prepare song

Arirang Holo Arirang

Let's go over the hill

Where do our hearts go?

When will we be one

Even if we take a break when we are tired

Let's go hand in hand and let's go together

Take a boat ride on the Duman River

Let's go and anchor alone on an island

and greet

Bow and Pledge #5 and 6

Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We sincerely thank You that we can gather as Your children here with Cheon Shim Won Devotion in Spirit and Truth together with the subjective SW.

From the very moment we offer CY Session, please Work so that we can blow away all dark and selfish energy, reaching to imbued Heart of yearning, offering devotion for Mother, we earnestly pray and desire that all of us become one

Through the Workshop testimonies of the Workshop trainees, allow us to inherit a victorious life of faith. And we earnestly desire that even a single verse of the praise we offer will resonate within the realm of True Parents's Heart. Please work so that we will add faith through the HJ Report, and we earnestly desire that through the words of Cheon Shim Won President we will be aligned with one heart and one mind, making this time of offering devotion for Mother's liberation from worry and from indemnity She takes on, and well-being after acquittal, and that our prayers and activities may please You.

We believe that Mother Desire's a Devotion like pure gold that we move with absolute Goodness and that we become those who prepared the condition of perfect devotion. Please Work so that our vigil condition mobilize the SW for the release of our Mother and that righteous people around the world will testify about Her, the Holy Mother Han, and that Mother's Truth will be more deeply Rooted in our hearts as well as throughout the entire cosmos.

Heavenly Parent, in this Providential Golden Age that is growing shorter, if True Father were to Work, where would He Work, if HyoJN, HeungJN and DMN were to Work, where would they Work? For what Purpose would they Work? No Matter how exhausted we may become, we believe You will be Working

through us.

We believe that if we as the owners of Cheon Il Guk proceed with unceasing advance, there will surely only be victory for us. Therefore, please Work from the very moment we begin.

'BOAT SONG'

Eyanu yanu heave ho

Let's go boating

All the sound of crashing waves

Waking up from a sweet sleep

The sound of moving oars coming through

How refreshing it is
At the sound of waves on the open sea
Beating a large drum
Hoisting a large flag on the bow

returning home
Eyanu yanuya
Eyanu yanu heave ho
Let's go boating
True Parents's We will be the ones who never give up

TESTIMONY

Name:.....
Workshop Trainee
bows and gratitude
Heavenly Parent and True Parents Who labor with all their hearts and all leaders from positions of sacrifice
2nd daughter of 1 son and 1 daughter and with the Cheonon Church

In our family there is a culture of receiving Workshop every vacation. Although I have been able to live each day of my life with the Guidance of Heavenly Parent upon the foundation of various devotion, looking back, vacation periods allowed me to more intensely look upon the direction of my life, while receiving the Love of Heavenly Parent and True Parents of Heaven, Earth and Humankind.

Chronologically speaking, I have been connected to this Place and living here since my fetal? days and even before, thanks to my mother having received the 40 days as a pregnant woman, and I seem to have naturally and stably become familiar with this Place from the very beginning.

In the early 1000s, the roads were not well-paved, but every day my father and older brother would come from Seong for me and my mom. The culture of our family to receive Workshop together, even until today attending weekend devotions and Workshop together.

I came here to CP when I was just under 1 year old. Following my father who was assigned here, I lived, grew up and ate on the 2nd basement floor. Looking at it that way, the HJ CheonBo Complex is not only my spiritual Hometown, but also my physical Hometown.

During my elementary school years, starting from the winter vacation going into the 6th grade, I gathered a few friends and began going to the 21-day Workshop together. This continued until middle school, and whenever I encountered various paths of tasks and situations, it became the Content of work so that I would never stray from the Center.

Looking back at such education, I wonder if it would have led to a lifestyle that gave recognition from church leaders, school teachers and people around me. Rather than anything I did, because I received Heavenly Parent and True Parents's education in such an environment, I want to testify and boast that there is a truly Blessed environment where I had no choice but to grow up this way.

For example, education led me to know True Parents better and an attitude that also led to attending Church Services, have trust in public workers, and do active participation in activities.

