

## Report on 2 days WS with Rev. Yong

Tirana, October 20. – 21., 2012

On the weekend of 20<sup>th</sup> and 21<sup>st</sup> of October 2012, Albanian family members were so blessed to be able to receive Rev. Yong lectures on two full days.

Since we announced the importance of this special WS, members were eagerly waiting for Rev. Yong's visit and made their time to attend. Finally 107 members gathered at the Training Centre in Mullet – Tirana to listen to Rev. Yong lectures.

Until October 18<sup>th</sup> we knew that Rev. Yong and Christa Kamga were coming, but to our surprise, Pres. Song had decided suddenly to visit Albania together with Rev. Yong.

The Meeting started on Saturday at 06.00 Am with HDH reading True Mather's message given on the 3<sup>rd</sup> day after True Father's Seongwha on September 17<sup>th</sup>. Pres. Song then shared with members True Mother's heart and her desire & determination to go back to the spirit of early days of our church. Pres. Song encouraged everyone to pray hard and take to heart Mother's direction and bring victory to God and True Parents on Foundation Day.

Rev. Yong invested all his heart and love throughout the WS to convey God's message and explain deeply the meaning of True Father's life course and preparations made for the Foundation Day. He also answered to the many questions made by members.

As you will see below through the reflections of brothers and sisters, Rev. Yong brought True Parents' spirit in Albania and made us realize what we have to do at this historical time as we approach the Foundation Day.

We would like to thank Pres. Song for bringing Rev. Yong to Albania, Rev. Yong for his pure and unconditional investment and love for Albanian brothers and sisters and also our precious sister Christa who tirelessly translated all day long and united totally with Rev. Yong to convey the message fully.

**Below are some of the reflections of brothers and sisters!**

...When Rev. Yong was speaking I felt like True Father is in front of me and talked with a strong power like saying "stand up, move, be alive, take control over situations, it is time to act, to fight and to win". The lectures gave a feeling and inspiration which made me feel important in front of God. I was thinking so much during lectures such as I was already making plans in my mind. I have a strong desire to do a lot of things, to help many people. I really wish to make God and True Parents proud and to be really like child.

...This workshop was necessary for me. I needed a strong shake to understand the things better. I've got answer for some questions I had, or to say better for some concepts which I had in my mind and didn't understand their core meaning. Moreover I understood the lack of information I have regarding the providence of God. I realized that I was narrow-minded, because I felt enough just to believe in True

Parents and the other information's was unnecessary. I understood that faith needs always to understand more, to connect more the word and actions...

...Thank you God, True Parents and FFWPU Albania for organizing such workshop! I attended 15 days workshop in summer, but couldn't focus so much, so this time was only two days, but I felt that the content was the one of 15 days. I was eagerly listening the lectures, such as it looked very short to me. I felt how thirsty I was spiritually. It was a miracle for me, thank you Rev. Young. He was the best lecture for me till now. I felt like True Father was speaking and not just Rev. Young. Father was calling to my whole physical, spiritual and all my cells to wake up. I feel sorry that there are not adequate words to express my soul!!!!

...Regarding lectures I was astonished. I thought I've study and learned Divine Principle and that I knew somehow the bible, but it was different. Even though I attended different workshops, still there was space to learn and understand more about God's Will. I could get more clear explanation about some issues...

...It was an intensive and fruitful weekend. I got a lot of information these days. I hope that I can analyze better in the coming days. I hope that this information will help in my relationship with God...

...The workshop started with the most important question "Why is Father Messiah?" Till now I believed in what he brought and achieved, but couldn't believe the great meaning behind his words and prayers accompanied with tears and pain. God is great, but this is a very limited concept in what really is in Him. This workshop made me understand where I am and where I should be...
