The participants could understand the true mission of Jesus and found hope through Principle of Restoration. They started to think about the meaning of life centered on God. How precious time we are living in the history. We could share more personal experiences after dinner and had more deep relationship as brother and sisters. We could create a joyful atmosphere for the guests and they could receive easily the content of Divine Principle in the first day WS. .

We had started early 6:00 with morning exercise and Hoon Dok Hae to prepare the lecture in the second day WS. Particularly for the lecture of Second Advent. The Messiah finally came on the earth by God's desperate work in the providence of restoration through indemnity condition. .

This seminar helps me to understand some points which I couldn't understand before. The most interesting presentation was the 'Principle of Restoration' the fact even man fallen in a sin, He can raise up with the help of God. The program was very good organized.