Before every exam, I would go to Jeongshim Won, which is now Cheon Shim Won to pray, and through HJ Offering Papers, I was able to achieve many academic accomplishments. By such grace of Heaven, I was able to enter Sweonghwa University majoring in religion study. My life was repeatedly Church on

Sunday, school on weekdays and WSs during vacations from school semesters.

Looking back, this was the substance of Spirit and Truth and of Faith and practice. As a university student the 40-day Workshop I received in the summer of 2022, was a period that allowed me to established my mindset and attitude toward the Church and Heavenly Parent as an adult.

Following that Yeongseong 40-day Workshop I received in the winter of 2023 was a period to cultivate a sacrificial and pro-active attitude and heart toward True Parents, enabling me to view the Church's situation and True Mother's circumstances as my own. Based on this, I was able to take the challenge of CARP activities and 2nd gen Top Gun Mission, leading to receiving Blessing in 2025.

I was given the opportunity to offer devotion here for the entire period of summer vacation. It was also a time to sooth the yearning for my husband, my parents and my hometown here that had grown so immense during my mission period.

My goal for the Tenth Moshim Workshop was devotion for True Mother. Therefore, I laid aside all the devotion I had practiced aside and focused all my time, space and whatever I could do on True Mother. Perhaps because of that condition of investing everything, I was able to further solidify my identity as a direct child of True Parents and resolve to have an attitude like pure gold toward the path of the Will.

Until then, because I had seen various good and difficult things within the Community, there had been matters I had been hesitant about with fear to go on the path of the Will. However, True Parents had already Blessed us as direct children, and being that child means we are already alike in nature.

So, I was able to gain the inner conviction that we will surely be victorious.

Until now, the path of the Will had felt only serious and difficult, but through the Moshim Workshop, I was able to experience that true love can also be joyful and happy because we are together, moving away from the anxiety of 'What if things go wrong? Can I really do well?', the heavy pressure of having to shoulder everything alone, it was a Workshop where I could truly experience relationships and love, realizing that I can receive help and lean on others as well.

I am moving forward with a deep sense of gratitude for all the grace that always teaches me what I need.

As a common method of devotion focused on Moshim Workshop and the subsequent 40-day Wives Workshop, there is HJ Praise. The time of offering praise while yearning for True Mother, Who would be watching me from beyond the camera light, was always a great joy to me.

The sensation that I am alive, and those small things mean something to True Mother, is something I want to hold onto any time and anywhere. With the teachings given from the Moshim Workshop and the determination to put them into practice, I participated in the Blessed Wives 40-day Workshop while pondering and discussing how to offer even greater devotion and love to True Mother in preparation for starting our family next year.

The 40-day period was a time of practicing Moshim Attendance. Through devotion for my husband and both families, the Content of Fulfilling Heavenly Parent's Dream and becoming a family that is also strengthening True Mother, as well as the experience of being able to invest myself solely as a student leader, a trainee member without a single moment of my own time was truly a valuable experience. It was a period of training to become even more united with my husband. And through that I too could grow a little more.

During the Blessed Wives Family Workshop, the lecturer, who was an Elder Member, left a strong impression on me. The lecture of Kim Yong deh of 2,400 Couples, I could feel the fragrance of an elder of that Era, and it made me imagine that True Father must have been like such a person as well, making the feelings of yearning and a stirred heart grow even deeper.

In that lecture, he emphasized through his testimony that the purpose of our life is to worship, and highlighted the importance of a life of Church. Since I spent this vacation period from June to Dec. centering on Cheon Shim Won, at the TC, now I intend to return to school and move forward while attending the Church together with my husband.

Every Workshop had its meaning suited to my tithing and circumstance, and that enabled me to know and practice the preciousness of True Parents and Rooting it in my family, imagining the Place that will be graced by even more WSs and activities, I wish to convey my gratitude to Heavenly Parent and True Parents of HEH, for all the Love and Labor with which They have raised and Guided me. TYVM

(wow, purely beautiful... So deeply happy with tears that Heavenly Parent and True Parents have this

daughter and future family)

He bows and gives gratitude for grace

elder son of 3 sons, working with the Korean Workshop Team at the TC. I believe I received much love from my parents as their eldest son, who treasured their first 2nd gen child, welcoming me with true love. However, that joy did not last very long. In the year I turned 3 years old, my mother discovered something abnormal with my eye. Worried that something might be wrong, she took me to the hospital.

