

## Two Days Divine Principle Seminar

How to restore human values

Bucharest, Romania, 29. - 30. March 2014

**A**nnyonghaseyo!  
The Workshop was for our guests that already graduated 1Day Workshop and were inspired by the Divine Principle, wanting to change something in their lives. Our purpose was to study with them again about the Principle of Creation, Human Fall and Restoration, making them to put more questions about life and finding ways how to live it so they can come closer to God's ideal. The new lectures for them were the lectures about The Purpose of Messiah, Eschatology, Parallels of History and Second Advent. We wanted them to understand the preciousness of the time that we are living in, the heart of God and His hope for us and to introduce to them our True Parents. We had 3 new guests that attended the first day, but unfortunately 2 of them couldn't stay also for the second day. So we have 1 person who successfully finished our 2 Days Workshop and she was really happy and grateful. She wants to study more the Divine Principle and about True Parents and have more experiences through our activities. She already decided to change some bad habits from her life and this is bringing us so much joy.

Also in these 2 days some of our guests that already graduated 2 Days Workshop came as staff, to practice true love by helping us cooking, cleaning and singing. Together we could create beautiful family atmosphere.

Here are parts of their reflections:

**Dumitru Denisa(22):** "Romania CARP and Rev Moon truly brings the hope in the life that I had. The most

important thing for me is that I realized that you can be happy and feel eternal peace by giving...That is what makes us beautiful internally and externally. I can really study myself and grow so I can become an example for the people. We can do it!"

**Laura (16)-came as staff:** "I'm writing this reflection for the second time and I cannot have but the same words. What I learned new is from the discussion about subject and object partners. It is quite revelator for me because is breaking down everything I was thought before, to use the people so I can get well. I like to help my brothers and sisters, bringing them more internal joy, more than anything else. But I will feel truly a winner when I will feel that I gave love to somebody and that this somebody gave love to other people.

The time spent here is amazing because I'm surrounded by wonderful people passionate by what they do, loving and happy. And the opportunity that I had to cook was an amazing experience. I feel a different person, a person that I always wanted to be."

**George (20) –came as staff:** "I was delighted to listen again the Divine Principle. This Workshop is always a good reflection about life, about everything it was and what it has to be followed so we can have a good relationship, centered on love with all the brothers and sisters. Is the best lesson for life that is changing your perspective about the world.

I'm happy that I could cook and that we could bake cookies together."
