

About Holy Mother Han

Brothers and sisters,

I just returned from Korea where we celebrated True Parents birthday. At the pledge service True Mother wanted us all to eat together and so she provided little mochi snacks so we could participate. On the offering table, I learned that Mother supervised which kinds of food should be there. She chose True Father's favorite foods, and she prepared the dishes specifically to offer to True Father. It was so touching.

As you know, Mother suggested that we change the ending of our prayer to include the words, "attending Holy Mother Han". My understanding is that in Korea, married women do not take the name of their husband. Therefore, in Korea, it is natural for True Mother to be known as Mrs. Han. Also, Han is the root name of Korean people and 25 million North Koreans know that they are the Han people plus 1.3 billion Chinese can relate to the Han name. True Mother is also very lovingly concerned about Jesus' mother Mary, who didn't fulfill her responsibility to attend Jesus and help him to marry. Even though she is known as Holy Mother Mary, Mary is actually struggling about this and True Mother wants to be able to liberate her.

On Saturday it is the 50th anniversary of the 1800 couples and we want to wish them all great happiness. They have lived long, faithful lives and produced lineages connected to True Parents. **HAPPY ANNIVERSARY.** Each local church will be conducting Special Grace Holy Wine ceremonies in coming weeks. Please prepare well. President Dunkley has prepared a lecture series to help everyone understand where we are at in God's Providence. I hope you get the chance to watch these lectures. If you are planning to go on the organized pilgrimage to Korea for the opening of CWG please sign up **IMMEDIATELY** as there may be limited spaces left.

God Bless,

Kevin and Masako Thompson
