

## **FFWPU International: Special Briefing on The Miracle of Pentecost**

**Song Yong-cheon**  
June 2024

Hello Brothers and Sisters,

Welcome to the new month of June. May God's blessings be upon you and your family.

Last month, on May 19, 2024, a profoundly grace-filled Pentecost special service was held at the Showpalast München in Germany, attended by around 2,500 leaders and members from Heavenly Europe.

This event was marked by the physical presence of the Only Begotten Daughter, True Mother.

Pentecost is one of the major festivals in Christianity, commemorating the 50th day after Jesus' resurrection. It marks the day when the Holy Spirit, promised by Jesus upon His ascension, first descended upon His disciples, igniting the miraculous spread of Christianity.

On the day of the Pentecost festival, True Mother, the substantial Holy Spirit, wishing to awaken Europe, presided over a special service to breathe new life into Heavenly Europe.

During the event, True Mother asked, "Who is it that is here in front of you?" and declared, "Jesus Christ and the substantial Holy Spirit, the only begotten Daughter, Wang Omma, are both here." She shared her purpose for visiting Europe, stating, "The reason I have come to Europe is to revive and resurrect it from its slumber," emphasizing the need for a new revival in Europe, centered on True Mother, the Only Begotten Daughter.

True Mother addressed the leaders and members in Europe, speaking deeply about the essence of Christianity. She emphasized that Heavenly Europe must fulfill the Christian providence, which is now approaching its twilight. She remarked that, "just as at the time of Pentecost 2,000 years ago, the substantial Holy Spirit and only begotten Daughter has now come to Europe to create the environment in which all Christians and all people can achieve actual and complete resurrection through the Holy Spirit."

For this purpose, the substantial Holy Spirit, the Only Begotten Daughter, has come to Europe. True Mother encouraged all, saying, so, go out and proudly speak about the truth of the providence, the essence of our Creator, the essence of Jesus and about True Parents. Then True Mother urged everyone to do their utmost to ensure that the European continent participates in True Parents' providence before it's too late.

This significant day of Pentecost thus marked a new era of resurrection and revival in Heavenly Europe with the presence of True Mother, the substantial Holy Spirit.

**The special service, themed "BLOOM," represented the rebirth and blossoming through the Holy Spirit and unfolded in three distinct parts:**

**Part 1 - "Seeds"** - which served as the preparatory program to meet the True Mother the Substantial Holy Spirit

**Part 2 - "Buds"** - which stood for spreading the words of True Mother to germinate new beginnings, and

**Part 3 - "Bloom!"** - which was a resolution and determination to revive and resurrect Heavenly Europe in unity with True Mother, the Substantial Holy Spirit.

During the celebration performance, the second and third-generation Hyodeong children from Heavenly Europe captivated the audience with their pure and innocent voices, deeply touching True Mother. As they sang their song of gratitude, embodying the essence of pure water, I felt a profound sense of hope for the future of Heavenly Europe.

Additionally, the Heavenly Top Guns in Europe delivered performances filled with sincere and earnest love for True Mother. I watched as True Mother gazed at them with loving eyes, deeply moved by their dedication.

Leaders and members in Heavenly Europe dedicated themselves to extensive Hoon Dok Hae reading, prayer, and fasting in anticipation of True Mother's visit. Their profound longing for True Mother was deeply felt. They also spoke of miraculous events, particularly the weather. The forecast for Munich had predicted rain throughout the week, thus, myself, I was quite worried as when traveled to Europe. However, surprisingly, thunderstorms and heavy rain occurred only during early mornings and late nights, and strangely, each morning, the clouds would part to reveal sunshine, bringing a bright start to each day.

During the event on both Saturday and Sunday, rain fell at dawn, yet by morning, the skies cleared to reveal sunny and breezy conditions, creating a delightful atmosphere. After concluding all activities on Sunday and while we were meeting at our accommodation, a sudden downpour occurred. Then, a beautiful rainbow appeared in front of the hotel where True Mother was staying, this moment felt like the profound manifestation of Heavenly Parent's love for the only begotten daughter, True Mother.

Members from across Heavenly Europe expressed their joy at meeting the beloved True Mother.

They felt rejuvenated and empowered by reuniting and exchanging ideas with one another. Inspired by True Mother's words, they emphasized that today marks not an end, but the beginning of a new chapter.

I am pleased to share that I witnessed firsthand how True Mother's visit heralded a transformative era, inaugurating a new dawn for Heavenly Europe - a beacon of hope and renewal.
