

# One and Two Days Divine Principle Seminar

Bucharest, Romania, 12. – 13. November 2016

By Romania CARP Team

**G**reetings from Romania! I would like to start this report by offering our gratitude to our Heavenly Parents and True Parents. We are in the last 40days JeongSung Condition period for JeonDo in 2016. So we are keep investing for searching young people who are searching Truth with their pure heart. This weekend we could see such a beautiful young people who attended 1 day and 2days Divine Principle Workshop. And we received a lot of hope and energy from them.

We started these Workshops with joyful songs and family atmosphere through getting know each other. Afterwards we separated rooms for 1day workshop and 2days workshop. We organized lectures with 'Principle of Creation', 'Human Fall' and 'Principle of Restoration' in 1 Day Divine Principle Workshop. In 2 Days Divine Principle lectures were 'Principle of Creation-section 1,2,3', 'Human Fall-section 1' in the morning and in the afternoon 'Human Fall-section 4', 'Eschatology and Human History' and 'Resurrection'. Specially this time our national leader Mr. Jeong gave most of the lectures so even it was deeper contents and more information, all the participants were very focused on the lectures. We could feel that they

came with strong determination to understand better Divine Principle. In the break time, they were asking questions in order to understand clearly and put in practice in their life.

In the afternoon before starting the second part of Divine Principle lectures, we made small joyful time for participants. One of our SES member prepared games in order to understand how to practice True Love and how to create Unity and Harmony. Through this time, we could feel the love between brothers and sisters centered on same Parents, Heavenly Parent!

In the evening, we organize 'Family Sharing'. We all gather together as family and we made small game. And afterwards we had sharing centered on questions. Many questions were very deep about life so all of us could understand each other better. At same time, some of the questions were really funny so we could laugh all together. We could create such a family atmosphere with full of God's Love.

Second day of workshop we had lectures about 'Principle of Restoration' and 'The purpose of Messiah', 'True Fathers life achievement' and presentation about 'CARP membership'. In this chance, we could share that who is True Parents. And all the participants were very curious about True Parents life so

we suggested to read autobiography of True Father. Also, the presentation about CARP membership was good opportunity to share more practical things about us. And 3 participants became CARP members!

We are sure that this workshop was new life experience for all of us with new vision and hope. We will continue to support our new brothers and sisters to discover Heavenly Parent's heart through Divine Principle study and activities.

Here is some reflections from participants.

## **Polihroniade Spiros**

The workshop today and yesterday was very interesting, very insightful. I have learned more about God, Korean culture, friendship, responsibility and nonetheless love. When I first found you, I was looking exactly for an organization like this; for people, exactly like you. I wouldn't change a thing about you or your activities. I still don't know much about how to do it, how you manage to pull off every activity in such original ways, but I do want to learn that. Learn to be a leader, to accept others around me, maybe even love them, to find myself. I like how we all get the chance to get things of our chests, to unload and to realize that "Yes you are also right!" The

chance to talk in public, to express sincere beliefs and ideas is very appealing to me, because in truth, I am changing a lot about me right now, and among this bad habits there is my attitude which used to be so negative and pessimistic. Now I smile every day, I am striving to get better to help all people, to fix relationships and so on. Coming to Romania CARP remains for me a beautiful experience which will transform my bad habits into good habits.

**Necea Titus**

The atmosphere here is like in a big family, so you practice what you preach. The energy is the same, is one of a united family. This 2 Days Workshop deepened my understanding about God, His purpose, how He loves humanity, about harmony between mind and body and soul, and about Jesus.

Jesus has dual characteristics he is human and he is God, but if we think of

him as human and compare him with our self his true mission was to have the ideal family. This had me thinking. Thank you for this!

I love your energy; Mr. Jeong you are like a true public speaker; you transmit a lot of good messages and I appreciate the time you spend with us. Thank you again!

**Terciu Dorel Alexandru**

When I came at CARP I didn't know anything about God and true love, true happiness but every time I come here I learn a lot of things and these things become more and more clear. Every day when I am with CARP member I learn something new and that makes me happy.

Almost everything about religion makes sense now, because in school I never listen to the teacher much, because I didn't understand the essence of religion. I didn't catch the message so I lost interest and didn't understand anything. When I lived in Brasov, I was

not happy and I didn't know why until now. I felt something good about you when you came in Moieciu for the workshop. I could see happiness in you that I didn't see before in any other person. What do this people have that I don't have? That was my first thought, so I decided to come to Bucharest, to start a new life, to change my way of thinking, because I suffered a lot in the past. I realized later that material things cannot give you everything. I felt a little bit lonely in the past, but I didn't know why, somehow I felt people were ignoring me. I didn't feel so good to meet people, I felt as if I am caring a heavy weight on my shoulders, I felt very pressured, but here at CARP it is a little bit better because people are open and I become more comfortable. I feel that here with you it's easier to meet new people in a comfortable way.

Thank you so much Heavenly Parents and True Parents!

# Pure Education Program

Bucharest, Romania, 15. November 2016

*By Romania CARP Team*

**G**reetings from Romania! We are so grateful to offer this report in front of Heavenly Parents and True Parents. This Tuesday, we organized Purity Education event. Our subject was 'The best preparation for future family - Life

with best teacher my conscience' We shared about importance of our life together with our conscience.

In the beginning, we had presentation about 'the role of our conscience'. That everything is created for a certain reason. We should use them for the created purpose. In order to understand better we made 2 teams and we tried to

find out 'what is the internal law(principle) and what is the external law(principle)'. Each team tried to find out the laws and principles around us. And we shared the importance of following these principles.

In the end of this program we read True Father's Ward about 'Conscience' in team and shared our inspirations. We could realize that our conscience is our best teacher to guide us for right direction. In order to create harmonious family in the future we need to become harmonious person. So the best preparation for our future family is the life with our conscience, which guide us to the principle life style.

All the participants could feel the importance and value of their life. And importance of preparation for the future. We wish this program can encourage Romanian young people to keep Sexual Purity in order to make beautiful family in the future.

Thank you so much Heavenly Parents and True Parents.
