

## **20210103 2021 New Year's Special Joint Service of Heavenly Parent's Holy Community and Heavenly FFWPU-Korea**

### **Special Report by HQ Director for the New Year's Service**

Greetings, beloved Cheon Il Guk leaders and blessed families. It is good to see you all. I would first like to say that it is quite a delight to see you all looking healthy, and that I have truly missed you.

Since yesterday, and throughout today, True Mother continuously offered much devotion for the Heavenly Parent's Holy Community 2021 New Year Special Joint Service for FFWPU Heavenly Korea. From early this morning, she prepared herself to look her most beautiful, and she is attending this service together with us one in heart, even though we are all separated from each other in terms of space. Mother has indeed worked hard and offered every form of devotion possible to usher in the New Year with devout faith. Therefore, let us begin with a special round of applause to show our appreciation to our True Parents of Heaven, Earth and Humankind – especially our True Mother, the only begotten Daughter and Holy Spirit in substantial form – for all that they have done for us.

Even though last year was a very difficult one on account of the unprecedented coronavirus pandemic, I pray that the love and blessings of Heavenly Parent and True Parents will be with all leaders, blessed families and members. We also contributed what little we could during the last seven-year course under True Mother's leadership, though we are lacking in many ways, and we finally achieved success. This year marks the first year of the new course headed toward 2027. I believe we all have a small share in all that has been achieved under True Mother's leadership in 2020, so let us give a big round of applause for ourselves. Well done, everyone. When I look back upon the past year, I feel that it has been a year of three great miracles. Despite the great calamity of the coronavirus, the Unification Movement, particularly the "Cheon Il Guk Movement" led by True Mother, has indeed been a miracle of miracles. The first miracle is that the firm establishment of Cheon Il Guk has actually been realized through the restoration of seven nations, seven religious orders and a continent.

On 1.13 [by the Heavenly Calendar] in 2013, True Mother opened the gates to the Cosmic Nation of Peace and Unity, and its firm establishment has finally been achieved on the level of a heavenly nation and heavenly continent. The second miracle is that, since Cheon Il Guk is the kingdom of our Heavenly Parent, the firm establishment of Cheon Il Guk signifies the

settlement of our Heavenly Parent. That is why True Mother was able to proclaim Heavenly Parent's Holy Community on May 8. And she bestowed the title "Cheonbo," which means Heavenly Parent's treasure, on those who have fulfilled their mission as heavenly tribal messiahs. At 10 am on the historic day of October 10, which was the 10<sup>th</sup> anniversary of the 1014 Blessing Ceremony of True Parents of Heaven, Earth and Humankind [at SunMoon University], we were registered as Cheonbo through the Grand Cheonbo Festival. And the third miracle has to do with the coronavirus, due to which individuals, families and nations have been under a complete lockdown.

Some have felt hopeless, such as one billionaire in America who made the extreme choice to commit suicide despite his billions because the isolation and lockdown made him so lonely and depressed. In this age, when we see nothing but despair around us, True Mother has brought hope to us. Do you remember all the events we held in 2020? I believe that the Grand Festival was nothing short of a miracle. When I reflect upon it, I almost tremble at the thought that it was True Mother's fortune that moved heavenly fortune. During 2020, and even now, the number of coronavirus patients has continued to rise, and it seems as if this pandemic will never end. Under the circumstances, it is quite remarkable that, from a decade ago, True Mother spoke of a new digital platform and said that this is the age when everyone is just one second away from one another. Before we held the Rally of Hope four times, True Mother said on May 8 that we need to make at least one third of the world's people know about God and attend Him. The fact is that this will be a difficult feat to achieve.

A third of the 7.8 billion population amounts to more than 2 billion people. But we created a platform for the Rally of Hope, and the first rally, held on August 9, was viewed live by 150 million people. Though the platform called PeaceLink was created later, the event was broadcast live both online and by national broadcasting stations, and 150 million tuned in.

The second Rally of Hope was held on September 27 and was viewed by 250 million people. The third Rally of Hope was held on November 22. Don't be surprised to learn that it was viewed by 310 million people. What truly amazed me is that, in the country of the Philippines, even Channel 4, a national broadcast channel, broadcast a program explaining everything about us, live. At least the first broadcast was done live, and I am sure it has been repeated many times since. When I think about it, the three Rallies of Hope, excluding the Rally of Hope for Christian Clergy, were viewed live by a total of 650 million people. That number of people listened to True Mother's words in real time and dreamed of hope. If this is not a miracle, what is? Let us, therefore, once again offer a round of applause to True Mother to show our gratitude.

Today I would like to speak about the three great miracles of 2020 under the title "New wine in new wineskins for the Era of the firm establishment of Cheon Il Guk". Though I don't know if I can convey True Mothers intentions and heart towards 2027 through my inadequate words, I would like to report on the new heart and attitude we must have toward 2027 as "new wine in new wineskins." I would like to begin by reading a passage from the Bible.

*"He told them this parable: "No one tears a piece out of a new garment to patch an old one. Otherwise, they will have torn the new garment, and the patch from the new will not match the old. And no one pours new wine into old wineskins. Otherwise, the new wine will burst the skins; the wine will run out and the wineskins will be ruined. No, new wine must be poured into new wineskins. And no one after drinking old wine wants the new, for they say, "The old is better."*

This is from Luke 5:36-39. I would like to read another message. This is from page 271 [English edition] of True Mothers autobiography.

