

One of the Most Tumultuous Weeks in Unification Church history

Kevin Thompson
September 4, 2026

Dear brothers and sisters,

We've just endured one of the most tumultuous weeks in Unification Church history. I'm sure that we were all saddened to hear the news that True Mother was not in fact acquitted. Even though there will be appeals and maneuvering to discuss things like probation and time served options, the final, final result is still not clear.

We just spent the week in Las Vegas with President Dunkley, discussing and digesting the ramifications of what we have heard. It is interesting that some of our highest level allies are disgusted and determined to work with us to continue the fight, but they need a Korean church leaders to lead the way. There are many cultural differences between Korea and America in how to approach this fight.

The bottom line is that True Mother is God's Only Begotten Daughter and the central pillar of the Providence no matter what any court says. It is up to us to keep the faith and to march forward diligently and in unity with our church president.

Thank you all for your prayers and conditions, let us not lose his heart and keep the faith.

This Sunday Demian Dunkley is speaking in a Christian Church in Tennessee and he is asking that we watch it on Sunday. It is a historic moment for our church and DD will show how to address Christianity about True Mother situation. The service will be at 10 AM central time. Check with your local church about watching plans.

God Bless,

Kevin and Masako Thompson
