## 2 Days Divine Principle Workshop

21-22th of October 2017

Romania, Bucharest

We are very happy and grateful for having been able to organize a 2 Days Divine Principle Workshop. After 2 months of JeonDo activity, lectures about Family values and Open HoonDokHae discussions, we could finally organize a 2 days workshop through which we could talk about the Divine Principle and True Parents' vision:

- The Principle of Creation, regarding Give and Take action, God's Character, True Love and the Spiritual world and growth
- The Human Fall, the process and consequences of this history changing event.
- The Principle of Restoration - concerning the Foundation for the Messiah and how we can see this in real life by the example of Adam's family
- Eschatology and the direction of human history
- Purpose of Messiah - about Jesus and the salvation he has brought through his sacrifice on the cross.

At the beginning of the workshop we presented ourselves and shared about the expectations that we have concerning the content of the lectures. "Everybody is struggling to attain happiness", this is what the Principle says and this is what we also discovered, that people want to find answers and peace of mind. We had 4 guests, very different in age and personality and we tried to offer to them a feeling of family and acceptance, of support and sincerity. At the same time we realized how essential it is to have an object partner.

As we are a small number of members doing mission in Romania, any extra helping hand is enormously precious. So with the involvement of our CARP members we could offer the lectures, cook delicious food and organize happy day, sharing and morning exercise. We sang together, laughed and talked about our lives and all this atmosphere brought a closeness that is so hard to create in every day circumstances. Life has a great way of putting us together "on one boat" in order to understand that we can evolve and grow only if we work together.

Happy day was truly happy, our joy was shared with the beautiful sunny weather. We ran around, worked together and had fun, leaving all our troubles behind for a few hours. In the evening sharing we aimed for getting to know each other better, our preferences and past. The next day, after the DP lectures, our CARP leader presented about the volunteering program and activities and amazingly, 3 of the participants decided to become members. We are sure the God and True Parents have guided our steps until here and that there is a path and divine plan for each of us. Finally there is hope in the world, the hope that can be seen in the eyes of those which are searching for the truth and striving for goodness. As we have said before, we are not great but we don't give up. We have confidence that this is a new beginning for our brothers and sister.

Thank you our Heavenly Parent and True Parents for this time.

With joy and love,

Romania CARP members
