

## Dan Stein presents the Fall of Man to Unity Baptist Church in Las Vegas

Kyouko Yamaguchi  
April 9, 2016

Pastor Giddens invited us to give a lecture at his church's Men's Ministry Study Group. Pastor Giddens always tells me that he can deal with all the teachings of the Divine Principle including the Fall of Man, the failure of John the Baptist, and the Mission of Jesus, except the last part, about True Father being the Messiah. He said that Dan has already put one foot into his door, so why not bring him to teach the Fall of Man to his Men's Ministry group.

On April 9<sup>th</sup>, Dan and I went to Unity Baptist Church to present the Fall of Man. Many members of the Men's Ministry had also attended the Marriage Blessing Ceremony which was held at this church last November, and we were welcomed very warmly.

Dan's presentation was very powerful. The Church was in crisis. The church had lost its backbone and moral authority in society, and was watching helplessly as its young people were taken one by one, by the fall, into the secular world, never to return. The good news was that God had known that such a day was coming, and had sent His messenger to bring His message to the churches. That messenger was Rev. Sun Myung Moon, and the message was "Christianity in Crisis." A pivotal part of that message was the presentation on the Fall of Man. The participants listened attentively and they seem to have received the message well. After the presentation, we had a Q and A session, and Rev. Emanuel Wasson lead the discussion. Rev. Wasson also gave a beautiful testimony on how the Fall of Man's truth gave him strength in his marriage life.

Pastor Giddens gave the closing prayer and also commented that each person who attended the study session should reach out to spread the message: "each one, reach one." Many thanks to the members who came to support this event and helped so that everything will go smoothly:  
Stephen and Hisae Child – came from Reno to observe the lecture to use for their outreach;  
Thanh Le – computer equipment setup; Keita Sekine – photographer; Masami Yamaguchi – preparation and serving food
