

# Purity Education Program

## My Life, My Family, My Lineage

Bucharest, Romania, 19. April 2016

**G**reetings from Romania! We are so grateful to offer this report in front of Heavenly Parents and True Parents. This Tuesday, we organized Purity Education event. Our subject was 'My life, My family, My lineage!' We shared about importance of lineage.

In the beginning we had presentation about 'Lineage'. What is the meaning of lineage?, How important is lineage? And the importance of my standing point now as historical result of all my ancestors.

Afterwards we made 4 teams and we tried to make interesting experiment with funny game named 'Sending Family Motto for your future generations!' Each team receive one family motto. And from the first person until last person we needed to show what is our family motto with motions. It was very

funny game but at same time we could **understand many things**. Because It's not easy to explain the family motto by motions and it changed when has arrived to the last person. Through this we could understand that in our lineage each person has a responsibility to send right message for the next generation. Even we received good things and bad things from our ancestors we can change it in better if we are aware of our responsibility. All of us could understand that we are standing at the crossing point of our lineage and we can make changes to be better.

In the end of this program we had sharing time in teams. We shared these 2 points, What kind of characteristics you received from your ancestors? What kind of characteristics do you want to give for your future children and decedents? So all the

participants felt that we need to find a way to make ourselves better for our children and descendants. Afterwards we had presentation about how to make it better. The most important things is Sexual purity, prepare for our future spouse. Because now, this young age is the period of preparation for the future. The period of focusing to develop our character, how to grow our heart and find out what is the real purpose of our life.

All the participants could feel the importance and value of their life. And importance of preparation for the future. We wish this program can encourage Romanian young people to keep Sexual Purity in order to make beautiful family in the future.

Thank you so much Heavenly Parents and True Parents.
