

Love between Man and Woman! Time to think about

Bucharest, Romania, 20. September 2016

Greetings from Romania!
We are so happy to offer this report in front of Heavenly Parents and True Parents. We organized Open Purity Education Event with joyful spirit. The purpose of this program was share the message about 'Absolute Sex' for all kind of people. Specially 'How important prepare for future family', 'Importance of Sexual Purity' and 'What is the difference between True Love and False Love'.

This program started with introducing each other. And lecturer

asked each of them to say in one word 'What is love' for them. It was interesting moment because all of us had similar opinions about Love.

First activity was making a 'Gift list' for future spouse. This list was internally and externally what you can give for your future spouse. All of participants were thinking deeply about themselves in order to find out what they can give for their future spouse. And afterwards we made two teams and share about their 'Gift List'. It was very deep experience for them to see clearly their situation if

they are ready to have partner or not. Because we all need preparation before meeting our partners. Lecturer encouraged participants to add more in the future what they can give for future spouse.

Program continued with presentation about difference of man and woman. And only with True Love we can overcome these differences and bring harmony and unity. So in here lecturer made

clear understanding what is True Love and what is not. All the participants could understand what kind of love they need to prepare for their future partner.

In the end we made interesting experiment with chocolate. Each participant received one chocolate which was packed very beautifully. We made pairs and one side could eat one piece of chocolate and put it back in the package. And we exchanged these chocolates as presents for each other. And shared their feelings. Who received chocolate which was packed beautifully were happy. But who received chocolate which was eaten one piece couldn't feel completely happy about this. The message of this experiment was chocolate is our love towards future spouse. If you use your love because of the moment of emotions or mood it never comes back like same before. It's really important to keep your love pure and completed like a chocolate which was packed beautifully.

We wish this program brings new wind of True Love for Romania young people and help them to create ideal family in the future.

Thank you so much Heavenly Parents
and True Parents.
