University of Distance Education  
(UNED)

Dear,

Our Vision is a world where freedom, peace, unity and happiness will flourish as economic development aligns with a spiritual and ethical purpose. This conference is a declaration that only as we move forward as a human family to embrace unifying universal values will then an economy be built producing a sustainable and harmonious society.

IAED, an offspring of the Universal Peace Federation, is committed to leading this conversation, finding like-minded business and economic thought leaders to help further the development of a framework for a values-based justice-driven economy. Together we can build a good and beautiful world worthy of God’s original ideal and love.

This meeting will be held online over two days to accommodate different time zones. There will be time for questions to the panelists and discussion on the issues raised. You must register for each session separately. Further details on the presentation topics will be sent next week.

**Session I:**

**[Click here for your Timezone](#)**

**Friday, Sept 26, 7:00 pm – 9:00 pm EST**

**Saturday, Sept 27, 9:00 am – 11:00 am AEST**

**Saturday, Sept 27, 8:00 am - 10:00 am Seoul**

Register For  
Session 1

## International Association for Peace and Economic Development - USA

We affirm our belief that business leaders have the opportunity and responsibility to work in collaboration with other sectors of society to make the world a better place, addressing its most significant challenges, and promoting world peace, long-term mutual prosperity and truly sustainable development

## IAED Headwing Economics Conference - Session 1

Date & Time Sep 26, 2025 05:00 PM in [Mountain Time \(US and Canada\)](#)

Description No economy or economic order is built in a vacuum, but on foundational values of the culture. No just or sustainable economy will be realized by the top-down political will of rulers, global technocratic elites or even best-intended democratic politics.

This conference is a declaration that only as we move forward as a human family to embrace unifying universal values rooted in spiritual and ethical principles will an economy be built producing a sustainable and harmonious society. Any utopian dreams devoid of alignment with spiritual and moral principles will be fruitless endeavors and likely create human catastrophe.

IAED is committed to leading this conversation, finding like-minded business and economic thought leaders to help further the development of a framework for a values-based justice-driven economy.
