In today's sermon, Pastor Hyung Jin Moon explained:

"The Rights given to us by God should be of every nation and state. There should not be only 194 nations, there can be many, many nations and states, even into the thousands. But they would all be governed by, in the ideal world, by God's Kingdom, where we can live in freedom, in responsibility, where we can live and have prosperity, where we can have the least regulations upon our lives, where we can truly seek after what God has given us and the gifts and talents that He has given us and go as far as we can with those gifts and talents without intervention of outside states, or outside powers, or outside centralized bureaucracies. We should be able to live free with God in the land of conscience and relationship with God. So ideally the whole world would have that kind of relationship. and the Bill of Rights that covers America, and not extending to all the other amendments that are post Founding Fathers, which many are unconstitutional

All those Bill of Rights that are enumerated in the Cheon Il Guk Bill of Rights would ideally be spread to peoples of the world so that all peoples would be protected from governments, protected from centralized powers, would be protected from those types of archangelic forces that always seek to control.

And so the rights not delegated to the worldwide United States of Cheon Il Gook by the Constitution nor prohibited by it to the states, are reserved to the states respectively, or TO THE PEOPLE.

This is what is so radically different. Satan's kingdom always tries to give the final, largest authority to the centralized hierarchy. God's kingdom is opposite. We acknowledge common law. The local governance has a higher say than the highest hierarchies. You see the vast difference. Totally different. The fallen church offering total slavery. Total slavery. That's why it's creating the kingdom of hell and totalitarianism whereas we, here together in the Sanctuaries of the world, we are creating the seeds for the world of freedom, of prosperity, conscience, responsibility, self reliance, and to be able to go as far as the gifts that God has given you. And those gifts, of course, for the glory of God. That's what's so radically different, folks.

I want to give it up one time for all the Sanctuaries around the world. Let's give it up for all those brothers and sisters. But I tell you what, the Asian brothers and sisters don't get this. the Asian brothers

and sisters don't get this yet. We're still trying to explain this to them, because they don't live in truly free societies. They are still dominated by hierarchies everywhere in Asia. Everywhere. So they don't understand this. "
