's Dream. As OBD, as True Parents that humanity has been waiting for, I will become True Parents.

With that resolve, I Lived Attending HPs.

You were born through Blessings given by Me. You are 2nd and 3rd generations, right? You are True Parents Direct Children. Do you understand? Born unrelated to the fall you were born, so your Parents are True Parents. I will engrave every single one of you in My Heart, Remember you, and on the day when I am sent to the SW, the time that I spent with you, the Joy that I Felt through you, I Want to take that Joy with Me to the SW.

Is it not truly grace-filled and full of hope? applause I hope you can share this grace to others as well. In particular, this Workshop was prepared and planned amidst the deep interest of leaders having received approval from leaders including President Hori and President of the Future Trainees Talent Institute.

We heard about five months ago that Heaven appointed me as main coordinator together with Masai Motuyama, a 3rd generation member who sang the praise just now at the HJ Praise. As a Vice Coordinator and... They are male and female coordinators respectively, and also the volunteer who prepared the beautiful video that we just watched.

Also, True Mother has always asked us to love and become one. Starting two months ago, we held weekly meetings with related organizations, such as The Future Talent Development Groups centered on Director Takiyama and Deputy Director Yama, and two weeks prior we also held a meeting with parents.

Through much review and preparation, which seems to be one deeply desired by Heaven. Because of such unified external preparations, we were able to proceed with the Workshop without major issues... thanks to Heavenly Parent and True Parents with staff's additional devotions... We guided them to be staff and so they could begin right after. They even had a meeting with the grand Church Pastor...

Thanks to their devotion and mindset, many devotion trainees were resurrected. Furthermore, among them, many came to Korea for the first time and we sent escorts to the airports to greet and guide them, although the substantial amount, no small amount, of the funding of the tickets by HMM's FR Team over the past 6 months. We thank everyone who cooperated, and who shows interest for future WSs that will be held.

Some of the students facing difficult circumstances were supported and were able to ride the cruise and visit Cheonseong Gung as well, and fruits such as watermelons were provided, and I thank everyone who supported (He bows)

testimony of one of the staff... In the Special Prayer Room tears flowed. There were circumstances where the children had lost faith and parents were struggling how to help their children to continue their faith... I took on the role of medical matters, and many became sick as a regular occurrence, but I gained strength from the participants and I thought Mother too must have gained strength in this way, and many gathered their devotions for individuals and together. It was a precious testimony where I could more deeply realize True Mother's Heart.

A total 56 people gathered and among them 4 were 4th generation. And this was by no means coincidence, even as Deputy Director Yokoi received a revelation said we had to symbolize a number passed 7 times 8, the number 56. And I too, as a working person in charge prayed in Cheon Shim Won and heard the following Voice, 'You must offer 40 bows symbolizing 40 days separating from satanic for 140 days. That became a devotion of 15,600 bows.

When all the participants gathered, I genuinely got goose bumps. Heavenly Parent had sent exactly 56

people all for the meaning of overcoming a hurdle. Although it was a symbolic devotion, I could not help but feel that Heaven had been working from the very beginning.

There use to be a Seonghwa Youth Student 14-day Workshop in the past, but starting with this Workshop, the words Yeongseong Spirituality was added. What on earth changed? We could find the answer in the Opening Ceremony Address. Mainly, the point is that this is a Workshop Directly Supervised by Father.

When we hold this Workshop in each Continent and each Branch and think about why an event of resonating occurs, we can say it is because Father Directly educates us. Therefore, if we honestly report our worry to True Father in Cheon Shim Won and lay down the insistence of myself, called 'I', He Guides us so that we can transcend our limitations. As a result, we naturally end up having a one-on-one dialogue with Heavenly Parent.

To receive such education from True Father, this time we also had a time to learn about the Course True Father Walked through the Chambumo Ron Theory of True Parents Lecture. Let's look at the Testimony of a Workshop trainee.

testimony: Although I have read it once through the Autobiography, this was a good time to listen to it to feel True Father's Heart even more closely, feeling warm as if True Father was close by. I didn't understand much about Father, but I came to understand well how Father Walked His Path, and how He overcame such difficult situations. And it was a huge help.

