Opening Prayer of Gratitude

Respected and Honorable Heavenly Parent

Beloved True Parents of HEH

We sincerely thank You for calling us into Mother's Love and offering our devotion of pure Gold and snow-white purity during this holy hour of 1,651st Cheon Shim Won Devotion. Because permanent world peace cannot come through human thought and material wealth alone. True Parents have dedicated Their Entire Lives without resting for even a moment to Achieve the Settlement of Cheon Il Guk, where people know Heavenly Parent as their reality.

The reason They could not back down no matter what circumstances They Faced, having Their Flesh Torn, Enduring insults and Suffering persecution was because They Loved You so very, very much. It was because Their Hearts of Hyo Jeong, the filial piety desiring Heavenly Parent Who Endured all ages alone, beating His Chest with Sleepless Eyes, for the sake of You no longer Shedding Tears of Sorrow and Pain. This was more Precious to Them than Life Itself (or any comfort and relief from Their own Pain only coming by Relieving Yours).

If we claim to be direct children who love True Parents, now, we must wipe away True Parents's Tears and shed them in Their Stead. We must protect True Parents's Status and Dignity so that no one can ever bring Them down. Please work during this hour so that we may resonate with the heart of loyalty and filial piety, shown by the martyrs who protected this path among countless ages in this history, and firmly hold onto the Holy Value of Blessed families.

We believe that, if we can Love True Parents even more than True Parents Love You, Heavenly Parent will surely Work through us. We are so profoundly grateful and happy to be children who Attend True Parents.

We earnestly pray and Desire that You will Joyfully accept the devotion we offer with absolute gratitude and absolute Love unshaken by any trials. In particular, we earnestly pray and desire that Truth and Justice will surely triumph through Mother's upcoming 2nd trial, so that True Mother may return to Cheonjeong Gung as soon as possible.

Offering all these words I pray as a BF gratefully attending HMM.

When I came to Jardim, a Place I had long in my heart, in this natural landscape, the song 'Let us Plant Love in this World' suddenly came to mind. At that moment, I felt that this Place was truly the H Garden of Eden overflowing with love.

As I looked out over the endless natural landscape, I felt that this was the landscape where True Parents had Devoted Their Entire Lives into Planting H's Love.

another testimony: The Love that I have received from True Parents at Cheon Shim Won has filled my heart with the desire to share that Love with even one more person through witnessing. With great joy and anticipation, I wanted to go to H South and Central America.

another: The greatest thing I realized while in my first vigil devotion here in Jardim, was that the small needles True Mother Spoke about truly do exist.

As we sang praises together, although languages and cultures are different and we live in opposite sides of the world, we deeply felt that we are one family of brothers and sisters Embraced by the Love of our Heavenly Parent. Also, seeing the trainees pray and praise so earnestly during every Vigil, I came to believe that this is exactly the Hope that True Mother Spoke of.

Devotion - To offer a sincere heart with unwavering devotion

We must work diligently and faithfully to fulfill the responsibilities entrusted to us, struggling with all our strength to resolve things here on earth and in Heaven, while offering sincere devotion, so that problems here on earth may be resolved through the SW in Heaven, we must offer devotion with sincerity that moves Heaven.

It is not simply about counting the number of times, but that things may be resolved in Heaven and then on earth, so that such a miraculous Work can take Place, True Mother Works and Speaks to us and encourages us.

Sincerity Moves Heaven:

Offer devotion with sincerity that moves the Heart of Heaven, that gives no choice but for Father to Work, that makes all spirits surrender, building a tower by unchangingly giving our best.

However. Heaven will not be satisfied with only this. All BF's who call, 'Mother!' just as our Mother True Parents in prison offered 1,000-day and 10,000 prayers, Heaven Hopes that all BF's will offering calling out prayer and devotion, that True Mother may surely welcome the day of liberation and release, and our church experience a time of great advancement.

The greatest grace of prayer comes during difficult times. In the hardest moments, receive the greatest miracles of grace. applause

youngest daughter

Living in Jardim where Heavenly Parent and True Parents's Love are deeply Imbued, I wish to share what I experienced and realized, particularly through witnessing, having participated twice in the H North America Cheon Shim Won Volunteer Team... how valuable and meaningful it is to convey the H Heart, the Cheonshim, and share Love with members out in the world.

The desire to pass on the love and grace I received in America, this time to HC and SA as part of the 3rd HC and SA Overseas Volunteer Team, in particular Jardim was a special Providence for me. My mother had participated in the Jardim/Paraguay Mission in 1996. Having heard the stories about the Jardim Mission since I was young and looking at the photographs of that time, when they were together with True Parents, (wow) I came to harbor a deep hope that one day I would definitely want to visit Jardim, where True Parents have poured out their jeongseong devotions for the Providence.