The expression of the once gentle doctor hardened as he opened his mouth, 'It is retinol blastoma. After news that her son she would not trade for anything in the world had cancer, my mother had the ere

sensation as if all the blood in her body was draining away, piercing her heart (tears). Far beyond the shock of the world's problems, before that shock could fade, my battle with the disease began. For a child who had just turned 3, it was practically a living hell.

In particular, what I struggled with the most was the chemotherapy, as my mother recalled. As soon as administration began, I suffered from vomiting all day long, and because of the harsh drugs, all my hair fell out. Yet, an even more terrifying treatment awaited. It was radiation therapy which uses lasers to kill cancer cells. At first glance, it sounded like an effective treatment method, but a problem was lurking in it. It destroys surrounding health cells.

Even as my body grew, the cells around my left eye remained stuck at age 3, meaning my face would inevitably become severely disfigured as I grew older. Moreover, even if such treatment might work, the probability of survival from it was not good. Knowing that danger, my mother fiercely opposed it. The doctor could not understand my mother and instead persuaded my father, rushing to prepare for the treatment.

As the day of the radiation therapy grew near, my mother stopped eating and drinking altogether, staying awake every day for several days and nights and praying earnestly (tears). Even in a state of exhaustion, on the verge of collapse, her prayers continued, and suddenly, a loud and clear Voice echoed like thunder in her ears, 'Do not receive it.'

My mother was certain that this was the Voice of Heavenly Parent. Ultimately, through her earnest pleas, she persuaded my father who took me and fled from the hospital, visiting the TC periodically with devotion through CY yoksa and spirit separation. (tears)

As time passed, and we visited the university hospital a few years later, the doctor spoke with an excited voice, 'What on earth happened? This can only be called a miracle.' It was a moment that proved the power of my mother's prayers, holding onto Heaven and her absolute faith. (tears) applause

Thus, the child of 3 who almost lost his left eye and life, is standing here healthy today to testify of Heaven's Working. applause Heavenly Parent and True Parents, I offer my sincerest gratitude for my parents' devotion showing the working of Heaven, through their earnest prayers.

However, in truth, I may be someone who does not even deserve to stand in this position. Despite this great grace, I lived far too long guided solely by my own stubbornness and thoughts. I failed to find my objectivity in faith.

Then in 2018 I received 40-Day Workshop for the first time, and my life changed completely. Along with repenting for my past life, I deeply felt Heaven's Love and gained certainty in the Church. While participating in Workshop at that time, others at the Workshop took issue with me and maliciously spread rumors. Their actions were agonizing and I hated them to the point of wanting them to die.

While praying at Cheon Shim Won back then, the attitude of True Father while a police officer tortured him suddenly came to mind. At that moment, the thought arose, 'Truly loving your enemies, is as agonizing as cutting away your bones. For someone who claims to be the son of True Parents to struggle over a matter like this is truly shameful.' And for the first time in my life, I began praying for the person I hated and considered an enemy.

Through that devotion, Heaven intervened in my consciousness. The feelings of hatred for that person that made me want to die dissipated and my relationship with that Workshop participant was also miraculously restored.

Ultimately, I came to feel in my bones that my heart is the core, and if I attend True Parents and Heavenly Parent in my heart, all problems are resolved. After that grace-filled Workshop, I came to work at HJ CheonBo H and E TC. While working, I met countless trainees and staff members, and conflict arose due to mismatched personalities.

There were people who spoke ill of me or hurt me, and at times I even experienced physical clashes. However, whenever a conflict arose, I never neglected or left those difficult feelings unaddressed. I persistently tried to understand and love them from Heaven's standpoint. Then I deeply experienced Heaven directly intervene and resolve matters whenever a conflict occurred.

Then, in June 2023, Cheon Shim Won Vigil Devotion began. PL gave us deep realizations about Heavenly Heart Cheonshim. He clearly pointed out that attending Heavenly Parent in your heart which

had experienced things in 40-Day Workshop was precisely the H Heart of Cheonshim.

Furthermore, he opened the path for us with the words, 'When you grasp the Heavenly Heart into your life, everything will finally be resolved. Since then, thought lacking I have tried to engrave this standard of cheonshim upon my life.