Since there also were Workshop participants who were born after True Father's Cosmic Seonghwa, they were able to feel True Father close by, by learning about True Father's Life and Course through the lectures and I believe Father approached the Workshop participants directly educating them powerfully applause

Furthermore, the 21 days were a period to learn every kind of prayer. Perhaps some Workshop trainee felt that the time they spent praying here was more than through their entire lives... time to communicate with Heaven...

testimony... I couldn't feel the border between nature and me... Nature became me and I became nature...

Cheonshim resonance prayer and nearly all came forward to align and express their hearts honestly.

testimony I could come forward for the first time because I heard that prayer was just speaking what was on your mind, and my thought came naturally out of my mouth while also feeling that True Parents were right there by my side.

I know this, I know that True Mother too had a Youth just like ours. However, Mother was Born as the OBD and from the Age of 17, She has Lived Bearing the Mission of Being the Mother of all Humankind. There must have been times too when Mother just wanted to play to Her Heart's Content, just like us. Yet She Laid Herself Down and Carried Out a Mission Facing an Overwhelmingly Harsh environment.

Seeing the Appearance of Mother, Who has Lived for Heavenly Parent under any and all circumstances, we too resolve that we want to live diligently, and for offering all our utmost devotion for Mother and for Father.

Another time of devotion was 1,000 bow devotion. We prepared this to overcome the hurdles we must cross. Above all, seeing the seonghwa student who are so pure offering devotion with one heart was truly moving.

In fact, we staff members were worried about whether the trainees could be victorious. But could we simply let them do it alone? Therefore, all of the staff members also participated. So, about 70 people became one devotion. The staff members were probably more anxious than the trainees, considering our age and whether we would be able to move properly afterward. But we could feel how strong Father was with us and the SW was with us and worked through us, both the participants and the staff were able to achieve victory. Applause

testimony At first I lacked confidence to be able to do it, but I thought since it was for Mother, I could do it. Also, if HyoJN and HeungJN had been in a physical body, how much devotion would they have offered? They would have wanted to offer devotion with all their might and even at the cost of their lives more than anyone else, and that thought gave me the strength to persevere.

As I continued offering the bows, I gradually felt the hardship filling me with the earnest hope that Mother would definitely return safely. Even after it ended, honestly, I wasn't very tired. I wanted to offer even more devotion, rather than be satisfied with the number given. It welled up in me the conviction that if it is for Mother, I will strive to any length and there is nothing that I cannot do. applause

Truly, once you become one with Mother, there is nothing you cannot achieve.

video

When praying I often say from the bottom of my heart that I will put my life on the line and I pray that even if my body grows exhausted, collapses or causes me to throw up on the floor, I will offer devotion and pray for our True Mother.

Truly, this time the 1,000 bows were so grueling and I felt like I was going to crawl on the floor, and I felt something like a satanic spirit trial, and wondering if I could offer devotion. But God was clearly watching over me during the 1,000 bows, and the fact that God was watching, the Heavenly Parent and True Parents were watching meant that satanic spirit was watching too.

So, I was feeling the trial very strongly and also felt that I will absolutely not lose and I offered devotion

for Mother, with all my strength I offered the bows.

It became extremely difficult up to the 888th bow, but I thought I should at least muster up the strength after making it this far. Then all the hardship I had felt up until then vanished in an instant. Instead, Mother's Heart entered my heart making me feel like I was about to burst into tears.

Around the 980th bow, a tremendous amount of strength welled up in me, and my bowing speed also became very fast, allowing me to offer bows with great vigor and agility.

During the final ten bows Mother's Heart entered deep within my heart. I understand that Mother Said, 'Do not pray for Me.' before going to the DC, but feeling Mother's Love as She Said, 'Thank you for offering devotion for Me anyway.' I shed truly an abundant amount of tears while offering the bows.

Another precious time was praise prayer gathering.

testimony...Coming to this Workshop, my way of praying changed to be much more earnest. Before when going to church, when there were prayer gatherings, I would just play games in another room. Feeling very physically exhausted, I would say that I had school and needed to study and would sleep in the back.