The moment I arrive in Jardim, which I had held in my heart for so long, and stepped on the grass for the first time, the song, 'I Will Plant Love in this World' suddenly came to my mind. Looking at the nature, the thought arose, 'Surely this Place is filled with Love just like the Original Garden of Eden. And True Parents's Poured out The Devotion Their Entire Lives to Plant Love in this Land. Even after that, I found myself humming that song repeatedly without any special reason.

I could feel as though my original mind was the first to love this Jardim, and I wanted to Plant Love Here once again. Greatest realizations came from witnessing. Although I had been with 3 Mission Teams until now, I had never born the fruit of witnessing. This time as well, while praying during the witnessing period, I kept asking about it.

With the fishing devotion I shared, the Branch President of Jardim came to mind. Before setting out for witnessing, we went out fishing with the President. Strangely enough, there were several strong bites on the line, but because it was my first time fishing, I didn't even know how to lift the fishing rod and ended up missing the bites repeatedly.

Later on, there was even evidence that the fish had taken a big bite of the bait, and what was spoken by the Branch President Kim Song nam remained deeply in my heart:

'Preparing the equipment and casting the fishing rod is our 5% portion of responsibility, while the fish taking the bait carries a 95% responsibility.'

Listening to those words, I thought that witnessing is just like fishing. Heavenly Parent has already prepared so many things for us. There is a church, there are leaders who help us. There are righteous people raised up by Heaven and a Cheon Shim Won where we can offer devotion. This has been prepared, and countless environments so that we can meet a child of God.

Then what is my part to do. Ultimately, it is my 5% portion of responsibility at that moment. While fishing, I learned that, when an opportunity comes, it is important not to miss that moment. When there is a bite, you must lift the fishing rod right away. With just a slight delay, you can miss the fish.

Witnessing is the same. I realized that even if Heavenly Parent has prepared every environment for us to

meet a person, if I do not muster the courage to approach and take one step further at that moment, I could miss that opportunity. Therefore, I learned that witnessing is not simply about meeting many people but about recognizing the moment Heaven has prepared for fulfilling the 5% portion of responsibility assigned to me.

Reflecting on why I had not born fruit until then, I felt apologetic and embarrassed, thinking that, even though Heavenly Parent had prepared so much, I had failed to fulfill my own portion of responsibility. After this realization, with about 3 days of the witnessing period remaining, it renewed my determination in my heart, 'This time, let's truly invest my all.'

And when I went out witnessing, I went out joyfully thinking, 'I'm not going out to find just any someone, but to meet a child that Heavenly Parent has already prepared. With that heart, I met a prospective person to witness to. On the last day of the witnessing period, I brought that friend along. And we watched the Divine Principle Lecture video together.

Although that day was the first time of encountering the Divine Principle, strangely enough, a conviction arose deep within my heart that this person can write an application form for membership. However, time kept passing and the moment to wrap up all our schedules and return was rapidly approaching.

At that moment, a strong thought gripped my heart, 'If I return like this, will I be able to look Heavenly Parent straight in the Eye? Heaven had prepared everything just to have me meet this one child, and I felt that I was turning back without putting the final period of the last moment. If I go back like this, I will surely regret it later.

That thought continued to dominate my mind. So, I went to the leader and said, 'I really hope this friend writes an application form. Can they write the form today? And at that point, the leader immediately prepared for the form to be written. Amazingly, by proceeding with the process immediately, that is how I came to have my spiritual child. applause (Kamsahamnida)

Just before departure, amidst a hectic situation, I was able to bear the fruit of witnessing at the very last moment. The joy of that moment was truly indescribable. It was a moment of experiencing first hand that Heaven was Working.

Above all, I felt that this was not a result because I did well, but a fruit born when Heavenly Parent Prepared everything. I just fulfilled my 5% portion of responsibility. I sincerely thank Heavenly Parent with all my heart. I learned that witnessing is not simply a matter of meeting people but discovering the righteous person prepared by Heaven, not letting go of that opportunity and fulfilling the 5% portion of responsibility assigned to me until the end. That was the greatest meaning of witnessing I learned through this volunteer period.

And now, when I go out for witnessing, I want to go out with a heart of gratitude rather than fear. I want to meet people with a joyful heart, with a mindset that I want to meet the children Heaven has already prepared. Furthermore, I want to become a person who carries on that mission without forgetting the love of True Parents and the devotion of the senior members felt in Jardim.

