

Cheon Il Guk Albania Missionaries: Pershendetje!

Roland Platt
February 17, 2020

Hello from beautiful city of Tirana, Albania!

We are missionaries from America, here to understand more deeply the hearts and situations of other countries we have come to learn, inherit, and support. There is so much we can learn here, and so much we can share!

So far we have been here for about four days and we learned a lot about the pride and passion the locals have for their country. It's only been a few days, but we have seen and felt a lot of heart and warmth from this country. We are excited for more to come!

This is our first full day with the wonderful CARP members that welcomed us at the Tirana, Albania

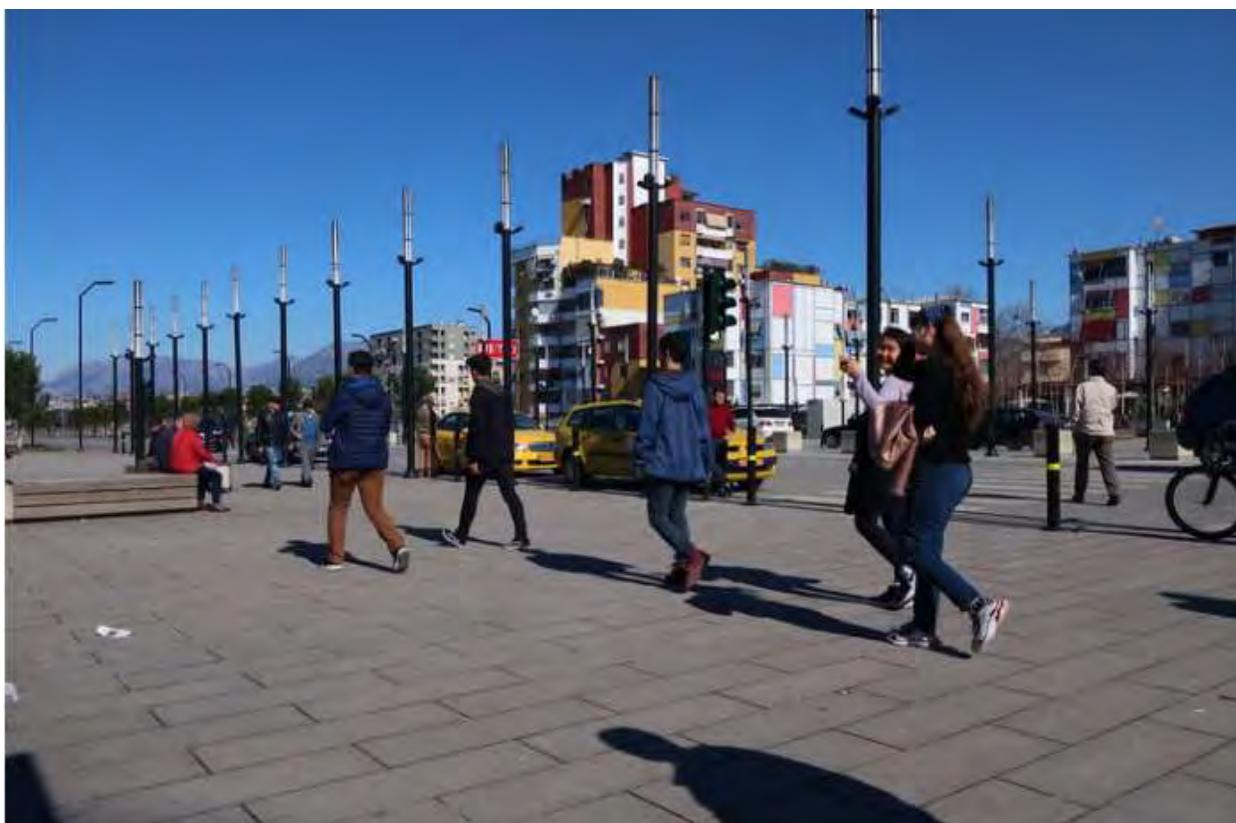

CARP center. Their smiles are so bright and their characters as well always so exciting and joyful!

HERE! Is Albania's BIG HERO, Skanderbeg! He brought the different kingdoms of Albania into one and protected Christianity in Albania for 25 years. We want to inherit his passionate heart and determination to live his life completely for the sake of others.

During these past few days, we have also been taking the time to learn the Albanian language, Albanian culture, and the history of Albania.

We have a lot of time to prepare so that we are organized and ready for anything. This is our CARP center and CARP leader, Ardit. He has been teaching us so much and supporting us on our mission here.

Thank you for reading!

It gets better and better so please look forward to our next blog post!
