

FFWPU West USA: Peace Starts With Me

Brothers and sisters,

I hope that you can feel the excitement brewing in our American movement as we share the good news about the work of our True Parents. We have a golden opportunity to let 1/3 of the country know about Mother's leadership. Thank you for your dedication to God's Providence and faith. It is about time for all the years of indemnity to bring great results. I pray that you are thriving in your relationship with the Heavenly Parent.

On a personal note, thank you so much for your prayers for me. I had an operation on my eyes on Wednesday and I'm hopeful I can recover fully.