I believe that, if all of us rise up together and witness to fulfill Mother's Dream, we can surely achieve victory in witnessing to 1/3 of humanity. Aju? (applause) (She answers with her own 'Aju.')

I will not forget the precious mission given by Heavenly Parent and True Parents and I will become a person who completely fulfills the 5% portion of responsibility entrusted to me. Thank you for listening to my testimony thus far. (She bows again to the audience and to True Parents)

'Parents' Wish'

I've got a lot in my hands

My hands hurt

The weight of life on my back

makes my whole body ache

I have to deal with it every day

I didn't even have my time

I've been busy all my life

My legs hurt too

When I'm tired and lonely

If you could listen to Me a little bit

One day, all of a sudden, in the middle of time,

I don't think I'm alone

It's not a big one, it's a small one hugging me Who is tired.

I love You. I really love You.

If you tell Me that

Even if I walk in the desert, I'll think it's a flowery path

applause

2nd daughter of 6 siblings

12th Yeongseong Workshop

I grew without any particular problems and church was a place to meet friends and the people were more friendly than in the outside world. As an adult working a job and even working on weekends, the reasons for not going to church increases over the reasons for going. However, since I harbored no feelings of resentment or distrust to the church, I just attended moderately.

Amidst that, there was a major turning point where I began to ponder and seek out what my relationship

with Heavenly Parent was regarding my faith. It was four years ago when my mother ascended and attending her seonghwa due to cancer. In 2022 I was able to stay by my mother's side nursing her at the hospital and spent her final days on earth together.

Following my mother's passing, questions arose about her life, born and raised in Japan but coming to America and receiving the Blessing, walked the path of public work alongside my father, gave birth to and raised 6 children and lived for the Providence with all her own body. She was a mother who lived a life more virtuous than anyone else around.

While I pondered that, I also spent many days weeping while resenting Heavenly Parent for having sent away such a precious person. With the heart of yearning for my mother, I began to follow the traces that she left behind one by one. Even amidst being busy with church work every day, she cooked delicious meals, took care of all the household chores, consistently set up global news and worship video footage on days I couldn't make it because I had to work. Even when she was undergoing pain from several medical procedures at the hospital, she was a mother of strong heart, who always thought of her family before herself.

Looking into my mother's life, I naturally had questions about the Life of True Parents, True Parents Who Dedicated Their Entire Lives to Fulfill Heavenly Parent's Dream, gave Birth to and raised 14 children. Even now, I want to understand the Heart of our Parents Who Continue to Proclaim the Word and Embrace the Entire world.

Wanting to know the SW where my mother resides, I read Cheonseong Gung and realized that True Parents are Cultivating Love on Earth for Eternal Life. Although my mother's physical body is no longer on earth, I came to feel that the love she practiced on earth is eternally within me. Realizing that Love, I wanted to pass on that Love, and that led me to resolve to go on overseas missions.

When engaging in missions in Europe and the Middle East, I realized that, in order to correctly impart true love, I must convey cheonshim rather than my own thought. Through the Yeongseong Workshop, I gained certainty of the existence of the SW and was able to Meet Heavenly Parent, Who is always with us.

Building faith upon faith and resolving to join the Cheonshim Yeongseong Academy to practice true love, I completed a 6-month service period. Although there are still many things I am lacking, because I came to know that a life of living to attend Heavenly Parent is the absolute truth, I gained the conviction that no matter what difficulties may arise, I can triumph through true love.

To pass on the love I received from my parents, I resolved to join the 3rd H C and SA OCSWVT in order to love an even wider world. To learn about the Providence True Parents unfolded in H South America, I read the words, 'Love H South America', the Words of True Mother when She came to Jardim on July 7, 2024.

The Statement, 'I saw your sincere hearts. I Love you.' These Words resonated most deeply in my heart. Carrying the fluttering excitement of wondering, 'What was the sincere heart True Mother saw?' I headed to Brazil. Gratefully being entrusted with the position of captain, I encountered many difficulties as never before. For the sake of the team, I wanted to listen to the concerns of team members first, even if I had personal difficulties and knowing that, if the captain collapses, the entire team is shaken, I focused on resolving my own issues quickly.

Whenever I faced a crisis and felt at a loss, (tears) I asked how to overcome it and what to do. I could feel

Heavenly Parent was always with me and helping me. Along with directly being able to experience the Works of Heavenly Parent, I could also feel that dark spirits were also at work. I spent days encountering and fighting new satans every week. No matter what satan I met, thinking of True Mother Who is Carrying the Cosmic Cross, and fighting the final show down, I overcame with the determination to triumph through true love.

