

Top Gun Youth Missionaries 2024 Summer Heavenly Top Gun Short-Term Overseas Mission

Song Yong-cheon
August 12, 2024

Following True Mother's words to illuminate the mainstream of providence, 15 Heavenly Top Gun missionaries (13 youth and college students, 2 young leaders) carried out a 3-week short-term mission from June 24 to August 12.

The comprehensive program encompassed fundraising, pre-mission witness training, overseas activities in Australia, Hong Kong, and Austria, and post-mission education. Participants engaged in campus outreach, organized events for potential members, provided care and support, and interacted with local communities.

The 2024 Summer Heavenly Top Gun short-term missionaries engaged in 3-week activities to illuminate the mainstream of providence as revealed by True Mother. Despite the challenges of adapting to diverse cultures, limited timeframe, the Heavenly Top Gun missionaries demonstrated unwavering dedication to True Mother's vision. Their efforts culminated in not just acquired knowledge, but profound spiritual realizations and personal growth.

Testimonials from participants highlight the impact of this experience:

Kim Do-hyun, Australia Team, Missionary (Cheongpa Volunteer, Team Leader)

While doing witnessing activities, I invested myself thinking of my role as a representative conveying Heaven's words and love. I believed that Heaven would guide me during that time, so I could just joyfully invest myself. Although I felt frustrated that I couldn't fully convey my heart to people due to my lack of English skills, it allowed me to understand a bit of Heavenly Parent's sorrowful heart. True Mother! I sincerely thank you for allowing me to spend such precious, valuable moments. Through many experiences, I will grow more and become a child who can be of help in True Parents' providence and become True Parents' pride!

Choi Seung-gi, Australia Team, Missionary (Cheongpa Volunteer)

This year, I am repenting for my past actions and moving forward anew. While receiving the general 40-day workshop and spiritual 40-day workshop, the thought of witnessing according to True Mother's words strongly filled my heart, allowing me to also act as a volunteer at the Seoul YSP Center. Thus, I've been working to become a child resembling True Parents, even jumping into this 21-day short-term mission.

It was only possible for me to act like this because of Heaven's guidance. Of course, when Heaven guided me on this path, many trials accompanied it. Now, through these experiences, I will take one more step forward to bring results that I can show before True Mother. Once again, I thank you for the precious grace of True Mother, the substantial Holy Spirit and only begotten Daughter.

Yoo Jung-min, Hong Kong Team, Missionary (Sinchon Dormitory Leader, Team Leader)

During the 3-week short-term mission period, I went out to witness with the goal of "witnessing with True Mother's heart that wants to embrace all of humanity." At first, I approached people thinking about how Mother would have approached them, what she would have done, and I approached with a heart of seeing brothers and sisters I hadn't seen before rather than feeling nervous. Doing so, throughout the activity, I felt that each person was precious and a child that True Mother wants to love. I will do my best to become True Mother's representative, always thinking of True Mother's heart wherever I am, without forgetting the grace I felt during this short-term mission period. I sincerely thank Heavenly Parent and True Parents for giving us great grace and love.
