

Sanctuary Church is growing rapidly and there is clear need for a training center

Lourdes Swarts

March 31, 2017

Good morning!

Sanctuary Church is growing rapidly and there is clear need for a training center and as well of an educational coordinator to help meet the needs of our community.

Japan has now over 120 churches across the nation and is growing daily.

In Korea our church has been working behind the scenes and the movement is growing of clear disapproval of the Han mother's new theology, now being taught openly.

We will grow very quickly there as well. Make no mistake, the key leaders in Korea are not buying the teaching that True Father was born with original sin. There is no way the Han mother can convince the hard core followers of our True Father that he is a failure and that Mother is the Only Begotten Daughter or that we have two gods.

All providential nations are aligning now with the Second King and a substantial foundation is being built in around 60 nations.

So let's us prepare for the future by making all the preparations needed to be to support our growth.

Would you join me in this effort?

God bless!

Lourdes Swarts, Secretary, World Mission Department
