

CARP Weekly Meeting

The position of Human Beings in the Cosmos

Bucharest, Romania, December 14, 2016

By Romania CARP Team

In our last CARP meeting at the Peace Center, we had the opportunity to share at the beginning about our CARP member's Man Mul Bok Ki experiences.

To help some of our community's families, we decided to raise funds together with CARP members and shared

about our lessons and obstacles. Although the weather conditions were not in our favor, this didn't stop the members to go out and give blessings and joy to the people around us. We hope that through our investment we can bring joy to God and True Parents and learn everyday how to express our loving heart in the society.

Later in the Carp Meeting we read about the position of human beings in the cosmos. It was very inspiring to understand about our value as rulers of spiritual world and physical world.

God created us in a very ingenious way, as human beings encapsulate elements from both physical world and spiritual world. It is refreshing to be reminded that as God's children we have such potential here on earth and if we can use our body to serve God and True Parents, we can absolutely become divine spirits and dwell in true love in the spiritual world.

Our conclusion was that our life is an amazing gift from God and it is in our power to become rulers of the spiritual world and physical world uniting both our mind and body here on earth.

The atmosphere was relaxing and our small family grows more beautiful with each meeting.

Thank you, our beloved Heavenly Parents and True Parents!