*"We now approach the final task, which cannot be delayed. I must open the age of Cheon Il Guk. Cheon Il Guk is a Korean term signifying God's peace kingdom, in which two become one through love. It is a new age and we need to put on new clothes. As citizens of Cheon Il Guk, we need the clothing of filial piety in our family, patriotism in our nation, saints in the world, and divine sons and daughters in heaven and on earth.*

*I am on earth to speak the historical truth, and I am neither hesitant nor reserved about it. At the August 2018 Latin America World Summit held in Brazil, I compared today's Christianity to an unfertilized egg that will not yield life. I told this to a large number of denominational and religious leaders, including a Catholic cardinal. I said clearly that present-day religions can bring forth life only by accepting True Parents and receiving and sharing the marriage Blessing. No one objected to my words. Receiving the True Parents is the essential purpose of every religion. To fulfill my mission as the only begotten Daughter, the True Mother and the Mother of the universe, I must give rebirth to the nearly 8 billion people on earth as God's true children."*

Beloved leaders and blessed families, the passage I read from the Bible is familiar to us. True Mother began her speech at the Christian Clergy Rally of Hope with the passage about new wine in new wineskins. I believe you may already know its meaning. The new wine signifies the new truth and the new word. At that time, in Palestine, people would fill wineskins made of sheepskin with water and wine. Sheepskin is very soft and when you filled the wineskins with wine the sheepskin would expand as the wine fermented. However, sugars from the wine

would stick to the old and used wineskins and the wineskins couldnt stretch further. If you reused an old wineskin it would ruin the wine and it might also burst. At that time, Jesus used this metaphor to tell the people, with their nomistic and ritualistic faith, that the new Word, the new wine, must be poured into new wineskins and they must embrace new ideas.

The same message can be found in Mathew 13, the Parable of the Sower. No matter how good your seeds are, if they are scattered on the path, rocky places, or among thorns you will never have a good harvest. However, if they are sown on good soil you can produce a crop 30, 60, or even 100 times more than was sown. This parable has the same significance as above.

Right now, no matter how good the seeds of the Word are, if we are sowing seeds on the hard or rocky path of our old, fixed legalistic ideas, they cannot bear fruit. Thus, new wine must be poured into new wineskins. The final verse of the earlier passage from Luke especially resonated with me. "And no one after drinking old wine wants the new, for they say, 'The old is better.'" This means that those who are used to the old wine do not want the new wine. This is because it is not to their taste. Even at Jesus time the people were used to the fixed nomistic faith and teachings of the scribes and Pharisees and did not listen to Jesus new truth. This teaching from the Bible is very similar to the message in True Mothers autobiography. I also reflected on why True Mother told us to wear new clothes in the Cheon Il Guk era.

There is a very heart-stirring story:

There was a very famous French acrobat named Charles Blondin. He was very famous for tightrope walking and acrobatics. He took out an advertisement in *The New York Times*. The advertisement said he would tightrope walk across Niagara Falls. You all know Niagara Falls. It is 335 meters wide. That is the size of four soccer fields and is 16 stories tall. 40 million gallons, enough to fill 1,000 swimming pools, pour over every minute. Who would think to walk across it on a tightrope?!

People who saw the advertisement flocked to Niagara Falls to watch. Blondin asked them, "How many of you believe I can cross Niagara Falls on that rope?" The crowd thought, "Lets applaud, it doesnt cost us anything." Then Charles Boldin successfully crossed. However, he didnt stop there, he then shouted, "How many of you believe I can cross this rope with my eyes closed and on a unicycle?" The crowd thought again that it doesnt cost them anything so they clapped and encouraged him. They said he could make it; and he did. Then once across, he asked again, "How many of you believe I can cross while carrying a person on my back?" The crowd had seen two miracles, so they optimistically replied, "We believe you!" Then Charles Boldin said, "Then who would like to ride on my back?" No one came forward. There

was silence. Then a friend of Blondin's named Harry Colford [Blondin's manager] came forward

This photo was taken when Charles Blondin tightrope walked across Niagara Falls with Harry Colford on his back.

That was how Harry Colford became the first man to be carried across the Niagara Falls. Saying you believe with your words is different from really believing. However, what is even more moving is the following. You are probably looking at the slide right now and this is what Blondin told Harry Colford. He told his friend on his back, "My friend, when you are on my back never look down. You must only look up. When you are on the rope you cant think you are yourself, you must think 'I am Blondin.' Never try to gain balance on your own." This is what he told him. So, the two of them became one in order to cross Niagara Falls.

True Mother has said, "On the foundation of the victory of 2020, march forward together with me toward 2027." True Mother is carrying us on her back and is walking this path together with us. We must think we are Mother. I am True Mother. I must walk with Mothers heart as if I am True Mother. We must not look to the left or right. We must walk only united with Mother. Do you agree? Yes, you agree? Then, please give a big round of applause filled with our pledge and resolve to truly attend True Mother and walk this path united during this 2nd seven-year course.

True Mother opened the gate to the Cosmic Nation of Peace and Unity—Cheon Il Guk—on 1.13 [Heavenly Calendar] in 2013. After True Fathers Ascension, she vowed in front of him that she would bring about the settlement and firm establishment of Cheon Il Guk on earth during her lifetime. She has walked the path she had pledged. She has said it felt as though she were left all alone in this cosmos. Even though her body could not move even one step forward, she continuously travelled to the four corners of the world to embrace her children and show them miracles. We remember all of the courses walked from 2013 to 2019 and in particular the final 40-day Cosmic Canaan course. True Mother was victorious in this 7-year course and proclaimed the firm establishment of the Cosmic Nation of Peace and Unity on 1.13 by the Heavenly Calendar in 2020. As soon as True Mother proclaimed this, she embarked on the Second Cosmic Canaan course.

In particular, for us, the Korean people, a tribe connected with the providence, True Mother has given us the direction and encouraged us to set the conditions for the restoration of our nation within two years by 2022. Looking back, if 2013 to 2020 was the course to open the gate to a heavenly tribe, heavenly nation, heavenly continent, and heavenly world, then the

next course is for a heavenly unified Korea. Why? This is because this divided nation is the homeland of the providence. Without a heavenly unified Korea we cannot have a heavenly unified world. Conversely, a heavenly unified Korea cannot come about without a heavenly unified world. Thus True Mother has said we will restore, substantially, one third of the population of the regions by 2027. Then with the firm establishment of a heavenly unified world we will open the heavenly unified Cosmos. True Mother has said we will hold the 60<sup>th</sup> Anniversary of Heavenly Parents Day at the Cheon Il Temple which is Heavenly Parents final original temple.