However, since coming to the Workshop, I made a diligence not to sleep even in the vigil. My dad once attended 40-day Workshop, and he returned without any regrets. Hearing about it from mom, she said, 'He didn't over think it, and just raised his hands right then and there so he wouldn't have any regrets.

I often regretted it after listening to those who raised their hands (and went forward to pray) thanking I wanted to try too. I thought I wanted to be like my dad. So, I raised my hand, (and he prayed:)

'Please allow Heavenly Parent's Dream to be my Dream in order to Fulfill, please allow us to offer more devotion and Work through us.

During the praise prayer gathering, through my parents' message, 'Hi, how are you. We are okay. We love you. (and they made a heart)' I really felt my parents' love for the first time realizing it and I cried.

During the Workshop, I felt that I was being loved. Thinking that I hadn't been very filial to my parents, thinking I may have been a burden to them for things like money for club activities, and thought they took care of me in many ways, such as preparing morning lunch boxes, I felt that I hadn't been able to repay them with anything.

So, I resolved that I must be filial to my True Parents and parents. I want to live returning my parents live, practicing filial piety toward them.

In the middle, we had a time for parents' messages and they could feel their parents love.

testimony A thought popped up into my head that if tears didn't come out, let me at least cry out, 'Mother, please return to Cheonjeong Gung with all my heart with the loudest voice of praise.' At that time my physical condition was not good, but without thinking of myself, I cried out with all my mind for Mother.

During the resonance heart prayer, I raised my head slightly to look upon the portraits of True Father and True Mother. At that moment, before I even knew it, abundant tears poured out. The heart that had grown cold and numb instantly grew warm and words of gratitude flowed from my lips

After Vigil Devotion ended, I headed toward Cheon Shim Won. My heart was filled with the thought, 'I want to go quickly and Meet Mother and Father. When I looked at Father (His Portrait), He looked as though He was Smiling. I left Cheon Shim Won with a prayer of gratitude and left there with a warm heart. Ever since then, I have been able to pray sincerely and shed tears.

Just like this sister's testimony, once you let go, Heavenly Parent and True Parents are Working. There was also grace during Vigil Devotion through the Praise. Yeongseong Seonghwa Students felt great by two songs. One is until the Day of Victory. And the other was 'Spread Our Wings' which the 40-Day Workshop participants praised earlier.

Where this Workshop is in the SW, HyoJN sent it through the MODU Project... and it became the theme song of the Workshop. Let us watch a video together.

HyoJN truly, thank you.

56% of the students at this Workshop did not have faith in the beginning but gained certainty afterward regarding their faith. There was even a friend who said, 'I don't believe in it at all.' But we could see that the friend taking care of brothers and sisters more than anyone else, showing interest in the Blessing, and desire to be filial to their parents (had the most grace).

So, from the Parents' Perspective, it is hard for Them to say they are a person of little faith. Whether it is their personal standard for a person of faith is just high, but that is how it is. Anyway, we could affirm that a clear change appeared in the hearts of the participants over the short span of 21 days.

testimony I came to know that True Mother gave up everything for Heavenly Parent and She has Walked not just as a Woman, but as a Parent and as a Mother. I also came to understand the meaning of Mother's Words about being a true pure water a true small needle and true second generation.

I came to repent for my life of faith up until now. Various wrongs came to mind, such as having lived a self-centered life until now, acting without trying to know Mother's Heart, and having let Mother bear the Cross alone. At the same time, I came to know Mother's Heart and resolved to become one with Mother.

Through this 21-day Workshop, I came to think that I want to understand Mother step by step from now on, and I resolve to embark on the path of public service in the future. Applause

Next, an interview of a sister

This was my first time receiving a long-term Workshop and in Korea. I came to realize how joyful it is for Seonghwa students to participate in a program together at such a high standard. In particular, the programs were quite challenging, almost like ones intended for adults, and there were was much Content that felt unrelenting.

Even so, I felt to my bones that doing things at this level is true value. It was a Workshop that made me realize how uncommitted I had been in my life up until now, and taught me how I should move forward from here on.

