The fool says in his heart, "There is no God." They are corrupt, doing abominable iniquity; there is none who does good. God looks down from heaven on the children of man to see if there are any who understand, who seek after God. They have all fallen away; together they have become corrupt; there is none who does good, not even one. Have those who work evil no knowledge, who eat up my people as they eat bread, and do not call upon God? There they are, in great terror, where there is no terror! For God scatters the bones of him who encamps against you; you put them to shame, for God has rejected them. Oh, that salvation for Israel would come out of Zion! When God restores the fortunes of his

people, let Jacob rejoice, let Israel be glad. **Psalm 53**

The communists have been working without anyone knowing, and by the time people realize it, it is too late. Now we are warned, and it is time for someone to step forward in indignation and stop the communists. Do we find a group of people who are furious at what is happening in America? We have to be sure of that. We have to have a strong stick to shatter these injustices.

SMM, The Strictest Test You Must Pass Is Meeting the Qualification to Be a Real Parent

Hello,

On Sunday, we watched Hyung Jin Nim's message from LaTrobe, PA. This is the 5th time Trump has visited the Pittsburgh area. Across from the stadium where the Steelers will train. Then on Monday Hyung Jin Nim will travel to the Trump rally in North Carolina. He then read Psalm 53, which says there is no one who seeks God. All of us must repent.

Today, we see the revival of goddess religions that worship fertility and sexuality. More important than deporting illegal aliens, is to "deport" bureaucrats in DC who want to control our speech, firearms, etc. The biggest terrorist organizations are the intelligence agencies, including the CIA, etc. which conducts assassinations, propaganda, destabilizing nations. He referred to the new Department of Defense policy that the U.S. armed forces can use lethal force against US citizens. Candace Owens has revealed that Kamala Harris statement in her autobiography that her grandmother, Beryl, was her black is false. Beryl was Irish. Kamala represents the Deep State which is also based on lies.

It is a crazy time. As Elon says, if we don't win in this election, it will be over. We have just 2 weeks until election. We have to be disciplined and united. America was founded as a Christian democracy. We have become debauched and satanic. Through abortions the U.S. has allowed 70 million unborn children to be

murdered since the Supreme Court ruling of Roe v. Wade in 1973.

Due to the teaching of Scofield bible, and the pretrib doctrine, many Christians have become passive and not involved in electing righteous leaders. They ignore James 4:7, which warns us to resist the devil and he will flee. We have to resist and speak out against evil.

We live in a time when many fathers are not in the home. Christianity has become hyper-feminized and just focused on feelings. America is in deep trouble. We have to repent. Ask God to forgive us. Make Christ the center of our culture.

Hyung Jin Nim concluded his message by expressing appreciation for all the volunteers who made the ROI Freedom Festival a success. We have to become the hands and feet of God. Remain vigilant until the end. Remember to "cut the doves," which Abraham forgot to do, leading to severe suffering for his descendants.

Donald Trump's Prophetic Turn to the Right

by Kyle Toffey, Newfoundland Sanctuary Pastor

Hyung Jin Nim was talking about the assassination attempt on Trump at Butler when I had an inspiration. I was listening to him as the words of his rap songs still rang in my head that were played consistently as my wife and I attended yesterday's rally. The image of the Trump's miraculous move as the bullet passed by was clear in my mind.

What I felt was that Trump's near miss was not just God saving his life for the sake of His Providence. It was also an allegory for this election and the future of America. It became clear to me that even a small shift to the right can change the history of everything. There might be some pain and blood, maybe some people may get hurt, however just as that little movement to the right changed everything, so might the

world change with a slight nudge to the right. And just as Trump's brush with disaster has energized millions and given us hope, we might be able to dodge a bullet and see a great awakening in America and the world at this time.