Our 7-year course is to go forward until the firm establishment of a heavenly unified Korea and the firm establishment of a heavenly unified world, thus opening the heavenly Cosmos. True Mother has proclaimed the firm establishment of Cheon Il Guk through the victory of the 7-year course. The firm establishment of Cheon Il Guk is the firm settlement of Heavenly Parent. This means the firm establishment on the national level and the regional level. It is due to the firm establishment of Heavenly Parent that Heavenly Parents Holy Community could be proclaimed. The wish of God our Heavenly Parent during the last 7-year course was not "One family under God". "One family under God" is the result of God becoming our Heavenly Parent. His wish was not to be the Lord God, God our Father, or God our Mother, but to be our Heavenly Parent. That is all. The firm establishment of Heavenly Parent was on 1.13 [Heavenly Calendar] in 2020. Therefore, the Heavenly Parents Holy Community was proclaimed on May 8 and on October 10 members could be registered as Cheonbo, Heavenly Parent's treasures. Next, by 2027 we must establish, not "one family under God" or one cosmic family, but a cosmic family under the Heavenly Parent. We must restore heavenly regions to firmly establish a heavenly unified world and open the heavenly Cosmos.

Therefore, one great family of humanity throughout heaven and earth will be realized. In the Divine Principle, pages 285 to 286 [English], True Father said that Christ at the Second Advent will begin by laying the family foundation for the Messiah. He will then expand this to the clan, society, nation, world, and cosmos. When this foundation is secure, he will finally be able to build the Kingdom of Heaven. True Mother is carrying out this perfect plan through the last 7-year course and this next 7-year course. These are the words True Mother said when she proclaimed our Heavenly Parent on January 7, 2013.

The wish of God our Creator is to perfect the ideal of "God the Father" and "God the Mother" on earth through "True Parents," His only begotten Son and only begotten Daughter, in order to become the vertical True Parent of humanity as their "Heavenly Parent".

On May 8, as I reported to True Mother on this day as well, True Father had repeatedly emphasized about Heavenly Parent in the original Principle text, completed in 1952.

“The original people before the Fall must go on to perfect their eternal lives by becoming one with God the Father and Mother”

“If parents came to exist on earth, shouldn’t there be Parents in heaven as well?”

“Therefore, when the Kingdom of Heaven on earth where we can attend Heavenly Parent begins, those who are born on earth need to become perfected as eternal couples that attend Heavenly Parent and fulfill Heaven’s Will.”

Prior to his ascension, True Father said the following at the Abel Women UN inaugural rally:

“Until now, there have been many religions that believe in God the Heavenly Father. However, the shameful fact is that we have believed in religions that did not uphold the mother aspect of God the father.”

In one word, if there is God the Father, there must be “God the Mother,” whose very existence makes possible the designation “God the Father.”

This came from Father’s words.

In order to firmly settle Heavenly Parent on earth, we had to go through the Old, New and Completed Testament Eras.... True Mother knows all this. I also made a report about this to Mother on May 8. In the Old Testament Age, God was known as the Lord God while in the New Testament Age, He was known as the Heavenly Father. In the Completed Testament Age, God was understood as the Heavenly Parent with the focus on Heavenly Father. In the Cheon Il Guk Era, God is known as the Heavenly Parent but with the focus on God the Mother. That is why the Heavenly Parent’s Holy Community must emerge.

We went from HSA-UWC to the Family Federation, and the Heavenly Parent’s Holy Community also had to be proclaimed. There are still some among us who do not believe or understand the Completed Testament Age, Cheon Il Guk or True Mother’s words.

As I mentioned when I quoted from the Divine Principle, hasn't True Father continued to work, even in the spirit world? He has. Father in heaven and Mother on earth represent the cosmos [heaven and earth]. Therefore, this is the age of Cheon Il Guk, the Cosmic Nation of Peace and Unity. True Mother made preparations for the day Heavenly Parent becomes firmly established, for the junction between the Completed Testament and Cheon Il Guk Eras.

It has been God's hope to become the Heavenly Parent. We must therefore emphasize both God's only begotten Son and God's only begotten Daughter. Following True Father's ascension, True Mother presided over many rallies and meetings and placed much emphasis on God's only begotten Daughter. However, have you ever thought deep inside, "Ah, Mother we understand everything now. It would be good if you could emphasize a bit less about God's only begotten Daughter"...? It will be good if we can all reflect on this.

Through God's only begotten Daughter, True Mother is not only establishing her identity, she is also upholding Heavenly Mother.

At the WCLC Rally of Hope, True Mother spoke about John Calvin in 1543. We call the period from Luther's reformation in 1517 to the end of World War I in 1918 as the 400-year Period of Preparation for the Second Advent of the Messiah.

Two documents written by Calvin in 1543 were significant to religious reform. One was on the necessity of reforming the church while the other was a document submitted to the Diet at Speyer. However, more important was Calvin's book entitled *Institutes of the Christian Religion*. This book was published in 1536. The third edition was published in 1544, and the final edition in 1559. But why is True Mother focusing on the 1540s?

In the church theory back then is mention of the church as the mother's church. True Mother regards the period between 1543 to the Cairo Conference in 1943 as the period of preparation for the birth and first advent of God's only begotten Daughter. Hence, the Period of Preparation for the Second Advent of the Messiah can be interpreted as not only the preparation period for the second advent of God's only begotten Son, but also as the preparation period for the first advent of God's only begotten Daughter and the advent of the True Parents.

It isn't just this 400-year period. True Mother prepared everything centered on our Heavenly Parent, beginning with information about the process from 6,000 years ago and the purpose of Jesus' coming on earth. She is planning to compile all this material as the scripture of the Heavenly Parent's Holy Community.

You may remember how True Mother once mentioned that Christianity had arrived in our land 100 years before God's only begotten Daughter was born in 1943. Following that message, I received a lot of inquiring text messages, with many asking: "Shouldn't True Mother be given the right information?"

1885 is the year the Protestant Church officially came into Korea. I also know this fact. If you search for it on the internet, everything is there. Wouldn't I know about this as someone who studied theology? However, this is American Christianity.

About two to three years ago, True Mother asked the International Headquarters to research these matters. Accordingly, we have been researching them.

