

## Updated Blessing4U Matching Website for All Matching Candidates

Orlande Schenk  
November 22, 2019

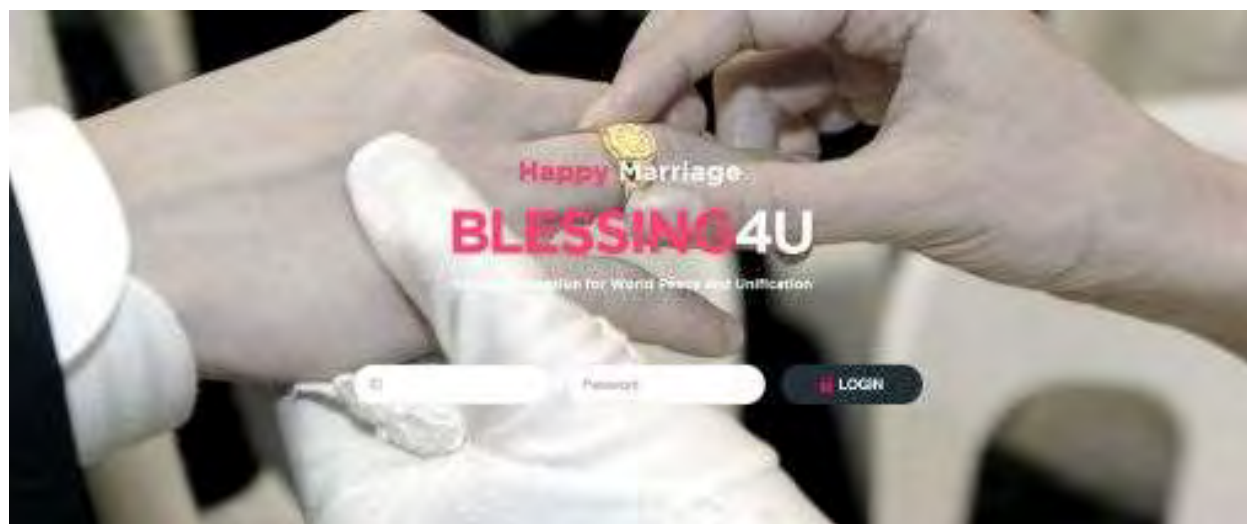

For the purpose of providing better support in the matching of single candidates for the Blessing, the matching website has been completely revamped under a new name: [blessing4u.org](http://blessing4u.org)

UPDATE – 22/11/19: Please see below for information regarding the update to the matching website for 1st Generation matching candidates

Matching Website

The matching website now accepts a wider range of candidates, including blessed children (second or third generation), 1st generation candidates, candidates desiring to receive international matching, as well as candidates with special needs.

### Website Features

Largest candidate database: This database will be the largest among candidate databases as it will include both blessed children and first-generation single candidates from around the world, including Korea and Japan.

Algorithm system to help candidates find a compatible match: A system that helps you analyze as well as search for a compatible partner in marriage.

Mobile accessibility: The website is accessible through both computer or mobile device.

### **Process of searching for a suitable match**

For second-generation candidates, parents and matching supporters can search and recommend a possible match

2nd generation members who have passed a certain age will be able to search for partners by themselves.

For 1st generation candidates, matching supporters search and recommend a possible match.

### **Update – 22/11/19:**

The international BFD has put a lot of effort into developing the matching website and would like to encourage all 1st Generation matching candidates to register.

Brief Overview of Registration Process:

- > All 1st Generation matching candidates have to register personally on [www.blessing4u.org](http://www.blessing4u.org)
- > Every candidate needs a Matching Supporter, who has to be approved by the national BFD leader
- > The minimum requirement of a matching candidate to be shown on blessing4you is:
  - personal information
  - family information
  - pictures
  - answering all personal questions on the website
  - confirmed matching supporter

If all of the required information is given, the candidate's profile will be made visible to other Matching Supporters. Only the Matching Supporter can search the database; the matching candidate does not have the authorisation to do this.

Only a candidate who is registered on the [matching website](#) can be a matching candidate.

Registration deadline: 20th December 2019

Please feel free to approach Yuru Peters if you have questions regarding the registration process at: [europbfd@gmail.com](mailto:europbfd@gmail.com)
