

FFWPU Europe and Middle East: 1st Special Needs Parents Matching Webinar

Orlande Schenk
September 27, 2020

Saturday, November 7, 2020 (exact time and zoom link will be provided after application)

Profile and Registration deadline: October 20, 2020

Dear Blessed families,

In cooperation with the Blessed Family Department North America (BFM) we recently held two Zoom conferences to improve our care for Special Needs families (before: Treasures of Heaven) – who have one or more children that need special support.

For a better understanding of this ministry several tools have been developed by Lisa Janssen and Anne-Marie Mylar (such as documents, questionnaires and a PowerPoint presentation), which can be shared with you on request.

The purpose of this webinar is to support CIG parents in the task of matching their children, as True Parents have passed this responsibility unto them.

INVITED are: parents of Special Needs children in matching age (18+ years) and matching supporters.

If you would like your child to be presented to other parents during this webinar, we will need an appropriate profile or summary that can be shared.

You might have already created a profile on the official website www.Blessing4U.org or on OMS (Online Matching System: www.cheon-il-guk.org), otherwise the PowerPoint and questionnaires will help you to create a profile. Then, please fill in the attached profile form and send it either to Jane Toresen or to Lisa Janssen by email.

What to expect during this Parents Matching Convocation for SN individuals: During an Online Parents Matching Convocation, candidates are presented, one by one in accordance with what is written about them in their profile. The webinar provides the opportunity to display information and photographs of the matching candidate, and to see profiles of other candidates. This may directly help to find a suitable partner for your child.

While profiles are usually only presented with the agreement of both parents and child, in the case of SN candidates the parents may have to make that decision themselves due to the severity of the situation of their adult child.

The time spent per individual will be dependent on how many individuals are presented; basically a profile should be read within 3 minutes or less.

[Please use this link to apply for participation in the webinar:](#)