Once writings on these issues are finalized, you may be able to see them published. One example is the Opium War between China and Great Britain that came to an end through the signing of the Treaty of Nanking, a treaty that came into effect in 1843. In 1844, the Treaty of Whampoa was also signed between China and France. This Treaty of Whampoa was significant in that China legalized the practice of the Christian faith. Then we saw a rebellion by Chinese Christians called the Taiping Heavenly Kingdom rebellion. Here, however, what is important is that Korea was based on Oriental philosophy and Western philosophy came through the Catholic Church.

There are stories that Catholicism might have entered Korea since the 1600s. However, who was the very first priest in Korea? That was Kim Tae-gon. In 1844, he was ordained as a deacon in China and the following year, after a mission to Korea, as a priest.

Christianity, more specifically Catholicism, was already here in Korea a hundred years before. True Mother says that, a hundred years ago, not only the Catholics but also the Protestants should have been prepared to receive the only begotten Son and particularly the only begotten Daughter. This parallel in providential history and everything connected to it will be explained in the Cheon Il Guk holy scriptures of Heavenly Parent. It may not be appropriate to say it, but the Korean national religion could be said to be the Heavenly Parent's Holy Community. And the holy scriptures will be the scriptures of the Heavenly Parent's Holy Community. These are what True Mother is planning to compile. For whom? For our Heavenly Parent.

Based on this vision, we should continue to follow the seven-year course until we finally achieve the ideal of one great cosmic family under Heavenly Parent in 2027, for that is the purpose of this course. When we look back on 2020, there were, as I said earlier, three miracles. I am sure you remember them all. Do you remember this scene from True Father's 100<sup>th</sup>

birthday and 60<sup>th</sup> anniversary of True Parents' Holy Wedding? On the right is standing Prime Minister Hun Sen, on the left former UN Secretary-General Ban Ki-moon, and the rest are all presidents. You can also see Prime Minister Rafini and the vice president of the Philippines.

And True Mother has always said, just as True Father before her, True Parents should have been born on a national foundation, but this did not come to pass. That is why, even though, at the time of his Holy Ascension, True Father should have departed to the spirit world on a national foundation, it did not happen that way, as Mother has said. For this reason, she is determined to realize national restoration. Accordingly, we prepared to celebrate True Parents' Birthday on the perfect national, even global foundation. Do you see that flag? It is the Cheon Il Guk flag. We also sang the national anthem of Cheon Il Guk at the time. I can never forget that moment. It was the 100<sup>th</sup> birthday of True Father and the 77<sup>th</sup> birthday of True Mother, and True Mother chose to memorialize and commemorate Father's birthday on the global foundation rather than to celebrate her own. I am truly grateful to True Mother for that.

And we had no less than forty events. 120 current and former heads of state, 50 chairmen of national assembly, 120 ministers, 500 parliamentarians, religious believers, politicians and more than 10,000 VVIPs from across the world came to Korea, the homeland of the providence, to be a part of the historic year of 2020, despite the coronavirus. On this foundation, True Mother was able to speak the following words on May 8, which brought me to tears:

"I don't know whether I will be able to remain another ten or twenty years on earth, but while I am still here, we need to realize the Kingdom of Heaven on earth where at least a third of the world's population of 7.7 billion people know about Heavenly Parent and attend Him."

Consequently, Mother proclaimed the Heavenly Parent's Holy Community. True Mother has defined that it is based on two axes: FFWPU as the religious aspect and UPF as the "UN" aspect. Both come under the Heavenly Parent's Holy Community.

Mother was in a great hurry to begin the providence by June 1 because the heavenly unified Korea needs to be realized. The 21 months until February of 2022 consist of formation, growth and completion periods of seven months each, and Mother asked that the course of 21 months begin with our laying a foundation of sincere devotion. Until the end of December, our leaders and members in heavenly Korea offered devotion together [weekly night prayer condition] and we offered up this victoriously.

Also, in order to achieve the settlement of a heavenly unified world by restoring one third of the world's people, we launched the Rallies of Hope. Everyone said we wouldn't be able to do

it. Yet we had planned this platform since February. During a period of six months, we created this platform. It is okay to be proud of this. What religion, which country, which organization can move billions of people around the world and give them hope? Mother is the only one who can do it. I truly believe that one hundred percent.

The nations' presidents that had been featured in the beginning are now saying they want to come back again. However, these rallies of hope for the realization of a heavenly unified world are the platform for the six rallies of hope for the realization of a heavenly unified Korea, to be held next year. Everything will be focused on Korea and on Mother.

Anyhow, after we finished our February events, starting in April, people in sixty thousand locations around the world participated in our conferences online. That foundation is how we did four Rallies of Hope. You remember all this so I will skip this. Isn't it a surprising fact that we can work closely with these people? Prime Minister Hun Sen, President Macky Sall, Prime Minister Brigi Rafini, Ban Ki-moon, Jimmy Morales, Stephen Harper, Paula White.... All of them gave great speeches, right? That was the second Rally of Hope. Reflecting back now still leaves me feeling thrilled. 260 million people watched it. The live webcast, not as a rerun.

This was the third Rally of Hope. Starting from the third Rally of Hope, we launched the vision for a heavenly unified Korea. It was held in conjunction with the 70th anniversary of the start of the Korean War. You will all remember this. This was a particularly moving scene. This is the president of South Sudan. South Sudan and Sudan were always in conflict. Their civil war could not be solved. The Pope called these leaders, Muslim and Christian, kissed their feet and asked them to make unity, but they did not. It really was a religious conflict.

Do you know who brought them to unite? It was Mother. We do not have a Unification Church in South Sudan. There is no UPF there. True Mother made it happen. Therefore, South Sudan declared the Juba Peace Agreement in front of the entire world. Mother then presented the two leaders with a Good Governance Award. This was broadcast live around the globe. South Sudan is also the homeland of UPF vice president Dr. Tageldin Hamad. Isn't that a miracle? This could not have been possible through human power. Didn't Mother tearfully lament that we must create a completely new and united America? "Forgive and unite." Why does she say that? Only when America unites can Korea also unite. A heavenly unified Korea is possible when we achieve a heavenly unified America.

