

Our daughter Ye Hee Coleman ascended

Gerald and Chung-ja Coleman family
June 10, 2020

Greetings to all.

This past Feb 17, 2020 our daughter Ye Hee Coleman ascended after living 16 years with AIDS and Scleroderma.

These were both consider incurable.

We recently completed a 100 day morning period for her in the midst of coronavirus lockdown.

Our focus now is seeking a spiritual matching and blessing for her via Chung Pyung providence.

This is just for information.

Any support advise would be appreciated.

Kind regard,