When things were difficult, I relied a lot on my group leader. I sent a long message to my group leader, saying that it felt like this period was going to end without me truly feeling Heavenly Parent and True Parents and asking what I should do, honestly sharing what I was feeling in my heart.

Even though it was very late, they replied right away. And thanks to that, my mind was put into much better order. Also, I contacted my parents a lot, since they are first generation members who have walked the front lines. They really knew so well what it felt like, and they even gave me advice to try praying in Cheon Shim Won.

Whenever things were difficult, I drew strength from listening to the words of elders.

Did you have experience where you grew closer in heart to Mother?

I suppose in terms of numbers makes it feel truly real. The fact that She gave Birth to 14 children, and even though She Lived separately from Father for 7 years after the Holy Wedding, She Persevered and Carried On without giving up, hearing it in numbers, it feels almost hard to believe, and it honestly made me think a lot that She is truly no ordinary Person.

Even so, without uttering complaint, learning of Mother's Heart as She Walked this long span of 84 years, I was deeply moved. Moreover, there was another experience that made me truly grow closer in heart to Mother when Lecturer Muto talked about the Chosen Han People of Korea, I heard that in Korea, people call Them Aboji, Omoni in every day life.

Honestly, in Japan, we don't call Them Aboji and Omoni, or Father and Mother. So, I thought I didn't really understand what that felt like. During prayer once I tried addressing Them a bit differently in my heart with the feeling of 'Our Father, Our Mother' and at that moment I felt like We had grown really close in heart.

It felt as though my own biological father and mother were standing in that same situation. So I think it was through such numerical fact and various challenges that I was able to grow a little bit closer in heart to Mother.

What kind of person do you want to become in the future?

What I have truly resolved for a long time from the very bottom of my heart is that I want people to be naturally witnessed to by looking at the way I live my life. Even this came from watching the lives of elder members. People would say, 'Isn't that person amazing. They are truly a wonderful human person, and their character is so good, only to find out later, 'Oh, they were the Unification Church, the FF, yet the teachings they are learning are truly the truth.

In this way, I want to become a presence that can naturally draw people around me.

Mother, thank You so sincerely for allowing us to receive our Workshop here on this Korean soil, on this soil of our Homeland. Although 21 days was a short time, I hope I have grown even a little bit closer to Your Heart, Mother.

August 31, I believe will be truly a major turning point for us. And I will truly become a 2nd generation member who runs with all my might to the very end of this Golden Age, walking together with Mother, not just until that day, but continually.

Mother, please do not worry. Mother, please we are here. We will walk together, Mother. Mother, I love You forever. big applause

Really, that was hopeful, a miraculous-like testimony shared by our sister. And also the other of the two

testimonies. I believe those are really testimonies that we need at this moment.

So, I feel like we need to share more love as ourselves and witness to others based on how we naturally are. Through this 21-day Workshop, these 56 people have become small needles. And we have been reborn as people who comfort Heaven and walk together with Heaven. applause to our hope for the future

Some numbers of WSs:

recent Workshop more than 430 people surpassing 42 numbers of 6 times 7 and exceeding 1,220 participants, and 21-Day had 56 people for 7 times 8. And the 11th Yeongseong 3-Day repoted 737 people, 8 times 9, which 72 surpassing that.

So, we have sequentially crossed 6 times 7, 7 times 7 and 8 times 9, and I believe that the compiling of this kind of numbers will allow True Mother's Return with a Victory. For True Mother's well being and True Mother's Release we will go forward. And with this I conclude my report. TYVM.

BREAK

BUSKING

Hoon Dok Hae

How did it develop into a world religion. I know you are hearing all sorts of rumors and controversial remarks about Unification Church. The Unification Church has been trampled upon on earth, yet from there it has achieved worldwide development.

How could it be developed. When our nation betrayed us, we knew there was a path leading toward the world. Because the path is a righteous path of growing for the sake of the world, this path is unmistakably the Principle of Heavenly Law and what the world must inevitably come to follow, and we carried out

foreign missions amidst bloody persecution.

To give an example, when we pioneered Japan, it was during the Liberal Party era 17 years ago. Amidst the former Il Hwa University incident, the situation with a certain Person Named Moon, had plummeted to the ground and was in a miserable state. But I knew how the situation would turn around what Japan could become in the future.

