

## **Dr. Kim reports to True Mother twice weekly about what is happening in America**

Kevin Thompson

April 25, 2020

Hello brothers and sisters,

Dr. [Ki Hoon] Kim is sending a letter to report to True Mother two times a week telling her what is happening in America in each of the subregions. Mother is always inspired to get reports from the USA. True Mother sent a message to our worldwide churches yesterday asking everyone to follow the local guidelines to be safe and that our churches do not have gatherings which are not authorized by local authorities.

The National Sunday Service reached people in 69 countries last week and 900 cities. Great opportunity to testify to True Parents. Right after the National Service we have a local zoom call to reflect on what we learned.

The 40 day Chosen workshop is going on each day at 3 o'clock in the afternoon. It is a great chance for yourself to be refreshed in Divine Principle and especially to invite any friends. It is specifically meant for clergy but open to anyone. Andy Compton is doing a great job with the lecturing.

People are finding creative ways to utilize their time. Some people are doing True Family Values education through online zoom calls, Pastors forums. In some cases pastors are doing the teaching. All kinds of wonderful opportunities.

True Mother's autobiography is due out in early May. Headquarters will ask us to do a 21-day precondition to identify 43 people in our tribe whom we would want to give the book to. As you know the next step for our tribe is education and we want to use this book as a part of that education. So please think about who you would like to give this book to. We also want to make this book into a bestseller.

We are also having weekly get togethers as a church family online, through zoom, on Thursday night when I will offer any latest info that I hear about and also give everyone a chance to connect and share what is going on. Many people are telling me that they love just to see each other and know that everyone is safe. Please join us and if you have something you would like to share let me know so I can make sure to get you on.

God bless you one and all. Be safe and keep your spirit high, which is good for the immunity system. See you on Sunday. We will be having a local service at 10:00.

God Bless

Kevin
