49TH ANNUAL COMMENCEMENT

May 31, 2025 • 2 PM ET • 4 W 43rd Street, NY, New York

Keynote Speaker and Recipient of Honorary Doctorate

DR. SAKENA YACOobi

**EDUCATOR AND FOUNDER OF THE
AFGHAN INSTITUTE OF LEARNING**

HJ International Graduate School for Peace and Public Leadership is proud to announce the conferral of an honorary doctorate upon Dr. Sakeena Yacoobi as part of its 49th Commencement Ceremony. The event will take place on Saturday, May 31st at 2:00 pm ET at 4 West 43rd Street, New York, NY.

Dr. Sakeena Yacoobi, known as the mother of Afghan education, has been a pioneering and devoted educator of refugees for 24 years working under the conviction that education is key to social reconstruction.

Dr. Yacoobi began educating teachers and establishing schools for boys and girls in Afghan refugee camps where people were struggling to survive after decades of war and a complete collapse of the education and the health system. In 1995, she established the Afghan Institute for Learning (AIL) to provide systematic refugee education and provided education and vocational training to 13 million women and children. Despite the Taliban regime's ban on women's schools, AIL successfully operated and educated more than 3,000 girls.

Creating Hope International (CHI), an organization co-founded by Dr. Yacoobi, provides technical assistance to four private schools, hospitals, and radio stations, including the Afghan Institute of Learning. Through its projects since 1996, CHI has provided health education to more than 2 million women and children significantly reducing infant mortality and maternal mortality rates during pregnancy and childbirth. It also provides Love and Forgiveness workshops to help transform refugees who have been surrounded by social deprivation and anger into positive leaders who can revive their local communities. Its radio broadcasting reaches more than a million people a day and covers a diverse range of topics including social trends, health, family success models, human rights, literature, and music to support the desire of refugees for a peaceful and fruitful life.

We are honored to recognize Dr. Yacoobi for her exceptional contributions to presenting a fundamental solution to refugee resettlement through education and contributing to the improvement of human rights. Her remarkable career exemplifies the values of our institution, and we are privileged to have her as our keynote speaker for this momentous occasion.

FRIDAY, MAY 16
2PM EST

On May 16 HJ International Graduate School for Peace and Public Leadership co-hosted a special program with the Research Institute for the Integration of World Thought (RIIWT) on “Does Switzerland’s neutrality have an expiration date?”

Neutrality has long been part of Switzerland’s image in the world and its history spans half a millennium. It is an armed neutrality that has allowed Switzerland to remain unscathed during the two World Wars. It is also a reason why many international organizations related to the UN are headquartered in Geneva, the birthplace of the Geneva Conventions and a frequent venue for peace negotiations. But is neutrality still a desirable option in today’s political environment? Are there still legitimate grounds to claim that it furthers peace? This has been increasingly challenged, both inside and outside of the country.

Dr. Thomas Walsh, President of HJI, hosts this event and Yves Nidegger, Esq., former member of Swiss parliament (National Council), is the presenter. Dr. Thomas Ward, Professor of Peace and Development Studies, HJI, is the respondent and Dr. Claude Perrottet, president of RIIWT moderates the event.

This insightful program concludes with a Q&A with the audience.

Katarina Connery, Doctor of Ministry | New Jersey, USA

What inspired you to apply to HJI and your program? What do you most appreciate about being a student at HJI?

I wanted to explore more deeply Dr. Hak Ja Han’s teachings about God being a Heavenly Parent, loving us as Heavenly Father and Heavenly Mother and how that might impact the daily life and sense of value for women. I appreciate that I have this space to explore theological and spiritual concepts from various religious traditions, including my own, and many different academic researchers and writers. Being part of the degree program gives a purpose and focus to my learning.

What do you enjoy in your free time?

I enjoy reading and going on adventures, exploring new places with my husband and kids.

What inspired you to apply to HJI and your program? What do you most appreciate about being a student at HJI?

I started by taking a few courses in search of educational and spiritual stimulation and inspiration. I decided to matriculate as I got interested in working in Chaplaincy and realized a degree would be required.

Share about the benefits of your online learning experience.

Easy to participate with a program that is entirely online. Stimulating to join with students from other locations, including other countries who may be able to add different points of view to the learning and the student experience.

Share about your internship or chaplaincy experience.

I'm currently participating in ACPE training as a Chaplain Intern at Westchester Medical Ctr. I've been happy to discover, one of the Staff Chaplains here is an instructor at HJI. Another is working on his doctoral thesis from HJI. I've found that HJI students have participated previously in the intern program.

What do you enjoy in your free time?

Reading, time with family and friends.