I had My own Feeling about how the situation of Asia would unfold. Therefore, as a citizen of a rule-of-law nation, though it might have been illegal at the time, I knew that in five to ten years, the Republic of Korea would inevitably come to need us, so I thought that I had no choice but to push forward on this Path even if I were branded as a criminal.

Right in 1956, as you know, when I was released from Sodamon Prison and resting Kapsa? Temple, in South Chung Cheong Province, I called over a young man who was instructed there and said, 'You are stowing away a Man for the sake of Japan and one must have a readiness for death.'

The first time He sent someone who entered Japan, He was arrested and ended in failure. The second attempt also failed and he returned. When I came out of prison, the Unification Church at that time had disappeared, and I was in a position so that I didn't even have a single room of a house.

For the sake of our nation and for Asia, I borrowed money and launched a third attempt. The Unification Church in Japan started under such circumstances. In the 3rd attempt, he was arrested and detained in Obuda Detention Center. With no place to raise his suit and so exhausted and raised in fever, he feigned illness and was sent to be hospitalized for 3 days. He escaped and went to Tokyo and started what became the Unification Church in Japan.

Though I am like in a position of an orphan-like wretched Man, leaving behind in my Homeland juniors who could not believe in Me, I went to a foreign land where I must hope and Faith. God would Work through such a Person. So, the God Who Assists Me will Know. That's what I thought. As I held solely onto God and Exeerted Myself, the Result brought about the history of New Creation.

H Europe and Europe and 21-day in England Workshop has begun... (there they are, yay) and thought the world Benin, Thailand, Philippines, Russia, Sweden

Today 700th and 500th and 400th vigils (hello, love you) 600th even no church grounds, 80 attend...

Muahda Pastor... Nagano Church... With more difficult state and devotions will receive a hundred more blessings

GPP 19 and total 242 attended the opening Ceremony and Pastor Anyongsok was there as a trainee and former Asia Pacific Continent Director joined after 30 years and I hope he receives abundant grace... applause

More grace is in this era than the past... His daughter attended every vacation... yeongseong, moshim, and I saw her again at Wives for the BFs and probably she will receive it for the pregnant sisters. When I saw her first, she was an elementary student and she grew up very precious. If she keeps going, she will be a great leader for the Yeongseong Workshop. Aju.

Hangnam Church a sister pastor testimony... and today several have gathered in that church, sending 1 trainee to Yeongseong, 1 to moshim and 1 to international and Academy, a total of 5 members sent to the TC. So, I hope that all the churches guide people to strike deep roots in their faith by attending 40-day, with all the pastors doing devotions for that, and also the parents must know and remember this and send you children to Workshop. Do not push your children to work part time, but don't think it is a poor choice financially...

Today, we heard testimony... She graduated in making the videos, but questioned herself if she was living in the right way, and she quit her job and joined the Workshop with a goal to attend True Parents more completely... She had a goal that an ordinary person would not have. She shared her testimony.

Our deaconess from Cheonsung Church was very moved to listen to Angola's situation, the fact that there are many members from Angola who cannot come to Korea, no matter how much they want to, because of no money, so by her donation, Madilu Hallyu was able to come and give this testimony after going through Yeongseong Workshop.

She wanted to make it anonymous, but why don't we just give her a big round of applause, now that I said it applause

As a child of a 30,000-Blessed couple, in 2023, she received Blessing, and she has a daughter. In 2018, her mother was diagnosed with last stage of breast cancer, but because of her grandfather's support, the mother could go to Switzerland and receive treatment. But the cancer had passed on to the lungs, and the mother was diagnosed only live for 5 months with nothing to do but take medication and wait for that passing.

Our sister, Hallyu, offered tears and cried out through her prayer, to offer devotion. But she asked Heavenly Parent, 'You made them a couple. Why are You trying to take away my mother now? I am still an unfilial child. She cried out desperately to save her mother.