In November 1620, the Pilgrim Fathers came to America on the Mayflower in search of religious freedom to attend Heavenly Parent. Exactly four hundred years later, in November 2020, Mother decided to visit the United States. It was not a good time to go because the

coronavirus situation was bad. But Mother insisted that she go at that time. We tried to dissuade her, but still she insisted. Mother said we needed to help America for the sake of Korea. We gathered more than ten thousand religious leaders around the world and made a resolution. On the foundation of having held the Cheonbo Festival...

With the proclamation of the Heavenly Parent's Holy Community, didn't Mother highly praise those who completed their heavenly tribal messiah mission as Heavenly Parent's treasures?

I received reflections from that day. Do you know what all our leaders and members from all over the world said? Over three thousand Cheonbo families told Mother that they were sorry. "Who are we that you give us so many Blessings?" Do you know what Mother said that day? She started her message by asking, "Do you know how long we have yearned for this day?" Father declared that everything would be complete when the last tribal messiahs earned their title and represented their countries. Yet Father did not see even a single Cheonbo family before he ascended.

What would have Mother's heart been like at that time?

And how moved would Father be when the last person registers as Cheonbo?

One very important milestone last year was in the UCI court case. You may have seen the official memo. It has been some 10 years since the case began in 2009, while True Father was still with us. These ten years have been a difficult time for our Unification family. We didn't want to hear the name "UCI."

Unification Church International! It was set up by True Parents in 1980 to support our Unification Movement around the world, yet its proud name was reduced in a way we could not have expected. Before Father departed this life, he made a declaration, yet that declaration was not followed.

You may recall the words Father spoke in Kodiak, Alaska. Secure UCI and change the directors; What is significant is that they had changed the name Unification Church International to UCI. That was not the full name. Moreover, they deleted the parts of the Articles of Incorporation that referred to supporting the global Unification Church and disseminating our Divine Principle teaching. The Articles were changed. And this does not just affect the US; there's also Korea. Now, also, there are hundreds of lawsuits in South America. Mother receives reports on these matters every day. But we have almost gotten to the end of

this. Amazing things are happening.

How many public assets did they sell? Atlantic Video, the UPI Building, the Sheraton Hotel, *The Washington Times*; you remember, don't you? On December 4, 2010, Father said he regained *The Washington Times* from those with communist leanings. There was Central City, and "Parc One" built on the Yoido holy ground. When I worked for the Korean church headquarters, Father and Mother, True Parents and members sold their blood to buy the Yoido land, *pyeong* by *pyeong*. When the UCI problem arose, one church member sent me a receipt. It was really a receipt that showed he had sold his blood and bought one *pyeong* of land with the money. Whose are these public assets? They are the public assets True Parents use for their work for our Heavenly Parent. UCI sold these off and took the proceeds. This has been going on for nearly 10 years. Was it necessary to sue to recover these huge losses? Should we have done that? Why should we have? There was a lot of criticism. I also received a lot of criticism. But Mother was steadfast in her resolve.

There was also a summary judgment on October 30, 2018. This is True Parents' Declaration. 4.23 HC; May 25, 2011. What does it say? We must absolutely obey True Parents' instructions and directions. UCI directors should immediately withdraw from their positions, relinquish all authority to the UCI founders, True Parents, and immediately return all assets to True Parents. They did not follow this, even after Father ascended to the spirit world. But on this past December 4, the court judgment was published. Restore the Articles of Incorporation to their original form. Restore the name from UCI to the original name. The directors are to step down and be replaced. And the assets they sold must be returned. True Parents proclamation has been fulfilled.

However, we only know of what we hear on the surface, the victories and news-like contents. However, do you know of the blood, sweat, and tears True Mother has shed behind the scenes? True Mother had to go to the United States because of the UCI case. When the deposition video with True Mother came out, some people said, "Did True Mother really have to go that far?" I was criticized as well for this. However, True Mother had to go. She had to walk with confidence. Do you know why? I didn't say why back then, but True Mother did it for True Father. Not only is the return of our public property important, but those on the other side were making issues with True Father's health. True Mother went there and testified that True Father was in good health and ascended after having achieved everything.

It was December 2017, when True Mother was in the United States. The situation back then was heart-breaking. It was amid such dire situation that True Mother came out. She had no

strength whatsoever left in her. She asked us to find a hamburger store. We hastily tried to find one as True Mother had missed her meal. So, we looked hard for a hamburger store. The store, itself, however hadn't been cleaned and had no electricity. It couldn't serve warm hamburgers. True Mother had a cold hamburger for a meal and then set off on the 5-hour journey from Washington DC to New York. She didn't say a word during the journey. By then, I had also personally received so much slander and criticism that I was thinking of quitting. I felt I would simply be a burden to True Mother. However, as I saw True Mother in this state, and as I watched True Mother carry the cross in so many ways, I asked myself what I could do. Then I resolved to attend True Mother no matter how little power I have. So I asked Mother the following question: "Mother, why is it that you took on such a difficult course after True Father's holy ascension? You could have easily chosen to live comfortably and could have compromised. Why did you choose to take the hard way?" True Mother then said the following: "Because I am Mother! Because I am Mother!"

Everyone, do you remember this title, *Because I am Mother*, from the musicals we saw? True Mother took on this course because she is our Mother. True Mother is following this course for True Father because she is our Mother. After True Father's holy ascension, whether it snowed or rained, she embraced us and loved us lest we became discouraged. Though she longed for True Father herself, she did not show it and continued walking this path.

Dear brothers and sisters, thank you so much for your hard work.

These are the historic scenes from the Grand Cheonbo Festival. I feel truly proud and sincerely thank you for all your hard work. True Mother brought all these contents to a conclusion, and restructured the Heavenly Parent's Holy Community organization for the 2<sup>nd</sup> seven-year course at the Victory Celebration on Oct. 10. The new restructuring included an increase from 7 regional groups to 9, and a total of 39 sub-regions. And we must restore 1/3 of the world. We can do it. It will happen! We will advance in faith and we will absolutely achieve it.

