

WFWP: Membership Increase 50+ by end of December!

Pamela Stein
December 11, 2015

Dear Brothers and Sisters,

In recent weeks I have been writing to the WFWP members whose membership has stopped for one reason or another; I have been seeking to boost up our national membership status to 50 new members by the end of this month.

I'm pleased with the response of renewals who have upgraded, including one student that upgraded to Bronze (\$50). We are just getting started with a push to renew 2014/15 members, hoping the Silver Levels will upgrade to Gold. I plan to call the Platinum Level candidates personally-I want to find twenty Platinum members across the nation. We have an exciting year ahead, rich in transformation and growth. More than ever WFWP needs your support and commitment to seek new members in your Chapter.

So you ask: Why should my friends or associates join WFWP? Why would the wealthiest person I know want to become a Platinum Level member?

So I would answer you: We live in frightening times on a daily basis; and it is deeply comforting to belong to a women's peace movement that speaks the language of love; that understands reconciliation, forgiveness, giving, partnership, and has tremendous hope in the future of our youth. We have a loving response to the fear.

This is our Founder's vision. This is True Mother's 'love language' if you will; promoting her legacy in America at this time is an honor and privilege. As Blessed Central Family mothers we have a sacred responsibility to stand with her and transmit the true love that shines from us because we are one body with her. As the cells of her spiritual body, we may radiate her new-found excitement and hopes eloquently expressed recently: During these past few years my heart has been rather heavy, but today I feel that weight has been lifted, and my heart is light and happy . . . I have seen the passion of more than 3,500 youths and students, our future leaders. In particular, meeting the 200 young people who attended the Top Gun Workshop gave me great hope. They will be the central leadership to guide the worldwide providence in the future.

My sisters, let us inhale True Mother's light heart and happiness; let us exhale confidence and joy. Let's support True Mother's organization, WFWP-USA! Let us spread True Mother's legacy throughout America; let us find new members to join us! At this time, we are seeking Gold and Silver Membership to ensure stability for the positive changes occurring in WFWP-USA in 2016. The monthly support will assist in new training programs and events, as well enable our chairwomen to develop and maintain local initiatives.

More chapters now have young women coming on board as co-chairwomen or assistants, with a focus in 2016 on character education training for young women ages 12-30. Also, our twenty-plus-year foundation in America affords the bright prospect of forming partnerships with other non-profits in the local chapters. Through collaborative teamwork, we can multiply the impact of local women becoming leaders of peace.

Please sign up members online at <https://wfwp.us/index.php/become-a-member> or by mailing us a printed membership form found [HERE](#). If you have any questions or would like to request printed membership forms, call the WFWP-USA HQ office at 212-302-8837. The new membership form is beautiful, improved and personally crafted by our Vice President Katarina Connery.

I plan to call you in the coming week, and/or I would be thrilled to hear from you, regarding your ideas or thoughts on implementing upcoming membership growth. Have a beautiful loving holiday season with your family and coworkers and neighbors. May a miracle become yours this month.
