A big thank you to our Heavenly Parents and True Parents who guided us through all the preparations and the event.

The participants were highly encouraged and appreciative of the the whole event, and are looking forward to next year's program. They testified to having a deeper insight to the real meaning of peace and will make the effort to change themselves to become examples for others.

We were encouraged to make it an ongoing program for which we promised to do so. We are looking forward to future programs as well as next year's Peace Road 2019!
