Introduction

Milton Erickson (5 December 1901 – 25 March 1980) an American psychiatrist and psychologist specializing in medical hypnosis and family therapy.

He is noted for his approach to the unconscious mind as creative and solution-generating.

He is also noted for influencing brief therapy, strategic family therapy, family systems therapy, solution focused brief therapy, and neuro-linguistic programming.

“The most important thing in changing human behavior is the person’s motivation.” – Milton H. Erickson

“Change will lead to insight far more often than insight will lead to change.” – Milton H. Erickson

“Trust your unconscious; it knows more than you do.”
– Milton H. Erickson

“Life will bring you pain all by itself.
Your responsibility is to create joy.”
– Milton H. Erickson

“It is really amazing what people can do.
Only they don't know what they can do.”
– Milton Erickson

“You use hypnosis not as a cure but as a means
of establishing a favorable climate in which to learn.”
– Milton Erickson

“I am very confident. I look confident.
I act confident. I speak in a confident way...”
– Milton Erickson

“You can teach a child the importance of pain by your behavior.
You can also teach as child the importance of no pain
by your behavior.” – Milton Erickson

“Life's difficulties are merely necessary roughage.”

– Milton Erickson

“When I wanted to know something, I wanted it undistorted by somebody else's imperfect knowledge.”

– Milton Erickson

“One's appreciation of, and understanding of the normal or the usual is requisite for any understanding of the abnormal or the unusual.” – Milton Erickson

“I have no intention of dying.
In fact, that will be the last thing I do!” – Milton H. Erickson

Every person's map of the world is as unique as their thumbprint. There are no two people alike. No two people who understand the same sentence the same way... So in dealing with people, you try not to fit them to your concept of what they should be.

— *Milton H. Erickson* —

AZ QUOTES

The purpose of brief therapy is to produce rapid change, not self-understanding; and change is, by necessity, a future event.

The focus in brief therapy, therefore, must be upon the future and away from the past.

the therapist needed to be aware of the patient's past but that the patient had no such need.

Erickson taught by example, not by direct instruction, how to use the orientation colored by a patient's past to help that individual acquire better and more adequate ways to live his or her future.

EXPOSITION OF THE
DIVINE
PRINCIPLE

THE HOLY SPIRIT ASSOCIATION FOR THE
UNIFICATION OF WORLD CHRISTIANITY

Comment:

The unconscious can be translated into the Spiritual 5 senses, + influence from Spiritual Body and Spiritual World as explained in Divine Principle.

Corresponding to the human mind and body, the universe consists of the incorporeal world (Spirit world) and the corporeal world (Physical world), both of which are real and substantial.

EXPOSITION OF THE
DIVINE
PRINCIPLE

THE HOLY SPIRIT ASSOCIATION FOR THE
UNIFICATION OF WORLD CHRISTIANITY

The incorporeal world is so called because we cannot perceive it through our five physical senses. Yet we can perceive it through our five spiritual senses.

Those who have had spiritual experiences testify that the incorporeal world appears as real as the world in which we live.

The incorporeal and corporeal worlds together form the cosmos.

Introduction Spirit World

Where is the spirit world?

It is in your bodies.

Thus, you go around with the spirit world on your shoulders, attending it – there is **no escaping it**.

The spirit world exists. It exists for this world, and this world exists for the sake of the eternal world.

People may question, “Where in the world is God?

Can there be a God in this world? Where on earth is the spirit world?” God’s dwelling place is the spirit world.

Introduction

The purpose of life on earth is mind-body perfection

What is the purpose of the Will? It is to perfect humankind spiritually and physically. Individually, our spirit represents the past and our body the present. Both worlds were invaded.

We are to conquer the present satanic world physically and the past satanic world spiritually. When you triumph over both past and present by upholding the standard of mind over matter, your future will be blessed.

/SMM 4 Aug 1974

Introduction

We need to know that it is the physical world, not the spirit world, which is the subject.

The physical world, not the spirit world, is the subject in achieving perfection.

The perfection of the physical world encompasses the perfection of both the spiritual and physical worlds.

Thus, life on earth is precious.

My only concern is that the spirit world is such that once you go you can never come back here.

Once you have gone there, you cannot return.

In that world, if you come to know things about cleaning your spirit and then try to resolve your issues, it will take billions of years.

In that place **there is no way to clean up such things.**

In this physical world, however, there are many difficulties and ups and downs, aren't there?

Even in one day you encounter a variety of troubles, and the more troubles you meet, the more skin you can shed, like a snake.

