To empower women and families during this time of crisis and racial unrest, Global Women's Peace Network USA initiated a three-part Facebook live speaker series, under the theme Reflect, Reset, Rebuild.

On July 1st, the second forum was held on the topic "Crisis in Education." Two expert women leaders shared on the global academic crisis, followed by the opportunities it presents to chart new paths toward peace.

The need for parents to get involved as the primary teachers for their child's education and spiritual values was presented as the best option to prevent further social ills from reoccurring.

After question and answer, the session concluded by highlighting the Mother of Peace as a mentor, educator, and leader who has given her life to bring about peace globally, alongside her timely memoir. Within a few days this video has reached 4,700 people on facebook.