What is most important is that True Mother launched a new structure centered on the True Grandchildren by establishing regional presidents, regional vice-presidents, and Cheon Wi Won chairs who represent our 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> generations. True Mother appointed the Cheon Wi Won Chairs, the regional presidents and UPF chairs, for the realization of God's sovereignty, people, territory, and environment. The period between 2021 and 2022 is certainly the course to lay the foundation for the firm establishment of a Heavenly Unified Korea. And all leaders around the world are preparing for this one day. Hence, to understand

this and to bring about the unification of the two Koreas, the unification of the world is essential. Likewise, in order to unite the world, the unification of the two Koreas is essential. Let us all watch one video before continuing with today's strategy presentation.

### Video

As you saw in the video, with the blowing up of the inter-Korean liaison office, we can realize that the unification of North and South Korea will not come about by human effort alone. That's why True Mother gave these five Chinese characters, "*Shin Tong-il Hanguk*" (heavenly unified Korea). A heavenly unified Korea! This is our vision and strategy. As you saw in the video earlier, there have been many wars for supremacy, but these wars were over different values. In the stand-off between the United States and China, China has been defined as communist country and the war is thus seen to be a conflict of values between communism and democracy. As I mentioned earlier, in the war of supremacy between Britain and Russia, due to the alliance between Britain and Japan, the annexation of Korea by Japan in 1905 was allowed to take place. How are we to look at international relations from the viewpoint of the Cairo conference and the liberation of Korea? How will we view the unification of North and South Korea in the light of international relations? This is a very important point. A unified Korea cannot be achieved only by the two Koreas alone. This war between the United States and China is a platform war. This is about who will be able to control the new digital platforms and thus dominate the world. This is a war. South Korean president Moon Jae-In recently announced a Korean version of the New Deal, and announced the Digital New Deal and the Green New Deal. He said that he would make a Digital New Deal by 2025. And many countries in the world aim to realize such a thing by 2025. There is a reason for this. Let's watch this video.

### Video: Spacecraft take-off and landing footage (Space X)

While watching this video, you must have thought, "What's that?" What you just saw is about the inventor Elon Musk and SpaceX corporation, which launched Falcon Nine spacecraft. What's different is that, in the past, it was so expensive to launch a spacecraft. But here they are being "recycled." What you just saw were spacecraft that went into space and returned. In the past, the cost of sending one spacecraft into space was 600 billion to 1 trillion won. But this is now being reduced to one hundredth of the cost. Because of this reduction in cost, we will now be able to send many more satellites into space. SpaceX plans to send 12,000 satellites into space by 2025. Until 80.4 km above Korea is considered to be Korean air space, and Korea has the right to defend this space. It is Korean air space. However, space begins at 80.5

kilometers above the earth. SpaceX satellites will orbit at 550km.

Take a look at this. This is Starlink made by SpaceX. Because of these satellites the Internet will be available even at the top of the Himalayas. It is because of the Internet that you and I are having a non-face-to-face meeting today. Soon this will be possible even on the top of the Himalayas. A beta version for this already began operating last year. By 2025 we will be able to meet all over the world. With this foundation, there will be no further need for American troops on the ground anymore. In February 2019, the creation of the space force was ordered. In December 2019, the U.S. created its space force. After the U.S. Army, Navy, Air Force, Marine Corps, and Coast Guard, a 6th Space force was created. It's a single force. The new concept is protecting the Earth from space at 80.5 km. So, we can no longer view the placement of American troops as a matter of local geography.

Second, digital currency is possible because we are in the age of the Internet. What has our paper money meant so far? Paper money was meaningful because it was backed by gold. And even though Nixon withdrew from the gold standard, the dollar was recognized as a key currency because the US backed it. Now, in the Internet era, digital currency is coming into the market. A digital currency has already been tried in Korea, and China has already created a digital *yuan*. This is the beginning of a new single economy. The beginning of a single bank. As for passports and ID cards, LG Korea is making a single ID card for everywhere in the world. This is what is happening now. So, this single platform that has been transformed by a digital and internet reformation has now become a new platform creating smart cities, Artificial Intelligence, and so on. And this will lead to a single government that binds all the platforms of the world something like the focus of the Bilderberg meeting.

It can be said that right now the entire world is becoming a unified world. However, in that world there is no God; there is no Heavenly Parent. That is why Mother is asking us to recreate this platform. Ladies and gentlemen, the Cain-realm is telling the world to build this Starlink satellite project, which is costing billions, tens of billions and hundreds of billions. They want everything to connect in one place. After they do so, that is when we come in and use it to send Heavenly Parent's principles! PeaceLink is the platform that we are using for the Rallies of Hope for the Realization of a Heavenly Unified World. Do you understand now? Mother has told us to prepare for this. She's said we need to prepare ahead of time because by 2025 that is where the world is going.

We don't have the word "heavenly" in "unified world" but a unified world is only possible when everyone is connected. Moreover, Korea is a central axis for all problems – ideology,

economics, sexuality and inter-generational issues.

Therefore, when we change Korea and solve these issues, Korea can become a model for the world. Linchpin! A linchpin is what you call the piece that holds the wheel at its center and Korea should play the role of a linchpin. Jim Rogers also said something like this.

Since last year, we have held dozens of meetings but not simply about the ideologies of cultural or social movements. Therefore, with Dr. Jin Sung-Bae, we have created the theory of a heavenly unified Korea at the Hyo Jeong Academy of Arts and Sciences. Why? Our goal for February 2022 is crystal clear. Presidential and local elections will take place (in Korea) and those who are now 16 years old will be able to vote. When we analyze this, this is about 800 thousand people. If we can move just 800 thousand people, we will have a casting vote and have influence.

However, with what can we have influence? Not simply with campaigns but centering on True Parent's words we can create policy, and even make policy into law. True Mother said the country's administrators should request her to anoint them. To those administrators who accept True Parents' words as policy, we should exercise our influence through them with campaigns and education. This is a lecture program entitled "A Nation that Soars Once More: toward a heavenly unified Korea." The video we viewed earlier is also part of this program.

