Brothers and sisters,

Now we prepare for the new year of 2025.

This should be a momentous year for God's Providence and for us all.

Let us close out 2024 claiming our victories for this year, repenting for any mistakes or lacking and dive into the new year with strong determination and with clear goals to accomplish.

I pray that we can all support True Mother as she marches forward to open Cheon Won Gung and quickly bring about North and South Korean unity.

God Bless,

Kevin and Masako Thompson
