Exploitation*

Help defend human dignity and oppose sexual exploitation! This webinar will talk about practical tips for how to protect and prepare yourself and loved ones for living in a hyper-sexualized world. A survey of the dangers and the tactics employed by the porn industry will be shared, as well as technology tools, conversation starters, and go-to resources - all of these will help you better address these issues in the home. We won't stop there though! You will learn ways to help your community - whether you want to do so anonymously and have little time, or are ready to get out there with a battering ram!

*Dawn Hawkins is a passionate defender of human rights who has dedicated her life to fighting against societal harms that threaten the dignity of others. Her energy, creativity, and mobilization skills have revived the anti-pornography movement in America. As executive director of the National Center on Sexual Exploitation (NCOSE), Dawn developed a national strategy that has united conservative, women's rights, child advocacy, and religious groups, including bipartisan political leadership, to work together raising awareness of the harmful pandemic of pornography. Her initiatives have led such organizations as Google, Hilton Worldwide, Verizon, and the Department of Defense to adopt sweeping changes to policies of theirs that had fostered exploitation.*