Therefore, the Family Federation is a true family movement—simply put, it is at the center of a heavenly unified Korea. Why? In North Korea, their constitution states that they are one family under Kim Il Sung's *Juche* ideology. He is a false parent. We are concentrating on a true family movement that is one family under Heavenly Parent and True Parents. The Family Federation is not focused on building the 5<sup>th</sup> UN office or the Undersea Tunnel, but rather on the True Family Movement, the Cheonbo Movement. First, the pastors, then the Cheonbo families and then the blessed families must focus on bringing 43 couples from their Cheonbo tribes.

Then who is responsible for the greater social movement? Universal Peace Federation will be. Thus, Mother reinforced their organization by creating an agenda to build a foundation of not only local restoration, but also national restoration and then the restoration of 1 million people. Among these, the Family Federation will do 200 thousand. And the youth said they would be responsible for 100 thousand people. So these three stages: On June 1, 2020, since True Mother appointed the regional commanders-in-chief [regional presidents], by December we laid the foundation for Stage 1, the formation stage. We set conditions, we formulated organization and strategy, and secured an actualization plan for Cheonbo activities, the most

important task of Heavenly Parent's Holy Community.

Stage 2 is January through July. UPF, the Universal Peace Federation's six pillars, the Summit Council, the Parliamentarians for Peace, the Interreligious Association....we are going to build all six pillars in each organization from Heavenly Gyeongsang District to Heavenly Gyeonggi-Incheon District. Why are we making this? We intend to launch a think tank. Not only with people from Korea, but a think tank of 2022 people around the world. Think Tank 2022 will launch during this seven-month course. 1011 people will be nominated from overseas including Christopher Hill, Joseph DeTrani, and Dick Cheney. Countless VIPs that spoke at our rallies are supporting a unified Korea. And in Korea, starting with the Heavenly Gyeongsang District, the five districts will work with the other 1011 people to build the six pillars. So what are we trying to accomplish? During this period of seven months, our agenda is to be able to pass into law policies that are centered on True Parents' words.

Whether it's the ruling party or the opposition party, we hope to create the space in which both parties accept True Parents' words and policy, and a place where Mother can anoint those administrators who request anointment. If Mother says "ah," we should say "ah"; if Mother says "oh," we should say "oh." We need that kind of foundation. We are not a social or cultural movement. We are a philosophical movement, an ideological movement.

For Stage 3, the last seven months from August 2021 to February 2022, what is our plan? We will host five Rallies of Hope. With this digital platform. What are we going to do with it? We are going to promote a movement for unification, a heavenly unified Korea, peace on the Korean peninsula, Dr. Hak Ja Han Moon, our True Mother, and reveal that we are the only hope. From 2020 to 2022 we want to show that Mother is not just the Mother of Peace but the Mother of Unity. By February 2022, we will establish the foundation for a heavenly unified Korea. It is possible. We can do it. All the leaders around the world are with us together.

With this foundation, we will embark on a 14-month course beginning this January until 2022. The Family Federation and the Universal Peace Federation will carry out their respective roles as I mentioned earlier. So in gathering 100 thousand people we will create a completely new cultural platform. That is why in February we will launch Think Tank 2022. Here we will also create policies based on True Parents' words. Look at these people for a moment: These individuals who are like glittering stars are all joining our think tank. We will host five Rallies of Hope, a summit for peace on the Korean peninsula, and for February next year we are preparing for a 1 Million Rally for Peace and Freedom in Korea and the World. As

I mentioned earlier this day is Mother's *Yume no hi* (Dream Day).

Until now we have said that during a six-month period if our young people go to church twice a month and tithe regularly they are considered young adult members. However, Mother says that is not correct. Individual perfection must be achieved before receiving the Blessing and family perfection is to receive the Blessing. If our second- and third-generation members trust the commandment to maintain sexual purity and do so until the Blessing, they have reached individual perfection. Nowadays, people do not marry. Therefore, YSP's role is the Family Federation and UPF is a character development center. They are to educate young people and connect them to the Blessing through the Family Federation which will then lead them to becoming Cheonbo families after being Blessed. An additional axis is YSP, raising global leaders who understand and attend Heavenly Parent.

Everyone, it is not so difficult to restore one third of the world's people to understand and attend Heavenly Parent. What is so hard about getting people to know and attend God, our Heavenly Parent? The challenge here is getting them to know and attend *True Parents*. And to receive the Blessing. Therefore, on the side of UPF, young people will take the path of professional leaders. The path to becoming true fathers and true mothers starts at the true parents' school. The true children's school is under the Hyo Jeong Academy, which Mother named. I am the director of the Hyo Jeong Cultural Center that Mother directed to prepare all the materials.

The true family academy will be central to performing Cheonbo training and within that, the Hyo Jeong Hak Dang will supervise the true children's school. From the time a child is conceived, True Mother said we should create a cultural agenda starting from prenatal education to elementary, middle and high school, and university. On October 16, 2016, I was appointed the director of the Hyo Jeong Cultural Center and have worked on this project together with YSP.

Starting three years ago, we made True Mother's life story into children's books like these. We made a series of seven books that are appropriate to read before and after a baby is born. Next, with these books we made children's songs according to topic. This next book is a sound book in which we put together songs with a story. If you press the button at the beginning of the chapter, it reads the story to you and sings the songs. We even made this too. Not only that, True Mother is strategizing how we can bring others to us in ways that appeal to the people of the world through cultural content such as study guides, animation, or media based on a heart of filial piety.

Hence, we made characters. You may know PinkPong and Pororo. My son is now two-years-old and if you say “Pororo” he goes crazy, calling “po-, po-!” We also made our own characters. Hyo-jeong, Hyo-ri, Hyo-ji, Hyo-mong, roughly named after the Chinese characters for emotion, intellect and will. Hyo-ji is also reminiscent of Hyo-jin nim and Hyo-mong means “the dream of filial piety.” With these characters we created twelve prenatal lullabies, a children’s life sound book, and seven children’s life fairytales.