Compared to the Path True Parents Walked, it was a very small hardship, but it was my heart-felt Desire that this small victory sphere, overcome through true love, could become a small condition where True Mother's acquittal and release could happen.

Although 6 months is a short period for a condition to learn all ways the Heavenly Parent unfolded the Providence in H S and CA, I sought to see what the Sincere Heart of True Mother Saw. I asked myself, 'What kind of sincere heart am I showing to True Mother?' 'Am I treating every action and every person with sincerity?' 'Was there even a shred of falsehood?'

Prior to beginning witnessing, we all offered fishing devotion for Mother's acquittal and release and for the victory of witnessing. With gratitude, as the president of the team, I was able to catch a fish called Quitado. And upon that foundation of devotion, we were able to begin the 2nd round of witnessing. What I felt most profoundly during the witnessing period was that, when the team moves forward as one for Mother, there is the most Power Work of Heaven.

To Fulfill True Mother's Words, even though you are one thousand people now, evangelize many people who can become pure water ten times, a hundred times greater than you. All the pure waters united together and we were able to offer up joyful results. During a period of 18 days, during those 3 months, I was abl to witness to 7 children and returned them to Heavenly Parent. Applause

All the experiences in the Academy over the past 9 months have been precious to remember forever, as I live to attend Heavenly Parent and True Parents even more deeply in my remaining life on earth to Fulfill the Words of True Parents. I will put the love I received here into practice out in the world from now on. I conclude my testimony with the resolution to become a child who expands the environmental sphere of attending Heavenly Parent.

Mother, I love You... Thank You (She bows again)

applause

HJ REPORT

Kim Sang Sok

Special Missionary

Hello everyone, nice to see you.

Centered on the Words of the Bible, Matthew 15:16, 'Who do you say that I am?'

This is the question of my report. Reading True Parents's Words:

'The Land of Chung Pyung is the Place where an individual can be Born, a heartistic Place where a family can be Born, a Place where a nation can be born where the spiritual and physical body is in cooperation with Heaven and earth. Furthermore, a Place where the Kingdom on Heaven on earth and in Heaven can be constructed. (Sovereign Realm of the King Father and King Mother God)

Due to a position to overcome trials, you can develop by leaps and bounds. The fact that young people gather from around the world to receive education...

BREAK

BUSKING

Hoon Dok Hae

Knowing Heavenly Parent and becoming Heavenly Parent's children is the most urgent task for world peace. Our Parents Clearly Know the SW and God and we know how important God's nation and restoring the lineage is to the Blessing. Restoring the Lineage is the Blessing.

Because the fallen world can do the marriage of false parents, the goal is to return to God's Original nation by establishing the Original Lineage that Connects us with God in the Name of True Parents.

Therefore, BFs are tremendous. They have been given the ticket to enter the Kingdom of Heaven (Realm of King Mother God and King Father God in Oneness)...

If I received a 40-day Workshop, recognize True Parents, have absolute faith in God and step forward making a vow to follow True Parents and receive the New Seed of God's Eternal Life and Lineage, you will be able to return to Heaven. As a Person Who Possesses Sorrow, Experience and Conviction regarding the Existence of God, I am Someone Who Believes that unless our humanity seeks God and to return to God, humanity has no ultimate choice but to perish.

In that sense, I do not see today's free world or capitalist world as going in the right direction at all. Rather, I think that within the materially obsessed capitalist world, materialism and atheism is ruining the future of the world and humanity is going toward the Communism of the past.

If the fundamentalist Words of the Universe do not exist, there could be no standard of absolute values in the world. If so, the standards of human morality and ethics could not be established and a society like that will not have any philosophical basis whatever for human beings to be the lords of creation. All the difficult problems of the world today stem directly from the atheistic materialism, and it is precisely why (this breaking of Heaven's Truth) sends punishment, such as the fractional ethnic forces with atheistic beliefs flooding the world with crimes rising, diseases like AIDS resulting from free sex are being inflicted upon us.

I am a Person Who has agonized to find a fundamental remedy to solve such problems. I am the Person Who obtained the answer from God's Revelation. I believe that it is the most urgent task for world peace for all humans to know God Who is the Great Lord and Parent of Heaven and Earth and to become God's children.

I am neither on the left nor the right. Standing at the Center, I Proclaim Headwing Thought. Mainly, through Godism, I Declare that Godism is precisely Headwing Thought. Satan bows before the initiative of Love. Only Love can subjugate the devil to then turn and seek to help turn a lawless unfilial child out from amidst sin.
