H.E. Hussein Mwinyi - President of Zanzibar

The Rally of Hope encapsulates the desire of humanity to overcome its current challenges and emerge from the pandemic in a place that is more harmonious.

Universal Peace Federation (UPF) uses the terms interdependence, mutual prosperity and universal values for a world that is inclusive, caring and effective in dealing with the crises that affect all nations. The Covid 19 pandemic, climate change, poverty, food insecurity, illiteracy are but a few issues that need to be handled multi-laterally to resolve them effectively. Self-interest, however, from the individual to blocks of nations has led to a deterioration of international relations and is constraining the capacity of the multi-lateral institutions we do have, to respond effectively.

The inauguration of Think Tank 2022 represents the current international focus of UPF to make extensive efforts for the peaceful reunification of the Korean peninsula. Assembling multi-sectoral expertise from the UPF network of Ambassadors for Peace will provide a good opportunity for greater understanding between those in the North and South of the Korean peninsula. Coming to the point of peaceful reunification will require the rapprochement of the USA and China/Russia as well as the nations supporting them.

The Sixth Rally of Hope and its focus on the issues on the Korean peninsula through the inauguration of Think Tank 2022, should be seen from this perspective.

Launch of THINK TANK 2022 for the firm establishment of the Heavenly Unified Korea

"There is hope for us. God is with us. We owe much to Him. We must not pass down our indebtedness to our descendants. Today's Republic of Korea has come to be because Heaven and the world acted together in the civil war that broke out on the Korean Peninsula seventy years ago to protect Korea's democracy."

Special Address at the 3rd One Million Rally of Hope for the Realization of a Heavenly Unified World, Dr. Hak Ja Han Moon, Co-founder of the Universal Peace Federation

Heads of states and experts from various fields such as politics, business, academia, and the media are gathered to hold the "Launch of THINK TANK 2022 for the firm establishment of the Heavenly Unified Korea" led by Dr. Hak Ja Han Moon, the Mother of Peace. This gathering is to welcome and realize the era of the Heavenly Unified Korea, a unification of North and South Korea divided by the conflict between communism and democracy, centered on Heavenly Parents.

"Due to not only many unexpected problems breaking out around the world but also the coronavirus pandemic, we are seeing much political, economic and religious conflict around the world. An indescribable and unpredictable reality is unfolding in front of us."

Special Address at the 3rd One Million Rally of Hope for the Realization of a Heavenly Unified World, Dr. Hak Ja Han Moon, Co-founder of the Universal Peace Federation

We invite you to this "Launch of THINK TANK 2022 for the firm establishment of the Heavenly Unified Korea" lead by Dr. Hak Ja Han Moon, the Mother of Peace. We carry a vision where a peaceful world can only be achieved when the world comes together as one human family under Heavenly Parents through interdependence, mutual prosperity, and universal values. All problems can be solved, not by our human-centered thinking and standards, but when humanity attends God in the position of children and moves forward centered on God as the parent.

The Rally of Hope series -- which transcends political, religious, racial and ideological boundaries -- seeks to build a unified and more peaceful world around the core ideals of interdependence (mutual respect, cooperation, and recognition of our common humanity), mutual prosperity (reduction of extreme poverty and commitment to human flourishing), and universal values (the faith-based common ground that we share across boundaries of nationality, religion, culture, and race).

"I will devote the remainder of my life to ending war, immorality and greed, and liberating God's heart so that we can build a world overflowing with true peace and love." - Dr. Hak Ja Han Moon

Since August 2020, there have been five Rallies of Hope, each drawing more than 10 million online participants from around the world. Globally renowned leaders have addressed a range of issues such as the COVID-19 pandemic, environmental degradation, poverty and inequality, ethnic and race relations, and international security.

You can join this free event and become part of a transformational movement of presidents and first ladies, parliamentarians, faith leaders, the media, scholars, artists, business leaders and concerned citizens who embrace freedom, peace, and unity. The Rally of Hope will offer translation in numerous languages.
