America has been moving forward to fully support True Mother's providence leading to the Entrance Ceremony. Across the country, our communities have been Activated to witness and share our good news with friends, families and neighbors. There are three main field campaigns, New Members, Blessing Couples, and Donations for Cheon Won Gung. Here are some notable stories from our communities:

### **Connecticut UPA Missionaries: Fulfilling Their Mission Through Community Outreach**

The Connecticut Family Church has the pleasure of hosting four Universal Peace Academy (UPA) missionaries. Together, church members and missionaries have joined to spread our core values through community outreach' with throughout October. The missionaries are strengthening connections with the community at institutions like Bridgeport International Academy and Bridgeport High School. They are also inspiring the community through 'Peace Starts with Me' initiatives, service projects, and community dinners every Saturday.

Church members are reminded of True Mother's words, "Church revival comes through continuous witnessing," as they witness the church uniting with the community. They strive to share God's love through various prayers and moving worship services, working to grow as a church that integrates with the local community.

The Connecticut Family Church has pledged to dedicate themselves more intensively to activities towards the victory of 2025, hoping that their community will be firmly established in the local area and that Heavenly Parent's dream be fulfilled.

Participants emphasized the message that "70 years of division is enough," stating that it's tragic to use resources for war preparations when they are insufficient to respond to global challenges like climate change.
