WFWP - Asia

Theme: Preparation for True Parents' World Speaking Tour in Taiwan

On July 29th, WFWP Taiwan held the WFWP board members meeting at the HQ church in Taipei. In preparation for TP's world tour to Taiwan, we emphasized the importance for all WFWP board members to connect deeply with the Founders of WFWP and understand their heart by reading True Father's autobiography. Many WFWP board members also attended the Divine Principle lectures on every Friday morning. Every WFWP board member expressed their deep appreciation for Father Moon's work and contribution toward world peace. We also discussed about organizing WFWP board members as Taiwan delegates to participate in the 20th WFWP Anniversary celebration in Korea in April 2012. In conclusion some WFWP board members shared their experiences on their trips to Mainland China in April 2011. Through such a gathering, a total of 30 WFWP members expressed their oneness in heart and offered their wholehearted support.

AIDS Prevention & Anti-Drug Abuse Campaign

WFWP is preparing the 2011 AIDS Prevention & Anti- Drug campaign by advertising through posters, bus, radio, TV and interactive Q &A on internet. This campaign targets youth groups and students from fifth grade until the age of 30. Youth is the future hope of a nation, but there are many of them who live in horror and grief due to irreparable mistakes committed out of ignorance. This campaign will reach out to students through interactive ways like role-play, activities, and quizzes during the lecture when the schools open in September. WFWP educates students with the basic knowledge on AIDS Prevention, and guides them with correct perspectives on gender issues based on pure love education.

Women learn about their role in family and society through the program

Presenting TF's autobiography to the speaker

Empower Women Through Education

This training program is to help women develop their potential and to facilitate self-development. The objective is to empower women through recognizing their innate courage; like lifting up their sense of responsibility in voluntary services and applying their capabilities, experiences and resources in the field of public services especially the environmental protection, education and culture. WFWP also provides free courses for the single-parent families and disadvantaged families. About 40 participants join the program in each session.

Reflection

Life is to understand the significance of oneself and seeing each other's value. Women's care for their family is also a very important social contribution. I appreciate WFWP offering these wonderful lectures to empower women through education, and teaching how to develop our talent externally and nurture our personality internally. I just felt infinite happiness whenever I attended a lecture arranged by WFWP; especially when I learned how to enhance the relationship between husband and wife or parent and child. I try my best to practice what I learned from the lecture and it helps a lot as I learn to control my impulsive nature in doing things and become more harmonious!

This program provides multiple courses in training women to become true women.

Chief Guest, Mrs Salma Khan is a Former Bangladesh Ambassador to Indonesia; main speaker, Prof. Golam Rahman from the University of Dhaka and Awardees on the stage.

The 15th Parent's Day Seminar

The Women's Federation for World Peace – Bangladesh (WFWP-B) organized the 15th Parent's Day seminar titled "Parenting with Love and Authority" on July 28 in Dhaka. The seminar was attended by about 80 people: educators, social and NGO workers, and family members.

After Welcome Remarks by Mrs. Zeenat Ara Bhuiyan (WFWP-B President) and WFWP activity report by WFWP-B secretary general, 3 distinguished women were given WFWP Award 2011 for their contribution to the society. As the main speaker, Prof. Golam Rahman (Dept. of Mass Communication and Journalism, University of Dhaka) spoke about parent's love and authority giving many examples. As the chief guest, Mrs. Salma Khan (Former Bangladesh Ambassador to Indonesia) stated that the most powerful human bond is the parent-child relationship and equality between both sexes is conditional for good parenting.

Through the Parent's Day seminar, attendants recognized and promoted parenting as a central vocation for our families and communities. TV reporter came to cover the program and it was broadcasted by television at night news.

The seminar was attended by about 80 people

Grocery shop in slum area

Success as tailor shop owner

WFWP Service activity

WFWP has provided loan to about 150 women in the slum areas of Dhaka city. This year, 20 women received our loan to start a new small business. One of loan receivers, Mrs. Sanu, started "sari (woman's cloth)" selling. She purchased them from a wholesale market and sold them from door to door. She can now earn at least $50 per month. By generating income, her position in her family becomes more valuable and their family life is improved.

Additionally WFWP has successfully continued the projects of **Supplementary Nutrition and Non-formal Education** in Old Dhaka. About 40 underprivileged children receive cheap and highly nutritious food and at the same time literacy education every day except Friday. About 20 of their mothers also began to study every evening being inspired by their children. As most of them had no chance to learn at school, they are eagerly challenging to read and write.
