nearly all b&s who participated in this Seminar received it as a special gift from our True Parents, just right in this providential time. It is giving deep insight, how to change our lifestyle in a very practical way, new wine in new wineskins. As national/community leader encourage all b&s to have this exciting experience of the ODP Seminar.

- **What is our clear vision and goal now?**

“Father Moon initiated the "one family under God" Blessing movement in 1960, to promote families of true love, families that go beyond barriers of race, religion, nationality and culture. In this way, we work to build one family under God, one family at a time”.

Promote the Blessing Ideal to European Society:

to promote the prosperity of society and save Europe from decline. Western Europe post WW2 have been focusing on economic prosperity – both parents working, few children, low birth rate and family breakdown. Eastern Europe is heading for same trend. What will the situation be like for our grandchildren, if we do not reverse this trend?—

Tribal Messiah-ship.

Thank you and may God Bless you.