On the other hand, in the next world, the spirit world, though there is the stimulus of love,

there is **no indemnity that can rid you of your sins,**

so it takes countless eons to do that. /SMM 1993.01.03

Why don't human beings, who are the lords of all creation, have wings?

Is it enough that people live limited to the earth?

Actually we have higher-dimensional wings.

Once you die and shed your physical body, you will fly.

/ Sun Myung Moon

Angels and spirits... may be apparently translated from one place to another, and from one earth to another, even to earths which are at the end of the universe: so likewise may man as to his spirit, his body still remaining in its own place. /Emanuel Swedenborg

Why is it important to know about the Laws of Spiritual World!

”The internal character is invisible to the physical senses and yet it is responsible for the behavior of the external reality that is observed, directly or indirectly, by humans.

The implication of this is that the invisible inner world of creation is causal and therefore more important than the world known to human senses.

Yet little is known about the internal, spiritual, dimension of reality.

This is due, in part, to the fact that it is a realm intangible to the five senses of the body and beyond the reach of scientific instruments; consequently its study has remained the province of religion, which is the object of considerable skepticism in the modern, scientific world.”

Since the body is needed to provide vitality elements for growth of the spirit, the growing process to spiritual maturity is to be carried out on earth.

Men and women who do not reach the completion stage on earth have to continue their efforts to grow as disembodied spirits.

This is unimaginably more difficult than growing while on earth, since on earth an individual has a body to give vitality elements to his spirit directly.

Once detached from his or her body, a person can gain the benefit of vitality elements only indirectly, by serving men and women still on earth.

After all, the inhabitants of the spirit world are the souls (Spirit Self) of people who formerly lived on earth.

From this perspective, the spirit world is not so different from the physical world.

Source: The Good guy

All speech (no matter what the language) has its origins in the ideas and emotions of our intellect and heart.

In the spiritual world—which is closer to the origins of our being and mind—individuals communicate their ideas and affections directly to others (forgoing terrestrial words).

The image shows the musical score for Chopin's Prelude, Op. 28, No. 7. It is written for piano in 3/4 time and G major. The score is divided into two systems. The first system starts with a piano (p) dynamic and includes the instruction 'con Pedale'. The second system includes dynamics such as mezzo-piano (mp) and fortissimo (ff), along with the instruction 'rit. rallm.'. The notation includes treble and bass clefs, a key signature of one sharp (F#), and various musical symbols like slurs and accents.

The son of an Orthodox priest, Tesla was a mystic who had out-of-body experiences from the time he was seven years old. As a child, he saw a photograph of Niagara Falls and prophesied that one day he would harness the power there.

Nikola Tesla

He came up with his idea for alternating current (AC) in a vision he received while watching a sunset in a park in Budapest.

Another example of one of his prophetic ideas was his realization that matter and energy were interchangeable, an inspiration he received years before Einstein demonstrated the same idea with his Theory of Relativity.

He is a person some would describe as “spiritually open.”

Nikola Tesla

I feel an affinity for Tesla because I believe he was a mystic who was being inspired by the spirit world.

In my view, many great scientific inventions have come as revelations from heaven.

I believe that heaven was working through Tesla, and others like him, to advance God’s Providence.

Tesla was very idealistic and hoped that his inventions would be used for the benefit of all humanity.

Rowling gives an account of the experience on her website saying:

"I had been writing almost continuously since the age of six but I had never been so excited about an idea before. I simply sat and thought, for four (delayed train) hours, and all the details bubbled up in my brain, and this scrawny, black-haired, bespectacled boy who did not know he was a wizard became more and more real to me."

True Story

Twin girls, Brielle and Kyrie, were born 12 weeks ahead of their due date. Needing intensive care, they were placed in separate incubators.

Kyrie began to gain weight and her health stabilized.

But Brielle, born only 2 lbs, had trouble breathing, heart problems and other complications.

She was not expected to live.

Their nurse did everything she could to make Brielle's health better, but nothing she did was helping her. With nothing else to do, their nurse went against hospital policy and decided to place both babies in the same incubator.

She left the twin girls to sleep and when she returned she found a sight she could not believe. She called all the nurses and doctors and this is what they saw (refer to the picture above).

As Brielle got closer to her sister, Kyrie put her small little arm around her, as if to hug and support her sister.

From that moment on, Brielle's breathing and heart rate stabilized and her health became normal.

From then on, they decided to keep both babies together, because when they were together they kept each other alive.

And today (2011) they are 15 years old.