You are probably familiar with the music site called Melon. If you go into Melon and search for Hyo Jeong children’s songs, our songs based on hyojeong became available yesterday. If you sing along with those songs you will naturally develop a heart of filial piety. Just like the folk tale of Shim Chung, stories about filial piety exist all over the world, though that term may not be used. So we are bringing together all the stories of filial piety from regions such as Africa, Europe, and Central and South America to create an animation and ultimately a video with our character Hyo Jeong called “Let’s play, Hyo Jeong.” We even created character dolls, merchandise and a study guide. Now I would like to show you a video:

Video script:

Im Hyojeong~. Im Hyoji~. Im Hyo ri~. Im Hyomong~. Hyojeong, lets play!

Three lovable siblings

out with Hyomong

What new adventure

awaits them today?

Hyojeong with his warm heart

Hyoji the smart one

The youngest, Hyori, zany and cute

-- Three siblings.

What country will they visit today?

What kind of friends will they meet?

Hyomong, please tell us

stories we don't know.

Greeting you with Hyojeong

Hello hello hello hello!

On an adventure with Hyoji

Yaho! Yaho! Yaho!

Dance with Hyori

Lalala Lalala

Hyomong and his exciting magic

Hoi Hoi Hoi Hoi

Three lovable siblings

On a journey with Hyo-Mung (Lets go!)

What kind of adventure awaits us?

Yay!

Wasn't that cute? Please let's give a warm round of applause. In this way, we will bring together such media content to create a complex cultural information center. It means that it will not be the church that witnesses to young children and middle/high school students; instead, we will create a new cultural center for witnessing, where our youth and students will witness and connect people to the church.

To that end, True Mother is already preparing a place in Hanam, a complex witnessing cultural center called HJ Family Café. Parents will accompany their children when they go to a kids' café, which will provide such materials as home-study materials, books for children, educational programs, animation and even MCN (Multi-channel Network). It will open in

January next year. Currently under construction, it is based on the four themes of intellect, emotion, will and our dreams. It is about 660 m<sup>2</sup> in area. I think Director Joo Jin-tae of District 1 will appreciate it, for it will open there first. However, it will be expanded to all the five districts eventually. True Mother will create it for them. Thus, YSP will fully educate young people in terms of culture through this HJ Family Café, this witnessing cultural center, to cultivate leaders who can contribute toward the heavenly unified Korea. We are also preparing to release a movie.

You will probably see the Little Angels movie in movie theaters next year. We are preparing for the heavenly unified Korea based on such a cultural agenda. Some 12,000 from our second generation do not come to church at present. When Mother learned of this, she asked us to bring our young people back, and that is why we began the Find-Your-Dream Camp. There has been some delay due to the coronavirus, but we will continue hosting it.

We will try to bring back these 12,000 second and third generationers, our young people who are not coming to church. The camp has been held three times already; you can see how happy they look. And in February, which is next month, we hope to hold a Rally of Hope for 100,000 youths and students. We, and particularly our second generation members, are making preparations to make this dream of bringing 100,000 youths together a reality. Do you know what this place is? It is the former International Headquarters Church. In the past, this church was connected to the entire world, and True Mother plans to make it the YSP Headquarters, connected to youths of the world. This renovation will be completed by 2021.

The complex cultural centers we build will hire our young people 100 percent, and they will in turn dedicate themselves to educate and guide our young children and middle/high school students. All of this is a part of True Mother's strategy for a heavenly unified Korea. By 2023, Mother will complete the environment of the Cheon Il Guk capital city and launch Cheon Jeong Won [executive] and Cheon Beob Won [judiciary]. That is her master plan. An acquaintance of mine visiting the Cheon Won Complex after a long absence recently told me he could not find his way around. This is what True Mother has done until now. There are Sun Su Won, Han Won House, Cheon Bo Won, Azalea Villas, Heaven G Burger, the HyoJeong Cultural Center, the Magnolia Complex and Cheon Seung Jeon. Hwa Jo Won, a garden for our Heavenly Parent, will also be created.

There is also the international village, of which True Father spoke many times. It will be constructed by 2023. And Heavenly Parent's Hotel will be built in 2023 next to the Peace World Center in the Cheon Won Complex. Mother also plans the HJ Revival Family Park Plus

One, a headquarters for very young children, to be built where the Training Center parking lot now stands. She is preparing all that for the second and third generations, the future generations that are growing up. In addition, we will focus on the three strategies of mission work, peace work and leadership training from 2023 to 2027, based on the three axes of witnessing, creating the environment and training new leaders. Thereupon, we will begin holding Blessing Ceremonies and summits on the regional level to restore a third of the 39 districts across the world. We will begin this project in May 2022 in West Africa.

Once all of this is achieved, our church should have achieved actual growth. Mother says church growth is the foundation for national restoration and that, for the church to grow, its members must be happy. She said that our members need to be happy in the era of settlement. And when all this is achieved, we will celebrate the 60<sup>th</sup> anniversary of Heavenly Parent's Day in 2027.

On the actual foundation of having successfully restored a third of the world, we would have realized the ideal of one great cosmic family under Heavenly Parent rather than under the Lord God, God our Heavenly Father or God our Heavenly Mother. Thereupon, we will dedicate the event that marks the final providence, a coronation ceremony hosted by True Parents at Cheon Won Gung Cheon Il Temple, Heavenly Parent's original temple. The final Grand World Summit will also be held then. For this, True Mother is making every preparation. Beloved leaders and members, the new truth, the new wine, has already been announced through the blood, sweat and tears of True Mother, and the new wineskin that will hold the new wine, in other words, the Heavenly Parent's Holy Community, has been launched.

And we are gathered here today at the New Year's Sunday Service to make our resolution and determination to create the foundation for firm settlement, which will serve as the basis for a heavenly unified Korea, working toward the successful conclusion of the second seven-year Cosmic Canaan Course based on Heavenly Parent's Holy Community. We have hope because True Mother is with us. We can do it because True Mother is working together with us. We can achieve it because Heavenly Parent is with True Mother. We can succeed, because we believe that Heavenly Parent will work through True Mother for all of us gathered here today.

Do you agree? Aju! Aju! Aju! If you agree and are determined to make your resolution, please offer once again a warm round of applause to show your gratitude, determination and resolution to the True Parents of Heaven, Earth and Humankind, and to the only begotten Daughter and Holy Spirit in substantial form, our True Mother.
