Respected Leaders,

The whole Unification Movement centered on True Parents is really working hard for the firm settlement of Cheon Il Guk and are walking the path of the Vision 2020 in order to do so. We have exactly two years, nine months and 24 days exactly 997 days until 2020.

True Mother centered on the light of Hyo Jeong (효정), True Mother has been praying that we all realize the firm settlement of Cheon Il Guk through accomplishing Vision 2020 and is directly leading this vision.

And centered on Hyo Jeong Cheon Won (효정천원), which is the model of the garden of Eden and Cheon Il Guk, True Mother is basically leading witnessing as the world mission strategy and creation of environment for witnessing as a peace strategy. And centered on this, she is also basically leading also raising young talents, which will be the key leading the former two (strategy-mentioned) and going beyond Korea, Japan and the United States.

This tribal messiah movement is now being conducted in Asia, Africa and many different countries with miraculous results and activities are being conducted. Every single day we can see results been taking place centered on True Parents. Not only that, but last year centered on IAPP, True Parents have been working to establish an environment, and this has been launched in different regions including Asia, Oceania and the greater China, West Africa, Europe, Central and South America, East Africa, Japan, and the United States ... A total of 2,500 CURRENT parliamentarians had actually participated in this great vision of True Parents; and, we were really able to establish the status for the Abel UN and we were able to bring about miraculous results.

The IAPP also has also been established by region beginning from Costa Rica, Burkina Faso, Santiago, Congo, Zambia...Australia, Cambodia, Malaysia, Nepal, Zambia, Paraguay and even recently in India. These are not just simply rallies but are actually the miraculous creation of an environment for witnessing.

These regional launching of IAPP actually began in February here in Korea where around 500 current parliamentarians from 123 countries and 100 heads of states including presidents, vice presidents, prime ministers, etc. actually participated through the event called 'The World Summit;' and, we were really able to establish the status of the Abel UN.

Through the 2017 World Summit we also had several important events including: The World Summit Conference; The IAPP World Assembly; The Second Sunhak Peace Prize; The ILC; ICUS, which was actually right after 17 years; The International Leaders' Conference for Peace; the launching of the 2017 Peace Road ... All of these events received participation by high summit leaders, centering on Korea, Japan and the United States. Achieving unity between these three countries were efforts of True Mother's clear providential design in order to open an era of Pacific Rim Revolution Realm.

Among True Mother's/True Parents' three main strategies, this year, True Mother is focusing on raising young talents and leaders this year; and, particularly after True Father's Seong Hwa, True Mother has been really focusing on raising young leaders who are actually (our hope in) future leaders.

We have the Wonmo Pyeongae (원모 평애) Scholarship Project, the UPA, the Top Gun Workshop, the Crane's Club, the Hawaiian Workshop, the Youth and Student Assembly, the Cheon Il Guk missionaries, etc. So, all of these were actually programs to actually raise Cheon Il Guk young leaders. True Mother combined all of these initiatives into the Sun Hak Global Educational Foundation and the International Association of Youth and Students.

Worldwide, there are around 42 educational institutions, including elementary, middle school, high school, universities and graduate schools. All these schools focus on teaching. So basically, we have more than 7,000 schools that actually teach True Parents' core values, philosophy and moral education.

Many countries including: Thailand; Nepal; Nigeria; Cambodia; Benin; Senegal are actually participating in the education of leaders from this perspective. True Mother is not only raising leaders internally but also externally from a life's goal perspective, which is not just simply a moral and ethical education, but it is one that also focuses on True Parents' core philosophy and values centering on the original education, which are already conducted.

True Mother is concentrating on trying to conduct educational initiatives that are sustainable for this kind of schools and school foundations. To do so, she established the Youth and Student International Association for this purpose.

So, the first international event that launched this International Association of Youth and Student which was participated by young people from 18 countries, True Mother told them: "You are the special forces of True Parents; and, please become one with Me. Let us really take the lead in realizing the settlement of Cheon Il Guk." Centered on True Parents' core philosophy and the truth, values, volunteering works and culture, through such internal and external activities, True Mother is trying to establish a model for the firm establishment of Cheon Il Guk.

For the past seven days in Japan, we also had the launching ceremony of the Youth and Student Association. Korea is planning to have it this coming June 4th. On June 13, also, the launching of this Youth and Student Association will also be happening in Asia, Greater China and Oceania, which we really hope to have the minister of education, related officials and presidents of schools, with around 12,000 people to participate in it, and True Mother will be directly leading all these events.

Last year, through IAPP regional launching, we also could make huge leaps providentially and this year centered on launching of the Youth and Student Association, I believe that True Mother will directly lead these initiatives with young people. True Mother is also planning to move on this year to be conducted in Central and South America, Europe, the Middle East and Northeast Region also in the USA. This will not just be simply a rally but will be a movement conducted in a very systematic procedure.

Respected leaders, in order to be successful during the remaining few years toward Vision 2020, True Mother commanded that we all be mobilized within the next three years. Centering on the True Parents, She hopes that the parents nation Korea & Japan and elder son nation can completely become one and open basically the Pacific Civilization Era. For this in heart and mind she has been conducting this "March Forward" rally.

Last April 30 in Korea 2,000 leaders actually gathered in an event called: 'Hope for Korea' and 'a National Rally for Harmony and Unity' Then, on May 10th, True Mother presided over the 30th Anniversary of the Citizens Federation for the Unification of North & South; in which She actually said she hopes that Korea, Japan and Asia can really practice a revolution of the culture of heart centered on True Parents and we open a new era of the Pacific Civilization Realm era.

