

WFWP USA's Chicago Awaken Retreat: Discovering Heavenly Mother's Essence

Kaeleigh Moffitt
November 9, 2024

On November 9, 2024, over 40 women gathered in Chicago for the Awaken Retreat, an event dedicated to exploring the divine essence of Heavenly Mother and fostering personal transformation. The retreat was a profound opportunity for participants to experience the love, guidance, and healing that comes from understanding God's feminine nature as revealed by Mother Moon.

Discovering Heavenly Mother

The retreat centered on unveiling the hidden essence of Heavenly Parent - Heavenly Mother - whose presence and love have been brought to light through Mother Moon's teachings. For many attendees, this was a life-changing revelation, offering peace, empowerment, and clarity. Participants were guided to see themselves as divine reflections of Heavenly Mother, experiencing the fullness of God's love in new and transformative ways.

Transformative Moments

Throughout the day, participants engaged in guided discussions, personal reflections, and heartfelt sharing. Using the words of Mother Moon, the program led women on a journey to discover the hidden half of God - a Heavenly Mother who has long awaited her children's embrace. These moments often brought tears, healing, and a renewed sense of purpose. Many participants found answers to deep questions, felt empowered to embrace their unique identities, and expressed

gratitude for the opportunity to connect with Heavenly Mother.

Some reflections from attendees include:

"Heavenly Mother's heart is so relatable. She feels what I feel. She grieves for the things I grieve for. How amazing that I mirror Her."

"To grow as a full human (woman), I need to channel the divine feminine energy. Heavenly Mother is strong yet soft. By embracing both aspects, I gain energy and grow."

"My value comes from acting on what Heavenly Mother sees in me. It's necessary for women to tune into their divinity and believe in their potential."

Embracing Responsibility and Harmony

The retreat also inspired a renewed sense of responsibility in relationships. One participant shared:

"I realized I need to deny the negative parts of my heart and love my husband. Women have the responsibility to protect and harmonize relationships."

This understanding extended beyond personal relationships to a broader purpose of creating harmony between the divine feminine and masculine. Women were encouraged to embrace their uniqueness as reflections of Heavenly Mother's heart, proudly expressing their motherly essence.

A Vision of Inclusivity

The message of Heavenly Mother resonated deeply across cultural and generational lines. One participant from Chicago remarked:

"Through Mother Moon's message, every culture can see her as a mother for all people, giving love, respect, and mission for life."

This global inclusivity underscores the universal relevance of Mother Moon's work and the transformative power of understanding God's feminine essence.

A New Awakening

The Chicago Awaken Retreat marked a significant step in the journey of empowering women through the revelation of Heavenly Mother's essence. Women left the retreat with a renewed sense of purpose, healing, and unity, standing together with Mother Moon's vision of a world rooted in harmony and love. Through this awakening, they are ready to embrace the world with strength and compassion, carrying forward the legacy of Mother Moon.
