Brothers and sisters,

Springtime is a beautiful time of the year when the flowers are coming out and the weather is warming nicely. We are praying that, after the opening of the Cheon Il Sanctum this is the springtime of God's providence. Let us remember the incredible accomplishment of True Mother to bring joy to God by creating a living space on earth for Heavenly Parent, while also creating a heavenly garden for God's children to enjoy at HJ Cheonwon.

I am sending to you the link to see our next generation in Japan sharing their passionate appeals to be heard. True Mother was moved by this video and I want us all to see it.

I encourage you to participate in regular meetings and to take every chance to interact with brothers and sisters. I read this quote this morning "Content is everywhere, but community and connection are rare." Let's reach out and take care of one another.

God Bless,

Kevin and Masako Thompson
