Join us for Health Freedom Day at the State Capitol in Charleston, West Virginia:

Monday, January 15, 2018 at 9 a.m. in the Capitol Rotunda in Charleston, WV:
www.facebook.com/events/1854067768245818/

Did you know that West Virginia denies the basic human right of having choice about whether or not to vaccinate your child for any particular vaccine? Let's change that this year! Contact your two state senators and your state representative in West Virginia and urge them to attend Health Freedom Day, and to support vaccine choice :

The contact info for your senators can be found here www.wvlegislature.gov/Senate1/roster.cfm
The contact info for your delegates can be found here www.wvlegislature.gov/House/roster.cfm
[HB 2945](#) was introduced on 1/10/2018 and referred to the House Health and Human Resources then Judiciary. This bill is sponsored by Delegate Folk and cosponsored by Delegates Wilson, Paynter, McGeehan, Kessinger, Sobonya, Rodighiero, Marcum and Fast.

[This bill](#) would establish religious and conscientious belief exemptions to vaccination for students and employees.

Many other states are also href="www.nvic.org/NVIC-Vaccine-News/October-2017/state-vaccine-legislation-in-america-2015-2017.aspx"> trying to curtail your right to choose to vaccinate your children or to not vaccinate your children.