Also, in Japan, on May 14, particularly on Mother's Day, around 12,000 leaders and members gathered in Tokyo where they held the Hyo Jeong Cultural Festival where She (True Mother) presided directed over the event; and, She said that, in order to open this Pacific Civilization Realm Era, She said that it was really important that we have a heart the same as that of a mother's.

During this period, centered on IAPP, in order to have the National restoration of Japan, She (True Mother) also held a historical conference. Also, in Korea, in the Yongnam area a march and rally was also held in which 12,000 leaders gathered.

So, right now we are living the status of crisis and threat because of North Korea's provocations and also China's rule, Korea basically and other different countries, many countries are actually facing a lot of confusion. So, True Mother who foresaw this type of confusion and this type of crisis prayed that we be able to overcome.

Last year, on October 6, She (True Mother) actually held a Korea/Japan rally where 1,500 leaders participated; and, 6 months after that, in order to become lights of Hyo Jeong that actually brighten the whole world, She directly commanded a rally between Korea and Japan to be held and presided directly over the event and gave a very strong message during that time.

Also, True Mother is wanting that the elder son country help the parents' country and support one another and open the Era of the Pacific Civilization Realm. She basically keeps working and leading these initiatives and it is through such achievements and effort that this special report session and event today was held.

So, let us please for True Parents that are working every single moment for the full settlement of Cheon Il Guk, please let us give a big round of applause for True Parents Who are really working so hard.

So, soon The True Parents of Heaven, Earth and Humankind will be entering; and, we will be beginning this event. Until True Parents enter, let us all have a time of devotion.

True Parents will be moving towards the hall to join us, so please rise from your seats with a heart of devotion and prepare to welcome the True Parents of Heaven, Earth and Humankind.

Good Morning Everyone, Good

At this moment, I would like to invite the respected leaders from Korea, Japan and America to give us reports about the rallies to march forward. First of all, I would like to welcome Rev. Lu Gyeong Suk (Korea president)

As the homeland of the providence they will explain what kind of strategies are implementing, what kind of activities are implementing at this moment. Rev. Lu Gyeong Suk will now come and give us a report. Let us welcome Rev. Lu Gyeong Suk with a big round of applause please.

Rev. Lu Gyeong Suk report:

Good Morning Everyone,

Today we have gathered here for a truly historic and precious occasion. I would like to thank our True Parents and offer all glory to our True Parents.

2017 is truly a momentous year. As we began this year, I believe that we now live indeed at a time that is providentially very significant. Each day that I live I feel this profoundly. In particular, while True

Parents are on earth centering on True Mother Who is leading the providence here to establish a new substantial kingdom of heaven. True Mother is building a new era; and, I believe that even in the spirit world Heavenly Parent and the True Father are implementing and bringing about great miracles.

Together with the absolute mobilization for the next three years, on earth and in heaven, countless Blessed families, as well as absolute good spirits are mobilized to restore this earth with the heart of the Heavenly Parent. I am firmly confident of this fact. I believe that all of the leaders gathered here today feel the same way; and, you've had the same experiences, in particular you have had many spiritual experiences about the fact that we live in a truly different era, an era when Heaven's Providence is directly being implemented. We are feeling True Parents' victories in our lives.

As we began the fifth year of Cheon Il Guk in this providentially meaningful era, I believe that we live in the very important time. Because Mother mentioned that this is the springtime of the Providence. It is a miraculous time. Therefore, when we see that this miraculous springtime of the Providence is here with us, we can feel that the entire Life Course of our True Parents, the entire sum of Their achievements is embodied within this statement.

On True Parents' holy Birthday, True Parents decreed the absolute mobilization for the next three years; and, we held a special rally to mark the beginning of this mobilization. We are marching forward for the sake of this absolute victory. On that foundation, True Parents (of course this will be in the solar calendar but) during the Cheon Il Guk Leaders' Assembly, True Mother called upon the Peace Ambassadors, National Messiahs, Blessed families and all leaders in Korea to really embrace the great goal that is national restoration and march forward with great zeal.

When we analyze the contents of Mother's Speech, we understand that over the next three years, Mother's hope is that within the next three years, we can restore the Homeland of the Providence, Korea; but also, restore seven nations around the world and offer these nations to Heavenly Parent to realize the ideal of Cheon Il Guk on this earth. This is the earnest desire and wish of Heavenly Parent and The True Parents.

On this foundation on March 29 here in Cheon Seong Wang Rim Kung Jeon True Mother called all the leaders from Korea and Mother mentioned that all the leaders must bring about great results. About 1,300 key leaders from Korea gathered, all the pastors, current and senior pastors, public leaders, Japanese missionaries, Peace Ambassadors and all key leaders, 1,300 of them, gathered in Cheong Pyeong and heard, once again, Mother's strong message about absolute mobilization for the next three years.

I believe, what is our role? what is Heaven's Providence? What is our responsibility? Mother spoke very clearly. When you look at Mother's Message, you can feel that over the next three years, we need to restore this nation. That is how this people of Korea can find salvation and how this world can find salvation. We must testify proudly to True Parents without fail. Each one of us must have the firmness of determination that 'I will become the hero that realizes national restoration for Heaven.'

I feel personally that this providential Message is something that all the Blessed families and members from around the world must engrave deeply within their hearts and march forward strongly for the sake of national restoration.