To be honest, as we live our life, it's not so easy to offer prayer and cry out for others. And our sister was able to offer desperate prayer in tears for her mother. And the mother, the parents were amazing people, never shaken. The father said,

'Let's believe in True Parents. I believe They won't abandon us.' 'This is just one more difficulty we'll overcome and make victory.'

And the mother, although she only was supposed to have a few months left to live said, 'Don't worry about me. Let's believe in Wang Omma absolutely. I know She is with me, and I know She is taking care of me' And we can see how important the parents' Faith is.

Our True Mother has been telling us not to be shaken, that we must have the right Center and move forward.

When we're shaken by the world, it is difficult to be unshaken. Well, I believe that being sentenced to die in five months is much more severe than some things going on, at least an individual might feel that way, but father and mother showed unwavering Faith and this daughter offered crying out prayer, and through that Heaven worked in this family so that in four months, the hospital checked and the cancer cells were gone even after the last stages had spread to the lung.

Such work of a miracle occurred in this family. And she testified to this. Probably there are members who cannot believe such a miracle can occur. But there is the amazing fact that such kind of things are testified to.

Not only that, but eight years, the family has been separated, but then they were able to obtain a permanent visa, so a path was opened for the family to be together. So, because they went to Switzerland, there was a photo of True Mother Who went to Switzerland, and our sister shed a lot of tears looking at that photo.

And our sister probably went through a lot of hardship in the Yeongseong Workshop, but she said, 'My pain is far less than what True Mother is undergoing, so I cannot stop.' That is what our sister has shared.

Because she was sick, because she was tired, other co-trainees gave her medicine, gave her water, one member brought her the water of life. And she felt moved by that. But with the faith and motivation that compared to what Mother is suffering, what I am suffering is nothing, we can go through it. And we are offering that kind of devotion.

After GWs, we still have intensive prayer, visual prayer, and we are continuing the work that we are doing. Everybody gets tired. Even in the TC, everybody's tired too. And in fact, I'm also a person who gets tired. I'm not a healthier person than our brother Tsujingte President of Buk Town.

Sometimes it's very difficult even to take one more step, but I always cultivate a heart that this is nothing compared to what True Mother is undergoing. And whenever I harbor that thought, I can overcome anything.

So, the fact that our sister was able to offer devotion during that difficult time, I hope you remember that Heaven remembered our sister's prayer. And Heaven will bestow a greater Blessing whenever you offer devotion in the hardship.

And the fact that she said she is grateful that her parents accepted True Parents and that we are born into such pure lineage, despite the hardships of being poor and otherwise. She said that her parents never once thought of leaving this path. That's what our Hang Yo said, and if she didn't believe this as a 2nd gen, she would not have said it.

And she said that as a child, what she must do is listen to HMH and comfort Her in that way.

That's how our sister has resolved with tears to work for the advancement of the Providence.

Today Yeongseong Seonghwa Youth Student 21-day Workshop has been reported, and True Mother truly Wants our children to be educated from a young age.

Our Fahter, because He knew how to enter deep prayer at a youngage, was able to connect to Heaven at the age of 16, and he went up to Myodo Mountain and offered deep prayer. He was born in 1920, but in 1935, He went up to Myodo Mountain.

He was offering very deep prayer for long hours at about 14. And at about 16, He met Jesus and received a Heavnyly Mission at that time. And our True Mother, since She was Born, She Attended God as Heavenly Parent, Her own Parent.

Our 2nd and 3rd generation, as you are born in a realm where they are to attend Heavenly Parent and True Parents, we must create that atmosphere, but because the parents could not reach that standard, the children who were born without original sin, the parents just let them be exposed to the fallen world to grow however they grow.

And even parents who received the Blessing left and are living with their own selfish mind. And how heartbreaking would it be for Heavenly Parent and True Parents. And when we, as we conduct First Yeongseong Workshop, there's a great difference between first and second generation.

And our 2nd gen reaches a position quickly that 1st gen could not achieve fast. They see, they hear things. They entered that state right away. But those who are coordinators of the Yeongseong Workshop, they started the Seonghwa yeongseong Workshop, Seonghwa Youth Student Yeongseong Workshop, and what they are testifying to is that these young people enter into that a lot quicker, a lot faster. This is what the coordinators are witnessing and telling us.