There were times when I suffered and grew exhausted because things did not go as I wanted, but the words given during the vigil devotion always comforted my weak self, and led me in the right direction.

Now, the years have flown by since I first came to the training center, and I deeply realize Heaven's Grace. Although numerous conflicts once made things difficult for me, I now feel that the objectives of hatred have vanished from my heart, and only the objective of love fills my heart.

I realized applause that this is true freedom and happiness. All of this, by the Grace of Heavenly Parent taking my small devotion to engrave in my heart what can untie all relationships with love. And the Work of Cheon Shim Won continued through the process of receiving the Blessing.

In truth, I was deathly afraid of preparing for the Blessing. It was precisely because of my eyes. Since I wear a prosthetic eyes, due to the one removed because of cancer at the age of 3, I have many scars from trying to make eye contact with people since childhood. However, as I prepared for the Blessing and offer devotion, that pain instead placed me in a position to comfort the Heart of Heaven.

Thinking, 'If I am suffering this much from even this small pain, how torn must the Heart of Heavenly Parent Who loves the children who fell have been. My tears would not stop. For a year and a half, I offered bowing at the Tree of Devotion every single day. I resolved and swore again and again that I would surely comfort our pitiful Heavenly Parent by building the beautiful family, Heavenly Parent Longed for over 6,000 years.

As I gathered devotion based on the standard of H Heart, Heavenly Parent prepared a truly precious and beautiful person for a lacking person like me. When I trembling confessed the pain regarding my eye, that person sat and listened to me saying, 'Is that so?' (tears) 'Then, I will become your eye.' (I'm tears and applauding even not hearing audience's applause for this sincere word of the sister's heart)

The moment I heard those words, all the scars and fears I experienced because of my eye in my life, melted away in light snow. It was the greatest Blessing Heaven could have given me. some applause now

Receiving the Blessing, now I am the father of 2 beloved children, living every day like a miracle. Looking back, this too was the grace of Heavenly Parent who worked through the small conditions of struggling that engraved Cheonshim into my life. Applause

I who was filled with shortcomings and scars, build a happy family and lived as the father of 2 children learning a profound truth. It is that the 3 great Blessing we are ultimately to achieve are never completed by individual ability alone. Like the compass that always points north, I confess that in my life, through the 3 Great Blessings, the Cheon Shim Won turning us toward Heaven serves as the foundation.

applause

The truth is that I am still very much lacking and my devotion is not sufficient to stand in this position. Therefore, I wrote a HJ Offering Paper to fill my inadequacy. I cherish the Words I received from Heavenly Parent and True Parents at that time.

"From now on we must cherish every minute and every second to live together attending Heavenly Parent. We must live lives that show how exciting, grateful and joyful that life is." (He reads while shaking the card) TYVM for listening to my life's testimony.

(miraculous life testimony)

HJ Report

Japanese Team Lecturer

286th Suryeon Workshop

Hello everyone. I am Pakaki Sagi... Let me offer my greetings (He bows)

Following the report of the Korean Workshop given yesterday by Director Kim Guy On, today I will report on the grace of the Suryeon Japanese Workshop and the 40-day Blessed Wives Workshop.

True Mother's Words on True Father's Final Statement of July 10th:

Until My Life ends, I will Continue to Press Forward...

BREAK

BUSKING

Hoon Dok Hae

Proclamation of the Cosmic Liberation of the Realm of Heavenly Parent and True Parents of Heaven and Earth.

Centered on True Father's 79th Year and the #9, 9 minutes, 9 seconds past 9 on September 9th, 1999, We Surmounted the #9, which is Satan's # of completion that has blocked Us with resentment of Heaven and earth. The Divine Principle has expounded that everything bound together by relationship from the fall extended from the SW to the PW, is connected centering on Satan.

That means that everything from the fetal age, the infancy age, sibling age, engagement age, marriage age, parent age and grandparent age, up to the age of kings, was blocked.

Therefore, because of the unitary, ideal sphere, in which the world of men and the world of women should be connected centering on lineage was not achieved due to Satan's (interference). Everything from the realm of the womb, the realm of infancy, the realm of siblings, the realm of engagement, the realm of couples, the realm of parents, the realm of grandparents, up to the realm of kings, was blocked, causing good and evil to fight.

