WEST REGION FAMILY NEWSLETTER

Brothers and sisters,

We have just returned from Korea where we found True Mother to be upbeat and very positive about the future, despite the troubles which the Korean government are inflicting upon her. One of the reasons to be so positive is that 1300 youthful PURE WATER generation were creating the kind of atmosphere which will shake heaven and earth. Clearly True Mother was receiving great energy from these high spirit young people as they were receiving much love and energy from being in the same space as True Mother. It was a joy to see.

Please don't believe the negative things that are being circulated by enemies of True Mother and our movement about changes in leadership in our movement and reasons for those changes. Do not fret, Mother is in charge and good things are happening, especially from America to support Mother.

The Korean prosecutors invaded Mother's space and violated her personal belongings and precious mementos and more. Can you imagine the Italian government invading the personal bedroom of the Pope and rifling through his personal drawers and deeply personal things. Unacceptable. Let us continue to pray for a good outcome and victory.

A belated Happy Anniversary to the 1992 & 1995 blessing groups on August 25th.

God Bless,

Kevin & Masako Thompson
