

USA Cheon Il Guk Missionaries: 34 Angels In 9 Places

Akira Watanabe
October 11, 2020

Greeting readers!

This year our participants took on the task to go to different cities and towns to meet those influential people that can change the communities, either a mayor, council member, or the pastor.

As they met these influential people, they talked about being leaders of love.

They gave them Dr. Hak Ja Han's memoir as an inspiration and to learn from the Mother of Peace.

Many were very receptive and welcomed our amazing missionaries to their towns or cities.

The missionaries stayed there for a total of 5 days working together with the local churches.

All the missionaries loved and can't forget their towns or cities!

They all left with a legacy of love in their mission places!
