Brothers and sisters,

September is upon us. I hope you are healthy, happy and feeling blessed.

I am in New York where I was called by President Dunkley along with many others to make a strategy to have breakthrough in our witnessing. We have been meeting in 4 groups –

1. Outreach
2. Education
3. Community Care and
4. Service

We have spent a few productive days and are putting everything together to present to our communities in the next few days.

No matter what plans and strategies are implemented, the fundamental requirement is that we are absolutely one in heart with True Mother. She has told us that if we are totally one with her then miracles will flow.

Do you believe that? Let us pray sincerely to find that depth of heartistic connection. We probably need to leave behind some old ideas and concepts.

Unity is the key for victory.