Everything accomplished through the false parents corresponds to the #9. God must govern the #9. Therefore, in the OTA, how God carried out the history of the Providence to liquidate the satanic #9, centering on the condition of tithe.

We believe, to not only subjugate this #9 which is the peak of the satanic # on the individual, family, tribal, national and worldwide and cosmic level, but the PW and SW must also be reorganized by True Parents so that all blocks and wars and hell on earth can be broken down horizontally and vertically going straight to the Kingdom of Heaven (Realm of King Mother and King Father Love) centered on True Love.

Two full years have passed since we Proclaimed the Realm of Cosmic Sabbath for the True Parents of Heaven and Earth centering on Chul Pal Jol. We cannot cross over into the 2000s without completely liquidating everything blocked by Satan's world.

By adding the #10 on September 10 of 1999, making 1999 the # that could welcome the 2000s, the original Ideal of Creation without the fall is Completed, and the SW and PW are connected on all levels - individual, family, tribe, nation and worldwide.

Through this, we must achieve the realm of liberation of Heaven and Earth where the Will to Seek a spherically unified world is Fulfilled. The Foundation for holding the Cosmic Ceremony for the Victory of True Parents of Heaven and Earth, centering on June 14, 1999, We came to be able to Proclaim Today's Realm of Cosmic Liberation of the True Parents of Heaven and Earth.

Restoration and Completion must be Accomplished by Adam during His Lifetime. Everything must be Settled during the Lifetime of True Parents. Therefore, one cannot imagine how busy They are. That is why Proclamation Ceremonies are held. It is because God can Plant God's Flags only when Proclamation Ceremonies are held.

Therefore, by holding many Proclamation Ceremonies, God Plants the Flag of Ownership. Places where God's Flag has been Planted Enter within the Sphere of Authority where True Parents and God can Govern them. They no longer fall into Satan's sphere of authority. Aju.

HJ PRAISE

CHEONSHIM CHOIR

'Let Us Go Back to True Parents'

PRESIDENT LEE GI-SEONG'S MESSAGE

'Let Us Go Back to True Parents'... Cheonshim Choir just sang this song. I'm sure from the Parent's Perspective, this song would have moved Their Heart more. Children who didn't have much faith, it seems that they didn't have much faith, but as they attend Workshop and looking at them changing, truly, I am very grateful to see them, and because of that, we can offer devotion with grateful heart.

We have come to the 1,650th Vigil. I want to offer all my gratitude to all those who have come. And now True Mother will be looking toward the next trial. Next Tuesday is the period where we have this time to prepare and offer support. And I believe we can make victory by gathering devotion for the 2nd trial.

So gathering all you devotion with all your heart, let us offer utmost devotion that can move Heaven.

Today, throughout the world 18,909 places are connected with us, and about 40,020 brothers and sisters

are offering prayer and devotion, and I am grateful for that.

189 members from Cheonon Special District, Korea, have come. Sun Moon University 75 attending only the first half and Haenam Church in the Southern-most part... 61 members (the third place of the most gathered at the church.) Normally, the members say, 'I feel like all the members who are attending this service are attending this vigil.

Our brother Pastor Il Yu Hwa sent me a Message:

Up until now, with one heart, we have piled up our devotion, although it is lacking, and we hope it will be attended by Heaven so that True Mother will be released as innocent and come back to us, returning to Cheonjeong Gung healthy. I hope such day will come soon. The devotion we offer at the Southern-most land of Haenam I hope will become a small fire that could ignite a fire across the nation to bring a burning devotion and praise, setting this 1,650th Vigil as a starting point again, and we will move forward continuously without wavering.'

When were moving forward for Vision 2025, True Mother told the Southern areas to push outward, and from Seoul True Mother said to push forward. And you remember the songs we sang, right? Now it's time for us to push ourselves for devotion and push forward with devotion. Now we are living in an era where we fight our battles through devotion.

Cheonseong Church 42... Iksan Church 40... Cheonju Church finished their 777th Vigil, and 33 have gathered there... Changwon Church 30 members

Like this, 1,226 gathered...
