To be a blessed family is already to have a fearful title and a fearful position. For it is the position of being responsible for substance, lineage and heart.

If a blessed family does not realize the meaning of the Blessing, it will regret it for eternity.

Though blessed couples may have their individual shortcomings, we must respect them because Heaven gave them the blessing.

/SMM

Do you really know the value of the Blessing?

The blessing is the position which even Jesus and the Holy Spirit were not able to attain after working for 2,000 years since the Resurrection.

The position of being blessed is the position of Adam and Eve before the Fall.

/SMM

Because of blessed families, the world can start to develop horizontally.

Without them, the world develops only vertically.