If we think of them as young and make programs that they can only enjoy, and do not even let them attend vigil, thinking that they're tired, and sometimes (parents and coordinators) would only let them attend Friday Vigil, we should not ignore or neglect our children because they are young (not let them be exposed to the advantage of Vigil, and the atmosphere of Spirit and Truth)

To all those who came to Seonghwa Youth Yeongseong Workshop, if they go it's for them to attend vigil from Monday through Sunday, and they receive abundant grace from that. We must bring them to be educated, so we will be preparing for them to attend and experience Heavenly Parent and True Parents as their own Parent, and live with tears for Heavenly Parent and True Parents.

Once we have more and more come out like that, Heavenly Parent's world will be fulfilled naturally. For 6,000 years, Heavenly Parent has been offering prayers and devotion to find one person who can listen to God. And They are True Parents. True Parents Walked such a very difficult course and that's what we read in the Hoon Dok Hae Words.

I know you're hearing all kinds of rumors and remarks about Unification Church. Unification Church has been trampled upon the earth, yet from there it has achieved worldwide development. How could it have developed? When our nation betrayed Us, We knew there was a Path leading toward the world.

Because the nation people betrayed, We could go out to the world and We laid out the world foundation. As we went to Japan, we heard the words, we read how difficult it was. The first phase failed, the second time failed and the third time, True Father/True Parents met our brother Choi Bong-Chun and sent him to go. And in the prison he ate soy sauce and he intentionally got sick and was taken to the hospital and he ran away from out of the hospital.

We must know about how we developed despite how difficult we may be at this moment. This is not the end. Heavenly Parent is Living and can be Working through us. How is Heavenly Parent Working? How will Heavenly Parent make victory? How I Heavenly Parent developing us?

If we open our spiritual eyes, we will be able to see that. One way to offer and do that is to move forward with Cheon Shim Won prayer so that your Faith will never be wavered, never be tested. All the churches will be able to make great victory center yourself with Cheon Shim Won prayer and move forward.

Cheonon Central District must become a model. Mother told Cheon Special District to become a model, so that all the world can follow. Jojang Church Beuktown must become a model. The world will be surprised to see Jojang/Buktown Church becoming a model. The world will be amazed. Talking about Buktown, it's twice as big as Seorak Town.

So, if you feel that it's expensive in Seorak Town, you can buy a house or land cheaper in Buktown. So, I hope you always know there's a path to live and remember how we have developed. If you think and reflect about what True Parents's Made and how 2nd and 3rd gen are feeling True Parents's Foundation and love through that, I'm certain we have Hope. Within years, we'll be able to develop profoundly.

So, let us have hope as we move forward. On Sundays, our 40-Day Workshop trainee came to Gapyeong Church, went out to witness and met a person, a male, who said that he actually wanted to go to the church. He was from Seoul and he bought a house in Gapyeong and it was good for him, but at the same time boring for him.

And he said that he should go to the Unification Church, and next week he will attend church on Sunday. Such an amazing person was there. Now is not the time when we cannot witness. As long as we cultivate our heart to move out, we can witness.

If we offer Cheon Shim Won devotion, True Father will Work. Heavenly Mother will come down and Wear the Form of True Mother to give us Revelation, give us Messages. But if we don't go out and witness and even start swearing that we will collapse, from Heaven's point of view, that is nonsense.

When True Father went into Danbury Prison, members were crying and True Father Said, 'Can't you see the hope beyond the Danbury?' 'I see the Victory over that Danbury.' So, do not cry for Me.' 'Do your work diligently.'

So, True Father Said for us to work hard so that when He comes out, He can receive our report of victory. And from that Heart, we must cultivate the same heart. When True Mother Comes, we must fill up the entire World Center where we don't have enough room for many people that we have to fill up the Garden Plaza in front of the World Center.

In order to make that happen, we must revive all the churches. So, in order to make that happen, you must move forward with that standard and the SW will have hope and work through people who have hope. If you are in despair, Heaven cannot work. Only those who have hope, Heaven can Work.

I hope you believe in Heavenly Parent Who Works through people with such hope and pray that hope tonight.
